MERIT WINS!**Now Over Ten Years On This Roof.**

PHILADELPHIA, February 23d 1889.
I had the roof of my house, No. 858 N. 12th St., painted with the W. D. Roberts Sr's Fire and Water-proof Paint nine years ago and since that time it has never been repainted or repaired: in fact, is as good to-day as when first put on while the next to it has been repainted several times. After this test of years, I cheerfully recommend it to all who desire an excellent and durable paint.

Respectfully,

GEO. MYERS, 2021 North 22d St.

A Leaky Roof Made Good As New.

PHILADELPHIA, June 20th. 1889.

Messrs. Roberts, Taylor & Co.,
GENTS:—I have thoroughly tested your Roofing Paint, and find it to be everything that you represented it to be. I have used it on two houses, Nos. 1221 and 1223 Stephen Street. The roofs leaked so badly, and were examined by several practical roofers who pronounced them past repairs: the roofs were painted with your paint between two and three years ago, and are now good and free from leak.

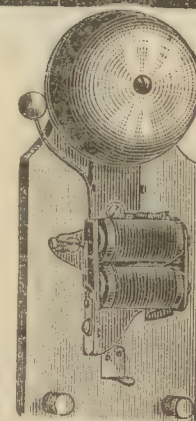

Yours respectfully,

DANIEL M. BORING,

Conveyancer and Real Estate Agent,

FOR TWENTY YEARS
EHRET'S
Slag-Stone Composition
ROOFING,

has stood the severest tests and in no case has it
ever failed.

It is Fire Proof, as well as Damp and Moisture
proof. It never expands or contracts; it is not af-
fected by **Steam, Acids, Gasses, Vapors** or other
injurious influences, that would render a metal roof
perfectly useless in a few weeks. It is air-tight and
is not affected by atmospheric influences of any
kind; it is durable and reliable in winter and sum-
mer, and positively requires no care or attention
whatever. It will out-last the BUILDING and for
**Factories, Chemical Works, Boiler and Engine-
houses, Depots, Factories, Mills and Warehouses,**
it is without an equal. It costs less than tin or
slate requires no painting, can be walked on with-
out injury and must not be considered in the same
light and prejudice usually bestowed upon what are
known as Tar Roofs.

BEWARE OF IMITATIONS, for the durability of
our Roofing is not only owing to our great care in
laving on a roof; but also in the scientific prepara-
tion of the Material we use. Circulars and testimo-
nials sent upon application.

PHILADELPHIA, WEDNESDAY, JULY 30, 1890.

PRICE 15 CENTS.

REPORT OF EASTERN DELEGATES
WHO ATTENDED ANNUAL MEETING OF
United States Savings, Loan and Building Company,
AT ST. PAUL, MINN., JUNE 12TH, 1890.

TO THE STOCKHOLDERS:

Philadelphia, Pa., July 10th, 1890.

We, the undersigned Delegates, representing the Eastern Stockholders of the above-named Company, at its Annual Meeting, held in St. Paul, Minn., June 12th, 1890, respectfully report:

That we arrived at St. Paul on the 10th day of June, 1890, and were met at the "Hotel Ryan" by the Officers and Directors of the Company, and were cordially welcomed and offered every facility for the purpose of making all examination into the affairs of the Company.

We immediately held a meeting of the delegates, of which Geo. W. Hancock, of Philadelphia, was chosen Chairman, and M. K. Watkins, of Mt. Carmel, Pa., Secretary. It was the decision of the meeting that we could expedite our business and make a more thorough investigation by dividing ourselves into four Committees, which was done, one on Securities, one on Treasurer's Accounts, one on Home Office, and one on the personnel of the Officers. A thorough and searching investigation was made by each Committee.

The Securities and Loans of the Company we found deposited with the Minnesota Loan and Trust Company, of Minneapolis (Trustee of the Company), and all the Loans made on a basis not exceeding one-half of the values of the respective properties. The delegates examined the papers in every Loan made by the Company since its incorporation. These papers consist of the application for the Loan, an affidavit by the applicant of the value of the property offered as security, the valuation made by the Local Board, which is composed of stockholders residing in the immediate vicinity of the respective properties on which the Loan is made, Abstract of Title, Certificate of Searches, Opinion of General and Local Attorneys, Policy of Fire Insurance, and stock of borrower, transferred to the Company, and Bond and Mortgage of the borrower.

The Treasurer's account was thoroughly examined and found to agree with the published report.

A thorough investigation was made of the books of the Company's Home Office, and found to agree with the accompanying report as of May 31, 1890. (In said report by words "Capital Invested" is meant "Capital invested in Loan Fund.")

As to the reputation of the Officers and Directors managing the Company, for honesty and integrity of purpose, none stand higher.

We found that a large portion of the stock of the Company was held in Pennsylvania and New Jersey, and asked that the number of Directors be increased to seven, and that two persons from the East be elected as Directors, which request was cheerfully granted, and Geo. W. Hancock, President of the Citizens' Trust, Tax Indemnity and Surety Co., of Philadelphia, and D. Somers Risley, Treasurer of the West Jersey Title and Guaranty Company, of Camden, N. J., were unanimously chosen and elected as Eastern Directors of the Company.

We therefore unanimously report that we believe the United States Savings, Loan and Building Company, of St. Paul, worthy of the confidence of its stockholders and the public generally; that the money and interests of Stockholders are carefully and profitably handled.

All of which is respectfully submitted.

GEO. W. HANCOCK, PHILADELPHIA, Chairman. On Committee on Securities. (President Citizens' Trust, Tax Indemnity and Surety Company; Director Commonwealth Title Insurance and Trust Company, and Director of several Building Associations.)

PHILADELPHIA, WED'Y. JULY 30, 1890.

For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communications for publication may be left.

THE Citizens's Municipal Association has, in its fourth annual report, made a most wanton and unjustifiable attack upon an honorable and faithful public servant, in the person of President of the Building Inspectors Wm. J. Gillingham, and we here assert that, from personal knowledge, the charges cannot be substantiated in the slightest degree, as the report, submitted two years since to City Councils upon the question of allowing frame buildings to be erected, completely and unqualifiedly exonerated the above named gentleman from any blame in the matter. In the face of the record in this matter, part of which is made by themselves, these gentlemen endeavor to injure the official integrity of Mr. Gillingham, whose ability and practical knowledge of what is required in the execution of the laws pertaining to the erection of any and all kinds of buildings, very justly placed him in the position he now fills. In order to find fault, these wiseacres should delve deeper and strike those who make the laws, and, by special ordinance, grant authority to construct frame structures before and since the investigation alluded to above, if they will confine their rage and spend it in the proper direction, the innocent will not suffer as in this case.

AN INVESTIGATING COMMITTEE THAT SEVERELY INVESTIGATED.—At the annual meeting of the stockholders of the United States Savings, Loan and Building Company, held at St. Paul, Minn., on June 12, 1890, the Eastern stockholders, with the view of finding out for themselves the true financial status of the company, its methods of doing business, as well as the character, integrity and business standing of the officers of the company, and the members of its Board of Directors, selected eighteen prominent business men from as many towns and cities in Pennsylvania and New Jersey, and defrayed their expenses to St. Paul, as a commit-

tee of investigation, with instructions to investigate in the fullest scope and meaning of the word. Upon the arrival of these eighteen representatives of the Eastern stockholders, they immediately proceeded to business by appointing from their number a committee for each department, with the view of probing into the minutest detail, in order that their report might not only be satisfactory to the stockholders, but that the company might stand or fall upon the result of the investigation.

An expert accountant, from Minneapolis, was engaged by the committee, and a most thorough and searching investigation was made as to every account, every investment, every paper connected with the business of the institution and the character of every officer, clerk and employee. In fact, the investigation, it is said, was of that cold-blooded, unsentimental character that the least short-comings of either company or officers would have been unearthed if there were any.

Lot-Buyers.

Architects and others had better correspond with the following lot buyers, as many of them contemplate building.

The building will be three stories high, of either sand-stone or pressed brick front. The architectural work will be modern in design and the interior will be arranged for the convenience of the company and other uses to which it may be adapted. Work will be begun at once. The Harrisburg City Passenger Railway Company has decided to pave where the old tracks were torn up at Market square, and also inside the rails with asphalt sheeting, except the two curves, which will be paved with vitrified brick on a concrete base.

—At Pittsburg, Architect J. E. Obitz, corner of Seventh and Smithfield streets, has prepared plans for a brick dwelling to be erected on Amberson avenue for Mrs. Huntsman, cost \$5,500. Architect Elmer E. Miller, Penn Building, has prepared plans for a residence for H. J. Muddock, Jr. A. F. S. Wilson has the contract for erection of four dwellings for Captain Vandergrift. Alden & Harlow, of 43 Sixth street, are the architects. The same architects have prepared plans for a two-story brick dwelling for Mrs. Bittinger; also drawings for a stone dwelling for Mrs. Schwartz. J. S. Klenefelter & Company has the contract for the erection of a two-story and attic brick dwelling for Thomas H. Chapman, cost \$9,000. Dr. P. D. Perchment will erect a residence to cost \$6,000.

At West Chester, Chester Co., it is reported that a syndicate is negotiating with A. Martin Darlington for the purchase of his farm adjoining the borough. Among the members of the syndicate are Plummer E. Jeffris, the contractor, Hemphill Brothers, T. Roney Williamson, the architect, and Wm. P. Marshall, all of West Chester. It is said to be the purpose of the syndicate to open Rosedale avenue eastward to the railroad, and have a station established at the point of intersection. The ground will then be staked off for building purposes and a number of improvements made. Pocohontas Lodge, No. 316, L. O. O. F., is to occupy the large hall on the third story of the new building, now in course of erection by Mr. T. T. Smith. It will be handsomely fitted up for purposes of the Order.

—At Glen Olden, Chester Co., the estate of Thomas P. Cope has been purchased by the Gatling Ordinance Company as a site for a large manufactory for the manufacture of large guns. The plant at first will cost about \$125,000, but will be further enlarged to combine gun making with the manufacture of steel casting and capabilities for testing guns of large calibre. The company has been chartered in West Virginia, with a capital of \$1,000,000, with privilege of increasing the capital to \$5,000,000. When completed, the proposed works will be the largest of the kind in the world. Dr. R. I. Gatling, the inventor of the Gatling gun, expects to arrive shortly in Philadelphia to complete the laying out of plans for the new factory. Dr. William H. Pancoast, 1100 Walnut street, Philadelphia, is interested in the project.

**SLAG-STONE
PAVEMENT.**

for Side-walks and Floors is conceded to be the best pro-
duction of the present century.

Slag-Stone when properly combined with the best
grades of Portland Cement produces an artificial Stone
superior in appearance, toughness, tensile and crushing
strength to any combination known to modern science.
Its durability is greater than the best Flag-Stone and
for that reason it is cheaper than brick.

Being a non-absorbent it is superior for **Canneries,**
Slaughter Houses, Damp Cellars, Boiler Houses, Dye
Houses Etc.

For the Cellars of Residences it expresses the
highest standard of perfect Sanitation as it prevents the
escape of noxious gases from the underlying soil, and
will not absorb impurities. It prevents dampness, is
easily cleaned and renders the whole house more com-
fortable and healthful.

MERIT WINS!

Now Over Ten Years On This Roof.

PHILADELPHIA, February 23d 1889.
I had the roof of my house, No. 858 N. 12th St., painted with the W. D. Roberts Sr's Fire and Water-proof Paint nine years ago, and since that time it has never been repainted or repaired: in fact, is as good to-day as when first put on while the next to it has been repainted several times.

After this test of years, I cheerfully recommend it to all who desire an excellent and durable paint.

Respectfully,

GEO. MYERS, 2021 North 22d St.

A Leaky Roof Made Good As New.

PHILADELPHIA, June 20th. 1889.

Messrs. Roberts, Taylor & Co.,
GENTS:—I have thoroughly tested your Roofing Paint, and find it to be everything that you represented it to be. I have used it on two houses, Nos. 1221 and 1223 Stephen Street. The roofs leaked so badly, and were examined by several practical roofers who pronounced them past repairs; the roofs were painted with your paint between two and three years ago, and are now good and free from leak.

Yours respectfully,

PHILADELPHIA, WED'Y. AUG. 6, 1890.

For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communications for publication may be left.

REAL estate brokers having building sites for sale, will do well to address X, this office, in answer to advertisement in this issue under want column.

The Tradesmen's Title and Trust Company, have contracted for alterations to their building, at 22nd and South streets, which are to be completed about October 1st, at which time the Company will commence business. The necessity for a Company of this kind in the southwestern part of the city, has been already confirmed, and even now there is a good share of business awaiting its opening. It is anticipated that the savings branch of the Company's business will become particularly heavy, as there has been already a warm interest expressed among the residents in this section of the city, as to the success of this department.

Stained Glass Windows.

In some ways we are wiser than our fathers. We live faster and worry more to be sure; but we live better, and many claim, longer than they. Our houses are more comfortable, our facilities for traveling with ease are vastly greater, and we do not forget to have things cheerful about us. The man who builds a house to-day is not satisfied with four plain walls and square, barn-like rooms, lighted by small windows of 7x9 panes, and partially heated by air-tight stoves; but puts into it every convenience and comfort which human ingenuity can devise, not omitting an occasional stained glass window, placed just where its rich colors will brighten and beautify library, drawing-room or hall, and be an unfailing source of delight to the family and their guests.—*Exchange.*

Read This—It's Short.

"Mr. Orlando B. Potter, who, since the disastrous fire in one of his buildings five or six

years ago, has been quite prominent in matters of construction in New York, appeared the other day before the Board of Building Examiners in relation to the proposed amendments of the law, and made some suggestions which were well received. He objected very strongly to the limitation of the height of all buildings to eighty feet, which has been proposed, saying, that if such a rule were enforced, the commercial supremacy of America would move elsewhere, and claimed that the slow-burning construction of wooden beams covered with plank, and plastered beneath on wire, should be permitted at heights greater than eighty feet, under the same conditions as one of iron beams and terra cotta arches. He said that this was practically fire-proof, while it cost only about ten per cent. more than the ordinary inflammable construction, and he was seconded by the President of the Continental Fire Insurance Company, who testified that his company would write policies of insurance on such structures for one-third less than the rates now charged for ordinary mercantile buildings."—*The American Architect and Building News.*

A Roman Architect's Plans.

After four years' steady work a Roman architect has just finished the plans for the most extraordinary theatre ever projected. It is park and opera house combined, so that horses and carriages may reach the door of every private box, or be driven among the fountains and stately gardens on the roof.

When the Duke of Torlonia was Syndic of Rome, he urged the creator of this wonderful scheme to continue his labors, and suggested that a great play house might be erected in the city as a crowning architectural development. Rome is now bankrupt, and there is no hope of ever seeing the building put up in Italy.

The architect proposes to lay his designs before the officials having charge of the World's Fair in America. He is backed by leading men in Rome. The whole work can be carried out in Italy at a cost of 12,000,000 francs, but the difference in the price of labor and material on the Western Continent will swell this aggregate enormously.

This vast edifice would contain 50,000 people, and comfortably seat 30,000. There are 180 dressing-rooms for the performers. The stage is 195 feet wide by 282 feet deep.—*Exchange.*

Miscellaneous.

At Holyoke, Hampden Co., Mass., a movement is on foot to erect a city hospital.

At Malden, Middlesex Co., Mass., a Catholic church is contemplated. Rev. M. F. Hatley can give information.

At Bangor, Maine, a new parochial school building will be erected at a cost of \$20,000. Rev. Father O'Brien can give information.

At Willimantic, Windham Co., Conn., a new school-house will be erected from plans prepared by S. E. Allen, of Willimantic. Estimates will be wanted in a short time.

W. K. Vanderbilt, of New York, has offered Gov. Sprague \$400,000 for his country place "Canonchet," in Rhode Island. If the terms are accepted a magnificent hotel will be erected.

At Maysville, Mason Co., Ky., it is reported that Messrs. McKellup & Peebles will erect a cigar factory.

At Winchester, Clark Co., Ky., it is reported that the Winchester Brick Company will erect an ice factory.

At Middlesborough, Bell Co., Ky., the Belt Line Brick Company, lately organized, will erect a brick works.

At Henderson, Henderson Co., Ky., A. B. Sights, and others, have organized a stock Company, and will erect a canning factory.

At Spring Garden, Cherokee Co., Ala., a stock company, with \$50,000 capital, is being formed to erect a steam tannery.

At Warrior, Jefferson Co., Ala., the Pearson Coal, Iron and Railroad Company can give information as to the erection of a water works.

At Savannah, Ga., the Central Brewing Company has been organized with a capital of \$100,000, and will erect a brewery.

At Decatur, De Kalb Co., Ga., John Pierce can give information as to the proposed erection of a large hotel.

At Olive Hill, Carter Co., Ky., the Kentucky Fire Brick Manufacturing Company, lately organized, with a capital stock of \$750,000, will erect a brick works.

At Worcester, Worcester Co., Mass., the congregation of the Mt. Olive Baptist Society will erect a church edifice. Rev. Hiram Conway can give information.

At Madison, Somerset Co., Maine, the Manufacturing Investment Company will erect an immense mill, 5,000,000 bricks will be used. D. B. & H. B. Tower, of Holyoke, Mass., are the architects.

At Waterbury, New Haven Co., Conn., the Waterbury Hospital will be enlarged by the erection of an addition of brick two stories high, 30x80 feet, to contain forty additional wards. The plans are being prepared by R. W. Hill, also of Waterbury.

At Waterbury, New Haven Co., Conn., C. P. Yoss will erect a handsome residence to cost about \$20,000, from plans prepared by Theo. B. Peck, also of Waterbury, frame, with clap-boarded and shingled exterior, hard-wood interior finish, steam heat.

At Granville, Licking Co., Ohio, a college dormitory will be erected from plans prepared by Elah Terrel & Co., brick, three stories high, terra cotta and stone trimmings, galvanized iron cornices, freight elevator, slate roof, wood mantels, sky-light, etc.

At Chicago, Ill., Mrs. Wergre will erect a six-story warehouse, at Canal and Jackson streets, from plans prepared by J. L. Silsbee, 52 Lakeside Building. The material will be brick and stone, steam heat, electric lights, all modern improvements.

At Haverstraw and Verplank's Point, N. Y., about forty miles above New York City, on the Hudson, most of the bricks are manufactured which are used in New York, Brooklyn, and Jersey City, and as there is now a boycott against the brick in the above named cities, a great lockout is threatened, as the manufacturers have decided to stop shipping if the labor unions do not raise the boycott.

At Bridgeport, Fairfield Co., Conn., the Holmes & Edwards Silver Co., will erect a factory at Crescent avenue and Bunnell street. Brick, three-stories high, 42x150 feet of slow-burning construction, engine, boiler, elevator, etc. No contracts let. H. A. Lambert, of Bridgeport, architect.

At New Haven, Conn., the United Workers and the Board of Organized Charities have taken steps toward the erection of a building specially designed for their uses. A lot on Orange street has been selected. The new building will be three or four stories high, and devoted entirely to charitable purposes.

At Bridgeport, Conn., a large apartment house will be erected to contain six stories and twenty-four apartments, six stores high, three passenger elevators, steam heat, and modern improvements, cost \$80,000. Longstaff & Hurd are preparing the plans. The Peet property on Broad street, has been bought as a site for a Masonic Temple to cost about \$100,000. The first floor to be fitted up as stores.

At Salem, Essex Co., Mass., ground has been broken for a theatre, to be erected by the heirs of Lyman Holman. The structure will be of brick, three stories high, and the seating capacity 1,500. The ground floor will be fitted up as stores. The plans have been drawn by T. Herbert Gifford, when completed the theatre will be under the management of E. W. Merrill.

At Milwaukee, Wis., H. C. Koch & Co., have prepared plans for a large hotel to be erected by the Milwaukee Hotel Company, at a cost of \$400,000. The materials will be pressed and ornamental brick, with terra cotta and stone trimmings, all modern improvements. The same architects are at work on plans for a county jail, to be erected at Juneau, Wis., to cost \$18,000.

At Worcester, Worcester Co., Mass., Fuller & Delano are at work on the plans for the new High School building, which will cost about \$150,000. The material will probably be brick and stone, with hard-wood interior finish. There will be a large hall on the second floor, 60x63 feet to continue to third floor, and lighted by skylight. No arrangements have yet been made for contracts.

At St. Louis, Mo., Mr. Ellis Wainwright will erect a building at N. W. corner of Seventh and Chestnut streets, to cost \$400,000. J. E. Kaine is having plans prepared for a hotel to be erected on the southeast corner of Grand avenue and Morgan street, to cost \$500,000. John B. Legg and John O'Day will erect a fire-proof structure, at the southeast cor of Sixth and Locust streets, to cost about \$100,000.

The specifications call for steam heat, stained-glass windows, brown ash finish, and handsome church furniture. The same architect has prepared plans for a building for the State Lyman School for boys. It will be of

brick, three stories, and basement, 66x56 feet, steam heat, iron stairs. No contracts let. T. F. Chapin is the superintendent of the school, and has charge of the construction.

At New York City, it has been decided to tear down the upper part of the Western Union Telegraph Building, recently damaged by fire, and rebuild it entirely from the fifth floor up. There will be no tower on the reconstructed building, but arrangements may be made for dropping the time ball at some conspicuous point. More elevators will be put in. Material used in the reconstruction will probably be blue-stone and brick. The work will cost about \$300,000. The site that will probably be chosen for the new Municipal Buildings is a four-acre plot, taking in six irregular blocks, or parts of blocks. The boundary lines are from the northeast corner of Centre and Chamber streets east to Park row, along that to Crook's Hotel, back to Centre street; through three blocks, and down Centre street, to corner of Chambers street again. This involves shutting up or diverting Duane street, City Hall Place, Reade street and Park street, and opening a new street along the north end of the new building, from Centre street to Park row. Among the buildings which will be taken down by the choice of this site are St. Andrew's R. C. Church, Sweeny's Hotel, Bruce's and Connor's type foundries and Pedro's Italian restaurant. The site committee estimates the probable cost of acquiring this property at \$1,250,000. Real estate men think the figures too low. Asphalt pavements will be placed in front of all the hospitals in the city. The Board of Street Openings and Improvements has decided to take by condemnation proceedings, the old graveyard bounded by Clarkson, Hudson and Leroy streets for Park purposes. The plot is 208x400 feet, and valued at \$500,000, owned by Trinity parish. The Society of Temple Beth-Elon, Lexington avenue, will erect a handsome church, for which a site has not yet been selected nor any plans drawn. It is said the plans will be obtained by means of competition. John Casey will erect three double flats and stores, at a cost of \$200,000, from plans drawn by A. B. Ogden & Son, 1031 Madison avenue. Mr. Casey will also erect seven brownstone flats at 81st street and Amsterdam avenue, hardwood finish and modern improvements. James Brown Lord, 121 East 23rd street, has prepared plans for a new asylum building to be erected at White Plains, Westchester Co., N. Y., to replace the Bloomingdale asylum. S. Fred Pelham, 1481 Broadway, has prepared plans for two double flats for Weil & Mayer, to cost \$40,000.

Robert Beatty, contractor, has been awarded the contract for the erection of addition to the Iron Works of Hughes & Patterson, at Beach and Norris streets, and fully noted in our edition of July 9th, 1890.

A fifteen-story building is among the possibilities of this city, the project has thus far assumed no definite shape, and those interested will not talk.

Six more fine houses will be erected by builder John J. Cassidy, on the East side of Moyamensing avenue, south of Emily street, and a stable will be attached to one of these properties, they will be two-story, brick, stone trimmings, fitted with all modern conveniences.

The Keneseth Israel Congregation Reform Jewish, have secured a site for the erection of their handsome Synagogue on Broad street, above Columbia avenue, and will at once begin to consider the details, ways and means, for the erection of the structure designed. Present pastor is Rev. Joseph Krauskopf. The lot is 120x160 feet.

Isaac Nathan's, owner of the Southeast corner Sixth and Vine streets, will at once commence the erection of a number of fine new buildings upon the site when the old building is torn down. A four-story brick store and dwelling with stone trimmings will stand upon the corner, whilst in the rear, three two-story stores will be erected. All to have modern conveniences.

A. M. Walkup, contractor and builder, 825 Filbert street, has purchased a tract of land at Ambler, Pa., and will improve the same by the erection of a number of handsome ten, twelve, and fourteen-room dwellings. The interiors will be finished in hardwoods, and all modern conveniences and improvements will be introduced. J. Elvin Jackson, 804 Walnut street, has drawn the plans.

It is reported that Mayor Edwin H. Fitler, who has recently purchased the properties 1900 and 1902 Market street, is now negotiating for the properties Nos. 16, 18, 20 and 22 South 19th street, as the four last properties will square up the Market street properties, and make the site a most valuable one, giving depth to Baker street, it is supposed that the Mayor contemplates the erection of a handsome building.

The Philadelphia National Bank Building opposite the Custom House, will, after the 1st day of January, 1891, undergo considerable alteration, the Recorder of Deeds, Mr. Geo. Peirre, and Alfred Gratz, Register of Wills, having been notified to vacate their present premises. It is the intention of the bank officers to incorporate these rooms in bank needs, and considerable work will be needed for this purpose.

It is stated that the Philadelphia Traction Company will, on or about October 1st next, commence the erection of an addition to its present plant on Market, below 20th street. It has already secured the premises adjoining 1934 Market street, which will be built upon, the tenant having been notified to vacate. It is also stated that the company desires to secure the properties 1936, 1938 and 1940 Market street, extending back to a blind alley on 20th street. This may mean a cable on 20th street.

—At Williamsport, Lycoming Co., the question of approving plans for a sewerage system is being considered by City Council. While in 1888, the Councils passed an ordinance, ap-

proving the plans of John B. Otto, C. E., for a sewerage system.

—At North Wales, Montgomery Co., the contract for the erection of the cloak factory for S. Simon & Company, or the Philadelphia Cloak and Suit Company, has been given to David Baker. The structure will be of brick, 40x84 feet, two-stories high.

—At Orwigsburg, Schuylkill Co., the First National Bank has been organized with a cash capital of \$50,000. A. P. Blakslee has been elected president, H. S. Albright, vice-president, John R. Leisenring, cashier. All necessary arrangements for commencing business will be made as soon as possible.

—At New Hope, Bucks Co., a lot belonging to Charles S. Atkinson has been selected as the site for the new station on the New Hope extension of the Pennsylvania Railroad, about ten stations will be erected in all along the route of the road, which will be about sixteen miles long.

—At Wayne, Delaware Co., the Wayne Electric-light Company will make improvements. \$1,400 has been raised towards the erection of a fire-engine house. Ten fire-plugs will be purchased in a short time. Charles H. Barrett, chairman of committee of Public Works, can give information.

—At Bryn Mawr, Montgomery Co., a temporary structure will probably be erected as a scientific laboratory. Dr. E. B. Wilson, Professor of Biology, has sketched a plan for such a building, to cost \$7,000; of the sum the college has \$3,000 in hand. The building will be begun, if possible, about the first of October.

—At Steelton, Dauphin Co., the new water works will cost about \$100,000. Work will begin in the autumn. A water works will be erected by James P. Herdir, of Williamsport, Pa., at a cost of about \$100,000. It is also reported the works will supply the town of Churchhill with water.

—At Erie, Erie Co., a fine residence will be erected for Dr. C. W. Stranahan, from plans prepared by Architect James T. Steen, of 36 Sixth street, Pittsburgh, Pa. The structure will be of pressed brick and stone trimmings, containing seventeen rooms, including a ball-room on third floor, 24x43 feet. The cost will be about \$20,000.

—At Elwyn, Delaware Co., the foundation for the Superintendent's residence, at the Williamson school, has been staked out. The structure is to be of stone, 35x50 feet. The other buildings to be constructed consist of a brick workshop, 35x100 feet, a brick laundry building 46x80 feet; also a brick stack, 13 feet at the base and 102 feet high. Plummer E. Jefferis, of West Chester, has the contract.

—At Fullerton (not a P. O. town) Whitehall township, the School Directors have decided to erect a new school house. The plans are now being prepared by Architect Wentzell, of Allentown, Lehigh Co. The building will be 33x64 feet, with vestibule, circular tower, and a stairway leading to attic. The class-rooms will be two in number, 30x33 feet.

—At Uniontown, Fayette Co., Wm. H. Beckwith has purchased a lot on Fayette street, and will erect a dwelling. The buildings have been removed from the site for the new Disciple Church, and work on the church foundation will be commenced. Eleven thousand dollars has already been subscribed for the erection of the new fifty thousand dollar Presbyterian Church.

—At Bethlehem, Northampton Co., Cox, Brothers & Company will erect an immense coal breaker, to be constructed wholly of iron. Elwin P. Ritter will make improvements to the property recently purchased. Edward Benz will erect a brewery near West Fountain Hill. A new school house will be erected on West Northampton street, from plans prepared by J. M. Stewart, of Easton, Pa. The Electric-light Company has increased its capital stock from \$50,000 to \$100,000.

—At Chester, Delaware Co., a company has been formed, with Thomas Hargreaves at its head, to erect a building suitable for amusement purposes. It will be known as the Grand Opera House, and will be erected on the site of the skating rink. The dimensions will be 60x128 feet, and the interior will be similar to that of the Walnut street theatre, Philadelphia. The seating capacity will be about 1,500, and the estimated cost is about \$10,000. The interior will be richly furnished. The congregation of the Evangelical Lutheran Church of the Holy Trinity has purchased a lot on which to erect a new church edifice. Rev. C. W. Jefferis is the pastor in charge.

—At Pittsburg, the Homeopathic Hospital will erect an addition to the present building, to be of pressed brick and stone trimmings, and cost about \$50,000. Messrs. Alston & Heckert, architects, Verner Building, Fifth avenue, have prepared plans for a thirteen-room, frame and shingle residence for Mr. W. Prentice. Mr. Maloney will erect a three-story business building on Diamond street, to cost about \$10,000. The plans have been prepared by Architect J. W. Offerman, of 501 Market street. The same architect has made plans for a dwelling, to be erected on Gibbons street for Mr. McGarr; also prepared plans for remodeling Avery College Building, at Allegheny, Pa. Charles T. Bonn will erect a two story brick dwelling, to cost \$7,000. J. M. Schoonmaker will erect a stone and frame stable, 52x44 feet, to cost about \$8,700.

Now Over Ten Years On This Roof.

PHILADELPHIA, February 23d 1889.
I had the roof of my house, No. 858 N. 12th St., painted with the W. D. Roberts Sr's Fire and Water-proof Paint nine years ago and since that time it has never been repainted or repaired: in fact, is as good to-day as when first put on while the next to it has been repainted several times.
After this test of years, I cheerfully recommend it to all who desire an excellent and durable paint.

Respectfully,

GEO. MYERS, 2021 North 22d St.

A Leaky Roof Made Good As New.

PHILADELPHIA, June 20th. 1889.

Messrs. Roberts, Taylor & Co.,

GENTS:—I have thoroughly tested your Roofing Paint, and find it to be everything that you represented it to be. I have used it on two houses, Nos. 1221 and 1223 Stephen Street. The roofs leaked so badly, and were examined by several practical roofers who pronounced them past repairs: the roofs were painted with your paint between two and three years ago, and are now good and free from leak.

VOL. V.—No. 32.

PHILADELPHIA, WEDNESDAY, AUGUST 13, 1890.

PRICE 15 CENTS.

On August 15th, there will be thrown open for public inspection, at Washington, D. C., one of the most complete and thoroughly equipped storage warehouses in the country, for the use and under the management of the American Security and Trust Company, 1140 Fifteenth street, N. W., Washington, D. C. This warehouse is located on the west side of Fifteenth street, between L and M streets, N. W., and is constructed of stone, brick, cement, and iron, upon a plan especially designed for storage purposes, and is practically fire-proof, as far as human skill and ingenuity can compass such an object. The first floor contains the offices and a large room specially arranged for the safe deposit of silverware, trunks of clothing, papers and other valuables. The second and third floors are divided into compartments of various sizes, by means of iron partitions, and the fourth and fifth floors will be used for general storage purposes. The sixth floor is lighted from above, and will be used for the storage of pianos, mirrors, painting, engraving and works of art, and will be heated in cold weather to protect the contents from alterations of temperature. A large elevator will hoist the loaded wagons to the different floors, thus obviating a number of handlings and consequent damage to furniture, etc. Among the Philadelphians interested in this enterprise, are: Nathaniel E. Janney, President of the Land Title and Trust Company, 608 Chestnut street; Percy B. Metzger, formerly of the Fidelity Trust Company, Harry F. West, Robert Dornan, William Verner, Henry S. Louchheim, Caleb J. Milne, William M. Coates, Charles Porter, John S. Jenks, Alan H. Reed, Daniel Donovan, and Samuel S. Sharp. Under the management of such well-known gentlemen, the storage warehouse department of the American Security and Trust Company is an assured success.

Building and Real Estate Notes.

At Oak lane, in the new chapel, at Northwood Cemetery, an elevator will be used to lower bodies into the vault.

The Lehigh Avenue Passenger Railway Company, will remove a large portion of its depot buildings to Seventeenth street and Glenwood avenue.

Huyler's confectionery store, on Chestnut street, above Thirteenth, will undergo considerable alteration in the near future. Plans are being matured and details considered for the operation.

Jacob R. Jordan, will build at Forty-third and Ogden streets, about twenty-five handsome two-story houses, of brick, with stone trimming, and fitted in good style, with modern improvements.

Jno. Develin, builder, is about to commence an operation of thirty two-story houses on Dickinson, west of Twenty-second street, to be of brick, stone trimmings, and modern conveniences.

Barrows & Bliss, real estate operators, 806 Walnut street, have sold for W. S. P. Shields, 735 Walnut street, the large hotel property at Avon-by-the-sea, N. J., and a number of lots at the same place, some of which will be built upon dates indefinite.

Leonard & Cummings, Linseed oil manufacturers, Twenty-third and Hamilton streets, are making preparation to erect a large four-story factory at that point, and attach to it a large iron warehouse for storage of oils, these structures will be fitted with freight elevators and general machinery for the purposes mentioned.

The Church of the Resurrection, corner of Broad and Tioga streets, is contemplating making a large addition to the present chapel. It is now proposed to bring this building full to the street by the erection of a handsome extension, and it is only a question of decision as to detail. An architect will be employed at an early day, and plans prepared.

A typical and enterprising Southern gentleman, Mr. William J. Rutherford, of Augusta, Ga., paid a flying visit to the Master Builders' Exchange on the 10th instant and expressed himself as much pleased with what he saw. His visit to Philadelphia is for the purpose of purchasing improved brick making machinery of the most approved patterns.

Stacy Reeves & Sons, contractors and builders, have been awarded the contract to erect the magnificent residence of Mrs. Sinnickson, at Nineteenth street and Rittenhouse Square. The structure has been fully described in a previous number of this journal. Supervising architect will be Addison Hutton, who drew the plans for the building.

Several large operators are now negotiating for a large tract of land in the Twenty-third Ward, near Collegeville, on the New York Division of the Pennsylvania Railroad, above Pennypack station. The tract includes the Pennock and Brown farms. If the negotiations are consummated, streets will be opened through the ground, and a large number of dwellings erected. Miss Kate South, of Tacony, Twenty-third Ward, contemplates the erection of a dwelling near Longshore and Torresdale avenues.

Work is progressing favorably on the buildings of the Philadelphia Packing and Provision Company, at Thirty-sixth and Gray's Ferry road, under the supervision of Jacob Herald, the architect, and whose plans were noted fully in this journal in previous numbers, at present they will construct ten buildings in all, consisting of an office and nine others for operating, killing, making ice, boiler-house, engine and electric plant, all these will have latest and best improvements.

There is no longer any doubt as to the project of the establishment of a large Shipyard on the Delaware river, south of Jackson street, and extending to the line of the Pennsylvania Salt Works by the Cramp & Sons' firm, as the transfer was made by Jno. R. Dos Passos, on the 8th instant, and it is supposed that work of building will be commenced at an early day, the work of preparation for piling and grading will be the first preliminary to the great undertaking, after which will come the erection of buildings and construction of the great dry docks and ways.

A large operation in real estate and building has just been consummated by the Quaker City Land Company, in which Ellwood Becker, real estate agent, Fourth and Pine streets, James A. Munday & Bro., 211 South Ninth street, and others are interested, by the purchase of the entire farm land owned by the Bond estate, and situated at Broad, Ritner and Wolf streets, and extending west to Seventeenth street, which includes about 400 building lots, it is proposed to build and sell lots as well, by the above-named organization.

Wendell & Smith, who have been building some beautiful houses at Wayne of late, have recently made these sales to Philadelphians:

"Flemish" house, on East Beech Tree lane, to J. W. Claghorn, of the Electro-Tint Company, for \$7,000. "Pillar" house, on East Chestnut lane, to the Rev. W. W. Heberton, D. D., Treasurer of the Presbyterian Board of Ministerial Relief, for \$8,250. "Pillar" house on Lancaster avenue, to Clayton M. Evleth, mantle manufacturer, North Broad street, for \$8,000.

Two notable building operations in the way of large sales-stables and bazaars, will at once be commenced, the first will be the "Tattersall Stable," which will be erected at Twenty-first and Market streets, and the second will be built at Twenty-second and Arch streets, extending from Arch street to Cuthbert, and will be owned and run by Jno. M. Kyle, Samuel Berry and the Leary Bros., each structure will be two stories high, of brick, stone trimmings, and fitted with all the latest improvements for stable use. Contracts have been let.

A report is current among real estate circles of the formation of a syndicate for the purchase of the entire block of ground bounded by Market, Broad, South Penn Square and Fifteenth streets, for the purpose of erecting an immense hotel, the hitch in the consummation of the matter seems to be inability to purchase the property at the N. W. corner of Broad and Penn Square, owned by Mrs. Ann E. Blackburn, Mr. Frederick Sylvester, real estate agent, Sixth, below Walnut street, was instructed to make offers for property at Broad and Locust streets, it is understood, for this purpose some time ago, but without success.

T. Henry Sweeting, bicycle merchant, 630 Arch street, has just purchased a fine piece of ground on Broad street, south of Susquehanna avenue, adjoining the Church of "Our Lady of Mercy," upon which he proposes to erect an immense building for the purposes of a sales-room and central point for the lovers of this kind of sport, the lot is 140x160 feet, and the first floor will be stores and the rest of the structure, which will be five or six stories in height, utilized for other purposes, such as gymnasium, riding-school, etc., having a grand central passage leading to the upper stories, with probabilities of a roof garden. Details and plans are now being considered.

The Trustees of the Williamson Free School have awarded the contracts as follows: for the erection and construction of buildings and work. Brick and stone work, Geo. W. Roydhouse. Cut stone, John Maxwell. Carpenter work, Plumer E. Jeffries, of West Chester. Mill work, Jackson & Sharp Company, Wilmington, Del. Roofing, James Garrett. Painting and glazing, D. A. McGregor. Plastering, Hugh Boyd & Son, M & E. T. Farrell, of West Chester, Pa. Hardware, W. C. Powell. Cement flooring, to Vulcanite Paving Co. The electric light plant will be of three dynamos, a capacity of 1200 lights, sixteen candle-power each, with a very large storage battery, the motive power in some of the mechanical shops will be furnished by the electric plant. Work will be commenced on some of the buildings at once, and the erection of others will be postponed until the beginning of the year 1891.

Warfield will erect a row of four-story dwellings, on Fayette street, brick and stone, furnace heat, hard-wood finish, fine plumbing, etc.

Through Delaware.

At New Castle, New Castle Co., the Board of Trade has decided to collect, by subscription, eight thousand dollars, to be offered to James McDevitt, the patentee of a process for the separation and recovery of metal from tin scrap, to locate a large plant. The Committee on New Enterprises is instructed to confer with J. H. Brown, a New Jersey contractor, who desires to locate a sash and blind factory; also, as to the proposed removal of a large morocco factory from Wilmington to the above city.

At Wilmington, the Polish congregation, which has been worshipping in the Roman Catholic Church of the Sacred Heart, will purchase a lot at Harrison and Linden streets, on which they will erect a parochial residence;

also, a temporary structure, two stories high for church and school purposes. Father Richards, of the Sacred Heart Church, will have charge of the new church. At a special session of City Council, held August 4, 1890, the yearly appropriation of \$126,000, for the Street and Sewer Department, was passed. The Christiana Window and Glass Company has purchased the entire plant, which it has been occupying for the past four years, from James Bradford. The plant covers six acres, upon which are five large buildings. The firm will assume entire control on September 1, and extensive improvements will be made, including the enlargement of the plant. H. B. Thompson will erect a handsome residence at Thirteenth and Rodney streets, to cost about \$15,000. The stable of Wm. Bush, president of the Equitable Guarantee and Trust Company, was destroyed by fire on Saturday, August 9. The loss is about \$4,000. It will probably be rebuilt as soon as possible.

Washington, D. C.

The large hotel reported last week to be erected at Eckington, by a Washington syndicate, of which George Truesdell is president, will be built from plans drawn by Messrs. McKim, Mead & White, 57 Broadway, N. Y. It will occupy the ground bounded by Second and Fourth and T and U streets, Northeast. The site contains ten acres. The style of architecture will be the Spanish Renaissance, something like the Alcazar, in Florida. The dimensions will be 250x350 feet, with two stories and attic, and a central court. for their pamphlet "Perfect Cooking" giving full description.

Men who Build HOUSES!

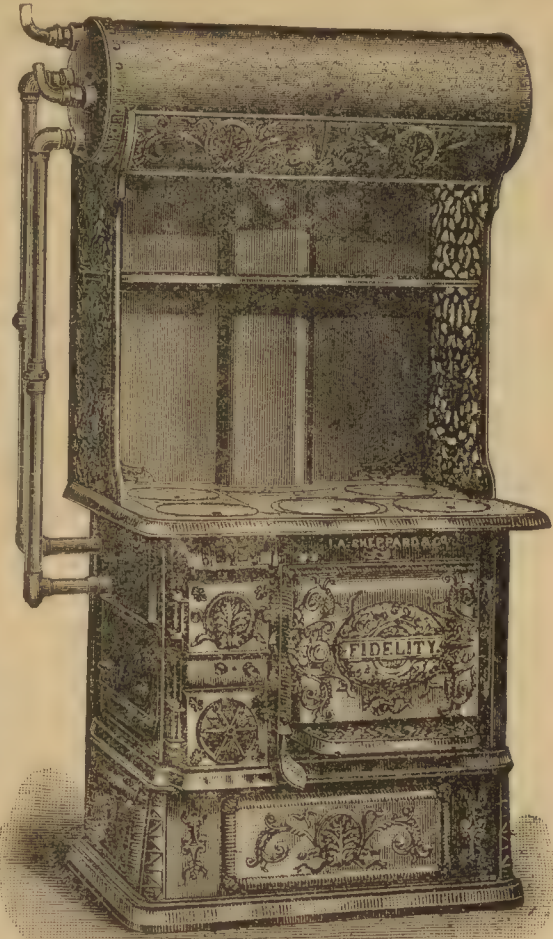

Need To Buy Ranges.

If they themselves occupy them of course the ranges should be good ones. If they intend selling or renting them good ranges in the kitchen will help the Builder or Owner to sell or rent to better advantage. In either case

Does it Pay

to put in cheap ranges of no particular reputation, when a mere trifle in the way of additional expense would provide the

"Excelsior" or the "Fidelity?"

FIDELITY RANGES.

7 and 8 inches, Right and Left Hand.

Just the thing for small Houses. No brick-work. Plumbing reduced to a trifle, Hot Water in abundance. The latest and the best of their class.

FOUND AT LAST.

It has been the perplexing study of Chemists for many years to discover a paint which on application would enter into the pores of wood and other material, dry quickly, become extremely hard and last for a number of years without blistering, cracking or peeling off and at the same time resist Fire and Dampness.

Such a Discovery having been made by W. D. ROBERTS, SR., and having been in use and under the severest trials for more than 12 years in which time it has deservedly gained a reputation which now excels that of all other paint.

It is made in all Colors and is suitable for all kinds of Painting.

Numerous strong endorsements are in our possession. Call and examine or send for descriptive Circular.

Worthy of Your Attention.

CLAIMS for superiority are frequently made for inventions that fail to fill the bill when the proper tests are made. This cannot be said of the inventions of Mr. Wm. D. Roberts, Sr., of the firm of Roberts, Taylor & Co., 139 North Sixth street. As a practical chemist, Mr. Roberts' best efforts have been devoted to producing paints of a definite and specific character, for purposes requiring certain positive results, with the possibility of failure entirely eliminated.

The Roberts' paints have been in constant use for many years, giving in every case, entire satisfaction, as hundreds of testimonials in possession of the firm will show.

These truly remarkable paints possess wonderful adhesive and preservative qualities for both wood and iron, they are made in all colors, dry quickly, soon become as hard as steel, effectually resist fire, and are so thoroughly water-proof that a single coat on the finest tissue-paper or muslin, will make it impervious to water for years; they readily adhere over other paints and are particularly adapted for damp walls or places that cannot be painted with ordinary paint.

Among the tests to which the fire and water-proof paints are almost daily submitted, is the placing of red-hot coals on a pine board covered with the paint. Pieces of painted wood and tin kept in a strong solution of saltpetre, rock-salt, and water for months. Thin manilla paper with one coat of paint made to hold water for six months without a particle of dampness showing through the paper. These remarkable tests can be seen at any time at the office of the firm. The Roberts' front renovator is also another of its products, it removes stains and white incrustations, is an exact imitation of pressed brick or any color, and is impervious to dampness.

Roofing paint, fire and water proof, another of Mr. Roberts' inventions, is unaffected by changes of weather, and has been on roofs for ten years.

These goods honestly command the attention of those interested, and merit the confidence of buyers.

At Denver, Col., the Union Pacific R. R. Company will erect a large warehouse. It will be of brick and iron, and cover one full block and cost about \$250,000. Alfred H. Gutheil, Frank Bowman, and others, have incorporated the Denver Match Company, with a capital stock of \$100,000, and will commence the manufacture of matches.

At Cleveland, Ohio, a building to cost \$28,000 will be erected, from plans prepared by C. Lindsay, of Zanesville, Ohio. F. C. Bates, has prepared plans for a business block, to cost \$18,000. R. Gegelnic, architect, has prepared plans for a business block, to cost \$20,000. Architect O. D. Meyers, has made plans for a \$15,000 residence.

Lot-Buyers.

Architects and others had better correspond with the following lot buyers, as many of them contemplate building.

PHILADELPHIA, WED'Y. AUG. 20, 1890.

For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communications for publication may be left.

As an event in itself, the breaking of any part of the Traction Company's machinery is of very little significance, but when it involves the comfort and convenience of thousands of our citizens, it must be accepted as an evidence of the failure of cable roads to meet the requirements of a great city. That some more reliable as well as some more expeditious method of transportation must be adopted, is self-evident, and as no permanent relief can be expected either from horse cars or cable companies, and as so much depends on rapid transit as to whether this city is to go on in its development and expansion, or is to be trammelled by the want of enterprise on the part of corporations possessing valuable franchises, but which are indifferent as to the requirements of our citizens, and too niggardly to make the most of their opportunities, The only relief is to fairly and manfully lock horns with the question of rapid transit and solve the problem. Make it a political question, if need be, as to the selection of councilmen, but solved it must be, and that too, on a greatly improved basis as to our present system, and the introduction of methods that will meet the requirements of the people for the next two or three decades, at least.

Miscellaneous.

At Concord, New Hampshire, a large hospital will be erected to be known as the Pillsbury Hospital, and given to the city in memory of his wife, by Geo. A. Pillsbury, of Minneapolis. The basement will be of granite and the upper stories of pressed brick, trimmed with terra cotta. The cost will be \$40,000.

At Chicago, Ill., Burnham & Root, architects, at the Rookery Building, are preparing plans for a ten-story building 137x160 feet, to be erected in San Francisco, Cal., by D. Ogden Mills, at a cost of about one million dollars. Messrs. Patton & Fisher, architects, 44 Montauk Building, are preparing plans for a six-story and basement apartment house, 51x110 feet, for W. A. Dunshee, to be erected on Oakwood boulevard, to cost \$55,000.

At Boston, Mass., arrangements for the establishment of the American National Bank are about concluded, a considerable portion of the \$1,000,000 capital having been placed. The bank will have prominent New England and Southern capitalists in its directory, and will make a specialty of Southern business. First-class Southern banking connections have already been secured. The bank will be ready for business at an early date.

At Chicago, Ill., St. Monica Catholic congregation, will erect a new edifice, at Thirty fourth and Dearborn streets, two-stories high, 75x125 feet, of pressed brick and stone, cost about \$40,000, from plans prepared by Julius Wigeman. The same architect has completed plans for the Orphan's Home, to be erected at Lincoln, Ill., by the I. O. O. F. It will be three-stories high, 400x600 feet, with wings on either side, the structure will be of brick, iron and stone, and cost about \$80,000.

The material will be brick, with blue-stone trimmings, stair-ways of slate, elevator and improved bath and toilet apparatus. No contracts let. Joseph A. Jackson, has drawn plans for a handsome residence, for Rev. Jas. Campbell, of Manchester, Hartford Co. Conn. To contain fifteen rooms, finished in natural woods. Contracts not let.

At Bridgeport, Fairfield Co., Conn., the Fairfield County Commissioners have accepted the plans of A. H. Beers of Bridgeport, for the county home for children. The plans show a two story brick building, with stone trimmings and slate roof. The office, reception-room, library, sewing-room, dining-room, kitchen, and play room, are on the first floor, and four large dormitories to accommodate seventy-five children on the second floor. The cost will be about \$12,000. Proposals for the erection will be invited in a short time.

At Holyoke, Hampden Co., Mass., E. A. Ellsworth, has prepared plans and specifications for the erection and equipment of a chemical laboratory for the State of N. Y. The structure to be similar to those planned by Mr. Ellsworth and erected at Amherst, Mass. and Kingston, Conn. Clough & Reid are the architects for a block of business houses to be erected on Main street. They will be five-stories high, of Pompeian brick, with Kibbe brown-stone trimmings, large plate glass show windows, metal ceilings, fine plumbing, modern improvements, elevators, &c. No sub contracts let.

At Denver, Col., of the purchasers in the vicinity of Emery's Capitol Hill property, are Mr. McMurtrie, who paid \$18,000, for four lots at corner of Tenth and Pennsylvania avenues, and will erect a mansion to cost about \$50,000.

John L. McNeil, president of the State Nat. Bank, has purchased seven lots on the corner of Eighth and Pennsylvania avenues, for \$20,000, and will erect a residence, to cost about \$30,000. Messrs. Collins & Schockelford, sold two lots to J. H. Gallup, of Indiana, for \$55,000. Gov. Grant and Hon. T. M. Patterson, will erect residences this fall, plans are completed for Judge Hallett's residence.

At Springfield, Mass., the plans of F. S. Newman, of Springfield, have been accepted by the property committee for the new school house to be erected at Eastern avenue and Wilbraham road. The building will be of brick, with brown stone trimmings, and slate roof. There will be four recitation rooms and twelve school rooms, all finished handsomely. The heating and ventilating will receive particular attention. The same architect has finished plans for a parsonage for Rev. J. P. Charbonen, of the parish of Seven Dolors, at Adams, Mass., brick, slate roof, steam heat, natural wood finish. Cost about \$7,000.

At Bridgeport, Fairfield Co., Conn., Longstaff & Hurd, have prepared plans for a handsome stable, to be erected by P. T. Barnum. The material will be brick with brown-stone trimming and slate roof. The dimensions, 36x44 feet. There will be rooms for the coachman, and a laundry. The stable will have all the modern fittings. The same architects have made plans for a handsome fence, to surround the grounds of Mr. Barnum's residence, "Marina," a coping of Leetis Island granite, will be built on the street sides, with carved pillars of red sand-stone, at the gates. The fence and gate will be of iron.

The District appropriation law for the current fiscal year, which was approved on the 12th inst., provides for the construction of five, eight-room school buildings and the purchase of sites for four of them. These cost about \$25,000 each for building and about \$11,000 for each site; \$139,000 is appropriated for erection of a colored high school building; \$3,175 is given to inclose grounds of Arthur school and \$6,750 to purchase additional play-ground for school at Twelfth and R streets northwest, and \$22,000 for miscellaneous repairs and improvements. For the Police Department \$10,-

000 is given to enlarge the fourth and sixth precinct stations, \$5,000 for stables at fifth and eighth precincts, \$375 to put hot water and drying apparatus in three stations, and \$2,000 for repairs. For the Fire Department \$22,000 is given to buy site and erect truck house in a central location and \$3,000 for engine houses repairs. Three thousand five hundred dollars is given to construct cells and otherwise improve the police court, \$20,000 to remodel building for female workhouse, \$5,850 to construct bathing appliances at male workhouse and \$550 for a new roof, \$4,200 for a new hospital ward, \$500 for hospital building of Industrial Home School, and \$30,000 for building for Central Dispensary. This work will be done by District constructors and mechanics, and will go far to add activity to the building business during the coming fall and spring.

Through New Jersey.

The Jerseyville district, Monmouth Co., will erect a new school house to cost \$1,200.

At Hammonton, Atlantic Co., a new church will be erected by the Methodist congregation.

At Hornerstown, Monmouth Co., the Baptists will erect a chapel.

The Freeholders of Hunterdon Co., want an appropriation of \$8,000 to repair bridges damaged by the storm of July 3.

At Phillipsburg, Warren Co., Thomas Reynolds has purchased a lot from J. I. Bailey, and will erect a dwelling thereon.

Ex-county Clerk Hollingshead's barn, at Oakland, Camden Co., destroyed by fire, will be rebuilt on a much larger scale.

At Lambertville Hunterdon Co., Mr. John McGuire has broken ground for a handsome cottage on Cottage Hill.

At Glassborough, Gloucester Co., Andrew J. Warner has commenced the erection of a dwelling on Main street.

At Asbury Park, Monmouth Co., Rebecca Wright will erect a cottage to cost \$12,000. Wm. Cottrell is the builder.

At Lock Arbour, Monmouth Co., Henry E. Knight will erect a dwelling to cost \$2,500. Wm. C. Cottrell, contractor.

At Long Branch, Monmouth Co., Frank M. Taylor, Jr., will erect a dwelling to cost \$2,500. Joseph Robbins is the contractor.

At Lakewood, Ocean Co., the new Forrest Inn will be erected by contractors Messrs. R. & A. W. Borden, of Shrewsbury, Monmouth Co.

At Cramer's Hill, Camden Co., the trustees of the First Baptist Church have concluded to accept the offer of Mr. Alfred Cramer of a lot at 27th and High streets, on which a church will be erected to cost about \$15,000.

At Collingswood, Camden Co., Messrs. Patterson & Cobb have received the contract to erect a handsome residence for Mr. Henry Brick, at Marlton, Burlington Co. A new site has been donated by E. C. Knight, of Philadelphia, to the Methodist Home. It has been accepted by the managers of the home, and a committee appointed to purchase 60 additional feet front making the dimensions 180x380 feet.

At Trenton, it will be a year or more before the improvements can be made to the State Prison. The bill providing for the new wing is now a law, but the money, which must be taken from the riparian fund, will not be available for some time. The Statehouse building commission contemplate a number of improvements to the Statehouse. Bids will be asked for frescoing the main corridor, and some changes will be made in the library.

At Newark, the Freeholders' Committee on Public Buildings is considering the plans of Messrs. Staehling & Steiger for the proposed enlargement of the jail. As soon as approved work will be begun. The following persons will erect dwellings: J. H. Huntington, Louis Y. Haines, Annie Roh, Mary Reynolds, H. B. Doremus, Jacob Willing, Richard Van Houten, Mrs. G. Winkelman, Fanny Edgar, W. H. West-

wood, Michael Pfeifer, Emiel Yunghaus, Danl. Sweeney, Mrs. Bournkelman, George Zyrauck and John McMahon. The Tracy estate, lying between Avon and Clinton avenues, and comprising about 600 building lots, has been purchased by Philadelphia parties from the heirs of Patrick Tracy and ex-Alderman Farley, of N. Y., for \$150,000. It is said that about \$100,000 will be spent on various kinds of improvements.

At Camden, Building Inspector Cole, in consultation with the Property Committee of the Board of Education, after examining the different plans submitted to the committee for fire escapes, approved that of Chas. Hollinshead, of Camden. The proposed escape, which, under the Inspector's recommendation, will probably be adopted, is constructed with a platform set off six feet from the building at the upper part, so that in descending the children will be carried out of reach of flames or smoke from windows should a fire occur on the lower floor of a school house. It will cost about \$425 to erect each escape. City Councils have passed an ordinance that all buildings now, or hereafter erected, in which twenty or more people live, congregate or are employed, shall have fire escapes erected thereon. David Pettit & Co., of Philadelphia, have been awarded the contract for placing fire escapes on the Almshouse at Blackwoodtown.

At Jersey City, the Penna. Railroad Company has abandoned the present station, which will be demolished to make room for a more modern and handsome structure. G. L. Belcher, 45 Montgomery avenue has prepared plans for a residence for J. M. Jones, to cost about \$5,000. It will be of pressed brick, frame and stone, galvanized iron cornices, slate mantels, etc.; also, plans for a residence for John Praut, on Bergen avenue, to be erected at a cost of \$7,000, pressed and ornamental brick and modern improvements. H. C. Morse will erect a tenement house on Madison avenue, near Clinton avenue, five stories, pressed brick and stone, tin roof, modern improvements. Herman Kreidler, 62 Broad street, N. Y. City has drawn the plans. The same architect has made plans for a club house, to be erected at 240-42 Washington street, for Fred D. Linn, of 240 Washington street, pressed and ornamental brick, marble and stone trimmings, galvanized iron cornices, stained glass windows, steam heat, open fire places, fine plumbing, and all modern improvements.

At Atlantic City, it is probable that the Philadelphia and Reading Railroad will erect the hotel, of which mention has previously been made. The tracks of the company have already been extended to Massachusetts avenue, and it is said a handsome station will be erected at the Massachusetts avenue terminus. The hotel will be erected at Pacific and Massachusetts avenues, the cost has been estimated at over \$1,000,000. There will be a garden and concert pavilion in connection with the hotel, and the whole will connect with the iron pier. The details of the operation have not yet been made public, but the plans for the hotel are said to be under way. A meeting was held at the Real Estate and Law Building Thursday night, and the Union National Bank with a capital of \$100,000 was formed. The directors are A. B. Endicott, C. J. Adams, Smith Conover, Julius Coty, Thomas J. Dickerson, Van Buren Giffin, Lewis Groff, Thompson Irvin, James D. Southwick, Samuel J. Trilley, E. P. Williams and J. G. Hammer. A. B. Endicott was elected president and J. G. Hammer, cashier. M. A. Riddle and Joseph C. Clement will erect dwellings.

Through Pennsylvania.

When any of the following are not post office towns they will be so designated.

—At Steelton, Dauphin Co., water works will be established to cost about \$180,000.

—At Manoa, Delaware Co., ground has been broken for the new hall. Taylor Broomal has the contract.

—At Church-Hill, Bucks Co., it is said, water works will be constructed.

—At East Coventry, Chester Co., Mrs. Eliza Grubb has sold a lot to James Bellman for \$1,700. Mr. Bellman will erect a residence.

—At Oxford, Chester Co., a creamery will be erected at once. Superintendent R. G. Woodside can give information.

—At Crafton, Allegheny Co., an electric light plant will be erected by a newly incorporated company.

—At Uniontown, Fayette Co., the Uniontown Light and Heating Company contemplate putting in a large arc dynamo.

—At Newmanstown, Lebanon Co., the citizens are agitating the subject of establishing a system of water works.

—At Lansford, Carbon Co., a church will be erected at a cost of about \$8,000. W. D. Hill, architect.

—At Meadville, Crawford Co., the Sisters of Charity will erect a hospital, to cost \$10,000. W. E. Morrison, architect and builder.

—At Clifton Heights, Delaware Co., Mr. Able has purchased a lot on Lansdowne avenue, adjoining the Presbyterian Church, and will erect a residence.

—At Spring City, Chester Co., a petition has been ordered to be laid before the Grand Jury to annex a tract of land, forty-four acres, to that borough.

—The County Commissioners of Lehigh County will shortly begin the erection of a bridge over the little Lehigh River, at East Texas, Lehigh Co. It will be of iron, 60x16 feet.

—At Easton, Northampton Co., it is understood that the trustees of the Easton Hospital are negotiating for the purchase of the property of the late John Brown, on Wolf street, for hospital purposes.

—At Chester, Delaware Co., James Macks will erect two dwellings on Tilghman street. Jos. A. Mullen will erect a frame stable. Contractor Provost is at work on a number of dwellings for the Blakeley Land Association.

—At South Bethlehem, Northampton Co., the Young Men's Temperance Society contemplates the erection of a hall, the coming winter. Rev. Father McEnroe and Rev. Thomas J. McCarthy can give information.

—At Swarthmore, Delaware Co., Mr. George Gaw has purchased a lot at Yale and Dickinson avenues, upon which he will erect a residence, from plans prepared by S. M. Milligan, 708 Chestnut street, Philadelphia. Ground has been broken for a dwelling for Mr. Walton.

—At Edge Hill, Montgomery Co., Francis Lee, of Philadelphia, Pa., has purchased a lot on Central avenue, on which he will erect a dwelling. Joseph Schowe, a butcher, at the corner of Ninth and Spring Garden streets, Philadelphia, Pa., has purchased two lots and will erect a store and residence.

—At Berne, Berks Co., the managers of the Schuylkill County Agricultural Society have decided to raze the present dilapidated main exhibition building and replace it with a larger and more modern structure. The race course is being improved, under the management of Daniel Boyer.

—Negotiations have been closed for the sale of the Laughhead estate, near Chester, Delaware Co., to the Church of the Immaculate Heart. The purchase price was \$5,000, and the deed has been transferred to Archbishop Ryan, of Philadelphia. There are twenty-one acres in the tract.

—At Morrisville, Bucks Co., Messrs. Margerum & Hutchinson, contractors, have commenced work on the erection of the new tile works. It is reported that 100 men will be employed as soon as the works are completed, and the force will soon after be raised to 200 men. The Presbyterian's are erecting a new Sunday-school building.

—At Columbia, Lancaster Co., the Franklin House will probably be leased by Prof. C. W. Lippott, of York, Pa. Mr. Lippott will soon meet the architect and builder and make plans for extensive improvements and alterations to the present structure.

—At Reading, Berks Co., a charter has been granted to the National Bolt, Nut and Rivet Company, which will be located in North Reading. The officers are President, Charles W. William, and treasurer, Walter S. Davis. The best improved machinery will be introduced. Rehr & Fricker have broken ground for the erection of six two-story brick dwellings on Spruce street, below Thirteenth street.

—At York, York Co., the York Match Company, which was destroyed by fire a short time since, will be rebuilt as soon as the insurance has been adjusted and other minor details arranged. The loss was about \$15,000, on which there was an insurance of \$8,000. The contract for the erection of the large hall of Christ Lutheran Sunday-school has been awarded to Messrs. Menough and Slagle.

—At Greensburg, Westmoreland Co., at a special meeting of Burgess, it was decided to petition the Court to vacate the railroad crossing at Harrison avenue, provided the overhead bridge be erected at the head of Pennsylvania avenue and New streets be opened from Harrison avenue North and South of the Pennsylvania Railroad. The prospects for a new passenger depot are quite favorable.

—At Catasauqua, Lehigh Co., mill D, of the Catasauqua Manufacturing Company, will be enlarged by the addition of an annex, 64x80 feet in dimensions. Work has been commenced under the supervision of Mr. W. J. Young, contractor. The Lehigh Fire Brick Works, of Catasauqua, have contracted to make a delivery to the Thomas Iron Company, at Hokendauqua, Lehigh Co., of 700,000 fire brick for hot blast construction.

—At Norristown, Montgomery Co., C. F. Molly, of Reading, has purchased one hundred and eight acres of ground through Real Estate Agent Ambrose Dettra. The tract is bounded by Forest and Stanbridge streets, and extends from the Fair grounds to Sterigere street. It is the intention of the syndicate to cut the tract up into about two thousand building lots, and surveys will be begun in a short time by Professor Bowman. The company is considering the proposition of a Baltimore property for supplying electric motive power.

—At Wayne, Delaware Co., a charter has been applied for for a steam heating company. George W. Childs, Herman Wendell, Robert R. Smith, Frank Smith and Craig McCausland are interested. R. H. Gallagher is in charge. Messrs. Wendell & Smith have sold the Flemish House, on East Beach Tree lane, to J. W. Claghorn, of Philadelphia, and the Pillar House, on East Chestnut lane, to W. W. Heberton, D. D., treasurer of the Presbyterian Board of Relief. About \$5,000 has been raised towards the erection of the proposed Presbyterian Church. Rev. W. A. Patton is the pastor.

—At Ambler, Montgomery Co., work is progressing on the large block of stores, opera house and storage ware-rooms now under course of erection by Messrs. Keasby and Mattison, on the lot opposite the station. The main building will front on Butler avenue 160 feet and extend back 120 feet. It will be four stories high, of dressed stone, with Indiana light stone trimmings. There will be six store-rooms, 24x70 feet, and two, 23x40 feet. The opera house will have a seating capacity of 600. The third and fourth floor will be used for storage purposes, and the whole will be lighted by electricity and heated by steam. Fire escapes will be provided. The estimated cost of this operation is about \$50,000.

—At Dunmore, Lackawanna Co., the proprietors of the lace mill to be erected at that place have purchased four-and-a-half acres of land from the Pennsylvania Coal Company, four

lots from ex-County Treasurer George Kimback, and are now negotiating with the Meybert estate for a small tract adjoining the ground already purchased. There was some talk of this mill being erected partly in Scranton and partly in Dunmore, but the latter place has been chosen. The Board of Trade of Dunmore has granted the company a rebate on taxes for a term of ten years. The firm is Wooten, Mosely & Clifton, Limited, of Nottingham, England. The firm expects to start building operations in about six weeks, and expect within a year to have a plant that will give employment to about four hundred hands.

—At Langhorne, Bucks Co., H. C. Parry has purchased a lot on Marshall street, and will erect a dwelling. The members of the congregation of the Presbyterian Church has appointed a building committee, consisting of the moderator and four members of the congregation to consider the matter of the erection of a new church. Over one-third of the amount necessary has already been raised. The Board of Managers of Langhorne Manor are considering the advisability of erecting an addition to the present building. H. C. Parry has purchased the lot adjoining his new dwellings on Marshall street, and will erect a dwelling thereon. There is a movement on foot to open Station avenue. The members of the M. E. Church are considering the subject of erecting an addition to the church and remodelling the interior.

—At Media, Delaware Co., the Delaware County Commissioners have awarded the contract for the new wing to the court house to George C. Hoopes, of Media, for \$31,449. The new wing will be a two-story brick structure, 81 feet 6 in by 43 feet 6 inches, and will be used for the Register of Wills and Recorder of Deeds office and other purposes. An elevator will be introduced to run from the cell-room to the corridor adjoining the court room on the second floor. The new wing will be connected by a corridor to the present structure, which will be improved and altered in connection with the new wing. The building of the new wing to the court house and the improvements to the present structure will cost about \$40,000. The commissioners are Daniel M. Field, William Armstrong and W. Lane Quinn. A meeting of the Hebrews has been held at the residence of Solomon Rosenberg, on Second street, to discuss the project of forming a Jewish synagogue. It has been suggested that a hall be rented in some central location until such time as the membership warrants the purchase of a lot and the erection of a synagogue. The committee in charge of a water fountain is making an effort to raise sufficient money to erect one of stone at a cost of about \$400, instead of an iron one, as at first contemplated. Mr. Terrence Reilly can give information.

—At West Chester, Chester Co., the syndicate which purchased the Darlington farm, and previously mentioned, has decided upon the erection of a large summer hotel on a site, to contain about 135 acres. The name of the new hotel will be the Roselyn Park Inn, and the estimated cost is \$100,000. Mr. James D. McClellan, late of the Bingham House and Lafayette, in Philadelphia, will probably take charge of the new inn when it is completed. A large grove near the site of the proposed inn will be improved and made an attractive feature. About seventy lots have been sold of the remaining portion of the farm, on which handsome residences will be erected by the purchasers. Plummer E. Jefferis, the contractor, Hemphill Bros., T. Roney Williamson, the architect, and Wm. P. Marshall, of West Chester, are interested in the enterprise. Several building sites have been offered to James Ewerson for the erection of a plant to manufacture his patent mowing machines. Clark Jackson has sold several lots near Russellville to Eugene Rigg, who will build on the site. The borough Council has decided that the present reservoir is inadequate for the needs of the people, and steps will be taken to secure a suitable site for a new reservoir. The

West Chester Street Railway is an assured success, and work will probably soon begin on its construction. Roney Williamson or Plummer Jefferis can give information.

—At Pittsburg, George S. Orth, Stevenson Building, Sixth avenue, has prepared plans for a residence for Mr. Harmer Denny, to be on Ridge avenue, Allegheny, stone, hard-wood finish, modern improvements. Henry Shenk has been awarded the contract; also, plans for a residence, for Mrs. D. A. Stewart, to be erected at Lincoln and Allegheny avenues, Allegheny, pressed brick, hard-wood finish, modern conveniences. Cochran & Davis are the builders. Also, plans for a block of dwellings, to be erected on Fayette street, Allegheny, for Mrs. McKnight, stone fronts, modern improvements. Wm. & E. S. Mooney will erect five dwellings, on Lilac street, Shady Side, from plans prepared by J. E. Obitz, McCance Block, brick, with stone fronts, hard-wood mantels, tile hearths, plate glass windows, best of plumbing. The permit has been taken out for the erection of J. J. Vandegrift's 8-story brick office building, on Fourth avenue, it will have a tile roof. Longfellow, Alden & Harlow are the architects. The cost will be about \$189,000. Mr. Vandegrift will also erect two, 3 story brick dwellings, to cost about \$15,000, and one, 2-story dwelling, on South Hiland avenue, to cost \$10,500, for which Longfellow, Alden & Harlow have drawn the plans. A. J. Barr will erect a handsome dwelling, at a cost of about \$30,000, from plans prepared by W. S. Fraser, Y. M. C. A. Building. Andrew Schon will erect a 5-story brick store and tenement, to cost \$23,000, from plans prepared by Bickel & Brennan, 91 Fifth avenue.

EXCELSIOR RANGES.

* 24 Sizes and Varieties. *

For 30 years the standard of excellence in Philadelphia, and now better and handsomer than ever. No first-class house is complete without one, 75,000 now in use in Philadelphia and vicinity. Ventilated oven, oven door pedals, grates that give perfect control of fire at all times. Single oven, double oven and hot-air ranges at moderate prices. Specify the "Excelsior Ranges" if you want the best. Send to the Manufacturers,

Isaac A. Sheppard & Co., 4th STREET, AND MONTGOMERY AVENUE,

All responsible Dealers supply them.

PHILADELPHIA, for their pamphlet "Perfect Cooking" giving full description.

Men who Build HOUSES!

Need To Buy Ranges.

If they themselves occupy them of course the ranges should be good ones. If they intend selling or renting them good ranges in the kitchen will help the Builder or Owner to sell or rent to better advantage. In either case

Globe Tubular Street Lamps.

Globe Tubular Street Lamp. Burns Head Light Oil without a chimney. The wick is 1½ in. wide. Holds sufficient oil to burn twenty hours. Can be set when lighted to burn a certain number of hours. It endures the roughest winds. Is but little more care than a gas street lamp, and will give a better light.

We propose to light a medium size dwelling complete, for \$26.00, as follows:

Parlor—3 Light Extension Gold Bronze Chandelier,	\$11.00
Hall—Gold Bronze Hall Lamp,	3.75
Dining Room—Plain Gold Bronze Library Lamp,	2.50
Library—Gold Bronze Library Lamp, with Prisms,	4.00
Kitchen—French Bronze Bracket, with Reflector,	1.25
Front Bed Room—Gold Bronze Bracket,	2.50
Back Bed Room—Universal Side Lamp,	50
Bath Room—Universal Side Lamp,	50
	\$26.00

If you desire something different we can accommodate you, as we carry a complete line of **EVERYTHING** pertaining to the lamp trade, from the **CHEAPEST** to the most **EXPENSIVE**.

If your ceiling is **LOW** we have lamps especially adapted for them, with **AUTOMATIC SPRING EXTENSION**. When writing to us for fixtures, please give dimensions of rooms and height of ceiling.

THE ONLY BEST

WANAMAKER'S

Of course there are styles of head-wear that you don't care to buy, but we mean our Hat Store to have everything of the sort a man or boy needs for dress or for comfort.

The newest Heath Hats (London) are at hand. Every make that we are to have is here.

Knox's Derby and Silk Hats are as near the top as any. You never see that name in a mean Hat.

Best Philadelphia makes too. Jumble them all up and you might not hit the Heath or Knox at the first or second choice. When a certain point of Hat goodness is passed how many of you make up your minds after a look in the crown?

Silk Hats, \$4 to \$8.

Derby Hats, \$1.50 to \$5.

All the other things that help to comfortably and perfectly dress the man.

Sealed proposals, in triplicate, subject to usual conditions, will be received at this office until 12 o'clock noon September 1st, 1890, for the erection of one Brick Calvary Barrack, as per plans and specifications to be seen at this office. Enclose proposals in envelope marked "Proposals for Erection of Barrack," addressed to the undersigned, Chas. W. Williams, Captain A. Q. M., U. S. A.

Sealed proposals, in duplicate, will be received at this office, 1428 Arch street, Philadelphia, until 11 A. M. Tuesday, September 16, 1890, and then opened for dredging in Philadelphia Harbor, Pa., for removal of Smith's and Windmill Islands. The attention of bidders is invited to the Acts of Congress approved February 26th, 1885, and February 23d, 1867, Vol. 23, page 332, and Vol. 24, page 414, Statutes at large. For all information apply to C. W. Raymond, Major of Engineers, U. S. Army.

Sealed proposals will be received at the office of the undersigned, until the 27th day of August, 1890, for the erection and completion of a stone and brick hotel building, to be built at Goshen, Virginia, for the "Goshen Land and Improvement Company." A satisfactory bond will be required of the successful bidder. The right to reject any and all proposals is reserved. Plans, specifications and all information to be obtained from Yarnall and Goforth, architects, No. 14 South Broad street, Philadelphia. C. I. Cook, Secretary Goshen Land and Improvement Company.

Sealed proposals will be received at the office of the Commissioners, Washington, D. C., until 12 o'clock noon, Thursday, Sept. 4 1890, for furnishing Granite Curb, to be used on various streets and avenues in the City of Washington. Blank forms of proposals and specifications can be obtained at this office on application therefor, together with all necessary information, and bids on these forms only will be considered. The right is reserved to reject any and all bids or parts of bids. J. W. Douglass, L. G. Hipe, H. M. Robert, Commissioners D. C.

Sealed proposals will be received at the office, S. W. corner Sixth and Sansom streets, until Tuesday, August 26th, 12 M., to abate the following nuisances: To regrade and repave Whitney street, extending from Passyunk avenue to Eighth street. To regrade and repave the alley on premises 1828 to 1836 Cedar street, 817 to 823 Hewson street, and 1541 to 1545 Vienna street. Also plumbing work on premises 2036 North Broad street. Plans and specifications for the above work can be seen at this office. Joseph G. Patterson, Health Officer.

Sealed proposals will be received up to 2 o'clock P. M. on August 26th, 1890, at the office of the Board of Directors of the Street and Sewer Department of the City of Wilmington for the construction of about 2.4 miles of terra cotta pipe and brick sewers. A certified check for \$1000, made payable to the Board of Directors of the Street and Sewer Department, will be required of each bidder as a guarantee that the party or parties to whom the contract may be awarded will execute the same within five days after notice has been sent to his address. The right to reject any and all bids is reserved. Plans and specifications can be seen at the office of T. Chalkley Hatton, Engineer in Charge of Sewers.

Sealed proposals, in duplicate, endorsed "Proposals for Rebuilding Broad Street Wharf, at League Island," will be received at the Bureau, Washington, D. C., until 12 o'clock noon, on Tuesday, September 2d, 1890, and publicly opened immediately thereafter. Specifications and blank forms of proposals will be forwarded upon application to this Bureau, or to the Commandant of the Navy Yard, League Island, Pa. Bidders are expected to fully inform themselves of the character of the work required by visiting the Yard, where plans may be examined. Responsible security will be required for the faithful performance of the contract, and the right is reserved to reject any or all proposals not deemed advantageous to the Government, and to waive defects. A bond for the sum of \$20,000 must accompany bids for the work. N. H. Farquhar, Chief of Bureau.

Sealed proposals in duplicate, indorsed "Proposals for Pumping Plant," will be received at the Bureau of Yards and Docks, Navy Department, Washington, D. C., until 12 o'clock, noon, on Wednesday, the 8th day of October, 1890, for furnishing, delivering and erecting the pumps, engines, boilers, suction and discharge pipes, and all attachments appertaining thereto, in working order, for the granite dry dock at the navy yard, Boston, Mass. There will be two main pumps, to have a mean discharge capacity of 20,000 gallons each, and the engines and boilers must be of sufficient power to perform the duty required by the pumps in the above discharge, with a pressure of not less than 80 pounds steam in the boiler. There will also be included one drainage pump of a capacity of not less than 2000 gallons per minute, with the greatest lift. The bids must include the work of taking out the boilers, engines and pumps now in use, to be deposited as directed. The

boilers, engines and pumps are to be located where the present apparatus now is. The cost of adapting the present wells to the new apparatus is to be included in the bids; also, any alterations in foundations necessary or the new plant. Plans and specifications must accompany the bids, and be full and explicit in regard to all features of the new plant and all the work to be done. Plans of the dry dock and engine and boiler house can be seen at the Boston Navy Yard or this bureau. The Bureau reserves the right to reject any or all bids. N. H. Farquhar.

Proposals will be received until October 1, 1890, by James Brown, Comptroller of City of Allegheny, Pa., for the construction and erection of two pumping engines of a capacity of 8,000,000 gallons each, to be of the type known as the vertical direct-acting, three-cylinder compound condensing engines, with a combined capacity of pumping 16,000,000 gallons every 24 hours against a head of 300 feet, with a piston speed not exceeding 120 feet per minute. For the construction of two basins having 460 by 660 feet surface at foot of embankments, said embankments to be 30 feet above bottom of basins. The reservoirs to have one inlet and one outlet gate chamber. For furnishing six sixty-inch stop gates, to be double seated, with parallel-faced valves of easy adjustment, to be operated with two screw stems parallel to each other and connected by suitable gear. For a 1500 horse-power boiler plant; boilers to be set up in batteries not exceeding 300 horse-power, with a given guarantee on evaporative power of boiler per pound of coal consumed. Boilers will be placed in position and set up by the contractor on foundations furnished by the city. Proposals will be received for the construction and erection of a filtering plant to be used in connection with new water service, to be erected at a point nine miles up the Allegheny river. Bidders to furnish their own plans and specifications, erect their plants and operate the same for a period of not less than six months on trial, and if satisfactory to the committee on water and superintendent of water-works, the contract price to be paid; if not satisfactory, they to remove the plant without cost to the city. For the construction and laying of a 60-inch steel or iron conduit from Nine-Mile island to the city, about 8.74 miles, to be in sections of twenty-four feet in length from center to center joints. Manholes to be provided for every forty sections of water main. Elbows of vertical and horizontal inclinations to be provided for, with angles as shown on plan and profile. Force main to be fifty (50) inches in diameter and constructed as per plans and specifications.

FOUND AT LAST.

It has been the perplexing study of Chemists for many years to discover a paint which on application would enter into the pores of wood and other material, dry quickly, become extremely hard and last for a number of years without blistering, cracking or peeling off and at the same time resist Fire and Dampness.

Such a Discovery having been made by W. D. ROBERTS, SR., and having been in use and under the severest trials for more than 12 years in which time it has deservedly gained a reputation which now excels that of all other paint.

It is made in all Colors and is suitable for all kinds of Painting.

PHILADELPHIA, WED'Y. AUG. 27, 1890.

For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communications for publication may be left.

THE organization of Operative Builders' will now have an opportunity to try its mettle on the question of city improvements. If the influence of the organization is not over-estimated, some proposition will certainly be forthcoming, which will at least indicate a way out of the present dilemma. Any reasonable view of the situation involves serious consequences to our builders unless relief is afforded, and the work of building sewers, the laying of gas and water pipe, and the grading and paving of streets goes on so long as the weather permits. With a full appreciation of what the stoppage of city improvements involve on the part of General Wagner and our City Councils, it would seem that these gentlemen should prove equal to the exigencies of the hour, and provide some measure for immediate, as well as, permanent relief for this year at least. It is a poor business proposition that will stop at exhausted appropriations; for, as we understand General Wagner's official position, he represents something more than a purveyor of city supplies. He is, indeed, a city executive, possessing, we trust, an executive brain of sufficient calibre to comprehend the magnitude of the building operations of 1890, with their attending annual increase to the city's revenue, and will suggest to Councils ways and means, as any head of a large mercantile concern would do under similar circumstances. It is a happy circumstance that the organization of Operative Builders' exists. It is composed of many long-headed, practical men, almost any one of whom would be equal to such an emergency as to his own business, and we believe,

that it is only reasonable to hope, that with such a combination as General Wagner, the members of City Councils and the organization of Operative Builders' working together harmoniously, the necessary relief will be obtained.

John Loughran builder and operator, is about to commence thirty-two houses on Seventeenth, north of York street, to be two and three-story, stone trimmings and fitted throughout with modern improvements.

The Lincoln Park Steamboat Company, has increased its capital stock, from \$50,000 to \$250,000. It is said, that owing to the success of the present season, arrangements will probably be made in a short time for the purchase of additional ground, so as to allow of improvements.

Hunter & Nock builders, Drexel building will build on Clifford street, east and west of Thirty-second, twenty-four, three-story houses and ten of same kind on Fifty-fifth street north of Jefferson, to be brick, stone facings and trimmings, wood mantels, hot air heat and best of plumbing, all modern improvements.

The Chief Engineer of the Penna. R. R., has ordered the architect to ask for new bids on the proposed office building, to be erected by that Company, at Jersey City, N. J., the plans and specifications have been modified somewhat, so as to reduce the cost of material, the height of the structure is to be reduced in specifications.

Lewis T. Brooke Real Estate Broker, 14 S. Broad street, has made several sales of land for building operations, among which is the sale of five acres, to F. W. Kipper. This tract is situated on the Lancaster turnpike, adjoining the Wayne estate. The price paid was \$1,400 per acre; it will be improved by the erection of dwellings.

John Wanamaker has transferred to the Iron Hall Association, the property on west side of Broad, above Arch street, for the purpose of erecting thereon, a hall and office building, as contemplated by the above named organization and before noted and described in the columns of this journal. No contracts for plans or erection of structure, have been awarded.

W. C. Merritt builder, Fortieth and Poplar streets, is about to erect twelve handsome, three story houses, brick, with brown-stone fronts, interiors decorated in fine style, wood and stone mantels, hard wood finish, best of sanitary plumbing, fine ranges and heaters, as well as all modern conveniences will be introduced, plans and specifications may be seen at office, above indicated.

In an interview with one of the Fertilizing Company, at the scene of their recent fire, on the 18th inst., the inference drawn, is that they will at once make plans for re-building, at least, as soon as insurance is adjusted and some other details arranged, which will be in a few days at most, the entire plant will have to be renewed throughout, these works are located at Thirtieth and Thompson streets.

General contractors are estimating on the plans for the Hotel at Goshen, Va., noted by us several weeks since and of which, Yarnall and Goforth are the architects; also for the Brewery of Henry Muehler's estate, for which, Otto C. Wolf, drew the plans and specifications; also noted by us heretofore.

All obstacles are now said to be removed to commencement of practical operation on the work of construction of the "Hotel Metropole," Broad and Locust street and the first preliminary necessary, will be the award of contract. Contractors will be requested to estimate and the work pushed rapidly to completion, under the supervision of the architect, Mr. Angus S. Wade, who drew the plans.

An immense wharf is projected by plans and specifications now in the Engineers' office, at League Island Navy Yard and to be attached to Island for Naval purposes. Contractors are invited to bid until Sept. 2d, when all will be opened and contract awarded; the work must be commenced in twenty days after signing the contract and work must be completed by the end of the fiscal year, 1891.

Geo. W. Blabon, Oil cloth manufacturer, is about to extend his facilities for producing, by erecting an additional factory 54x95 feet, three-stories high, which will necessitate the purchase of new machinery, more steam appliances, electric work, elevators for freight and working material in general, contract awarded and work will begin at once on the structure, which is located on Schuyler street, above Hunting Park avenue.

Preparations are being made by the Mt. Airy Memorial Library Association, to make quite an addition to their present structure; plans have been drawn by Robert B. Cridland, a boy student of Architecture and a member of the Association, they contemplate a 22 foot annex, which will be partly glass upon the sides and towards the ceiling. Mrs. Bostwick, who built and endowed the Library, is the benefactress on this occasion.

Hamilton Disston, Jacob Disston, Thomas W. South, H. A. Mullen, P. E. Costello and others, have formed a Company at Tacony, in the 23d ward, for the purpose of erecting an electric-light plant upon a large scale, a capital of \$200,000, has been paid in and means will at once be taken to commence operations in the way of construction, the organization will be known as the Suburban Electric Light Co., with office at Tacony, Phila., the articles of incorporation were granted on the 20th inst.

Joseph Wharton, has just purchased the old Levering Sugar Warehouse, on Lagrange, near Second and Arch streets, it is the purpose of Mr. Wharton, to alter and remodel the building for storage of Dry Goods, reducing it from eleven stories, to eight and introduce steam and elevators, electric light and all other appliances for convenience of those who may become patrons, it is proposed to make it thoroughly fire-proof. As yet, no architect has been engaged.

Jno. J. Cassiday builder and operator, McKean street and Moyamensing avenue, will in a few days break ground for rows of dwellings as follows: fifty six, two-story brick, on Mercy, east of E. Second street; twenty-four, on Snyder avenue, between Front and E. Second street; twenty-five on the south side of Mercy, west of Second street and twenty-four more on Snyder avenue, west of Second street; all to have stone facings, steps, stained and plate glass, electric work and modern improvements.

A large transfer of ground took place on the 19th inst. from A. Fizaing to Thomas Hunter and Clifford Pemberton, Jr., at Thirty-second, Clifford and Natrona streets, which is indicative of more building operations by the firm of Hunter & Nock, Drexel building, as the newly acquired land adjoins that upon which a large operation is at present under way, their houses are nearly all three-story, of press brick, stone trimmings and fitted upon the inside, with the best and most approved modern conveniences.

The buildings about to be erected at Twenty-second and Chestnut streets, by builder Jno M. Sharp, upon plans drawn by architect Angus L. Wade, 20 S Broad street and noted fully in this journal, February 23d, '90, will be a very handsome addition to that neighborhood, the plans comprehend very ornamental fronts of Pompeian and Red brick, Indiana Limestone and red stone facings and trimmings, electric bells and light, dumb-waiters, as well as all other modern conveniences, will be introduced. Special sanitary plumbing has been provided for, the average front will be 20 feet and depth 150 feet and the value of each, will be about \$40,000.

ADDRESS

JAS. T. ALLEN & SON,**No. 212 South Tenth Street,****PHILADELPHIA,**

At Camden, the contract for the erection of the new school building, and the addition to the Mount Vernon colored school, has been awarded to contractor John Corbitt. The contract for heating has been awarded to the Smead-Wills Company, of Philada.

At Atlantic City, it is said that the property of the old Sea View Excursion House has been sold to a New York syndicate for \$120,000, and that extensive improvements will be made, possibly with a view of utilizing it as an excursion house. John M. Plum is the present proprietor. F. A. Souder has been given the contract for an enlargement of the Shelburne Hotel. It is reported that a number of wealthy gentlemen are considering the erection of a large brick hotel, to be completed by next summer. The management of the hotel to be under Mr. Charles McGlade, of the Mansion House. Father Fedigan, of St. Nicholas Catholic Church, can give information regarding the erection of a new parsonage, at Tennessee and Pacific avenues.

Through Pennsylvania.

When any of the following are not post office towns they will be so designated.

—At Ridley Park, Delaware County, Mr. Harrison will erect a dwelling and drug store.

—At West Chester, Chester Co., the trustees of the West Chester Normal School will erect a handsome residence for Professor Philips.

—At Harrisburg, E. G. Wallover and Edward S. German purchased the choice blocks of lots on Market street, which will be improved.

—At Russellville, Chester Co., Eugene Rigg has bought a piece of land containing several acres, on which he will build.

—At Collingsdale, Delaware Co., the erection of a chapel is contemplated by the Episcopal Society.

—At Braddock, Allegheny Co., the members of the Disciple Congregational Church will erect an edifice to cost \$15,000.

—At North Wales, Delaware Co., the North Wales Land and Improvement Company has decided to erect twenty-five dwellings.

—At Darby, Delaware Co., Thomas Tarbotom has been given the contract to erect an eight-room frame dwelling on Ridge ave.

—At Collegeville, Montgomery Co., an effort is being made to raise funds for the erection of new buildings for Ursinus College.

—At Thurlow, Delaware Co., John T. Ives has purchased two building lots, upon which two dwellings will be erected.

—At Downingtown, Chester Co., G. T. Guthrie has been awarded the contract for building the new Baptist church, for \$5,000. When completed the church will cost about \$7,000.

—At Bethlehem, Northampton Co., J. H. Myers will erect five brick dwellings, terra cotta trimmings to cost about \$4,000. A. W. Leth is the architect. No contracts let.

—At Greensburg, Westmoreland Co., ex-Sheriff B. F. Byers will erect a frame residence to contain all modern conveniences, and handsomely finished, from plans drawn by T. C. Campbell, Penn. Building, Pittsburgh, Pa.

—At York, York Co., The Trust, Real Estate and Deposit Company will erect a building to cost \$25,000, from plans prepared by J. A. Dempwolf. None of the contracts have been let.

—At Devon, Chester Co., Charles Paist has sold an acre and a quarter of land to Mr. Valentine Clad for \$3,000. Mr. Clad will erect a handsome country residence on the site.

—At Uniontown, Fayette Co., steps are being taken towards the erection of a building for the purposes of the Y. M. C. Association. A number of subscriptions have been taken towards a \$25,000 building. Mr. J. V. Thompson and Col. John Collins can give information.

—At Ardmore, Montgomery Co., the members of the Dirigo Club have purchased a lot on the Philadelphia and Lancaster turnpike road, upon which a club house will be erected, the upper part to be used by the club, and the ground floor to be used by the newly organized fire company.

—At Harrisburg, Mr. H. Cook will erect a frame dwelling on Crescent street. Mrs. Fanny McConkey will erect a handsome brick residence on South Front street. It will be three stories high, brown stone trimmings; also oriel window, fine interior finish and modern conveniences. W. G. Ball is the contractor for the erection. John Shein will erect a dwelling on Kelper street. H. Barge will also erect a dwelling.

—At Allentown, Lehigh Co., Wm. F. Yeager has begun the erection of forty-eight two-story brick dwellings. Dr. Charles D. Martin has begun the erection of a handsome brick residence. Gangawere & Nadig will erect seven two-story brick dwellings at Fourth and Allen streets. Charles H. Edwards, George A. Albright and John N. Kline will erect dwelling and stable. Mr. Albright's dwelling will be a double one, 44x50 feet. Mr. Edwards' will be 40x40, and that of Mr. Kline's 40x59. To be well finished and to contain all modern improvements.

—At Royer's Ford, Montgomery Co., the initiatory steps have been taken towards the erection of a new church by the Methodist congregation, of which Rev. J. S. Lance is the pastor. At a recent meeting of the members a building committee was appointed, consisting of Rev. J. S. Lance, Simeon Keim, Wm. S. Essick, T. C. Freed, B. J. Latshaw, S. B. Latshaw, and John Bisbing. The committee has not organized as yet, but will do so as soon as the pastor returns from Joanna Heights, after which arrangements will be completed for the erection of a handsome edifice suitable to the needs of the congregation for years to come. There will also be a Sunday school room attached to the main building.

—At Edge Hill, Montgomery County, Mrs. A. Scott, parasol and cane manufacturer, 474 North Eighth street, Philadelphia, has purchased six lots on Cricket avenue, and will erect a handsome residence. Robert Sadler, of 802 Buttonwood street, Philadelphia, has completed arrangements for the erection of a residence. About sixteen dwellings will be begun in a short time. Wm. H. Kuhn, agent of the Pennsylvania Real Estate Company, can give information. Daniel Wisemaner will erect a store and dwelling. Joseph V. Swab, meat and provision dealer, of Philadelphia, has purchased two more lots on Central avenue, making four lots in all, on which he will erect a handsome dwelling.

—At Pittsburg, F. C. Sauer, Sixth and Liberty streets, has prepared plans for a frame dwelling, to be erected by Mrs. Lucy A. Ferguson, to be erected in Ben Venue place; also plans for a stone and brick dwelling, to be erected on Boquet street, and to contain all modern conveniences, no contracts let; also plans for a number of buildings, to be erected at Hay's Station by the Birmingham Land and Improvement Company; also plans for a dwelling, to be erected by J. H. Boeggeman, on John street. J. Z. Wainwright will erect two dwellings on Liberty avenue, from plans prepared by Bickel & Brennan, Hamilton Building, brick, with interior finish of hard wood and modern conveniences. W. G. Johnson will erect five frame two-story dwellings, to cost about \$19,000. Geo. Shaffer will erect two two-story brick dwellings at a cost of \$3,600. Alex. McKinley will erect two three-story stores and dwellings, to cost \$13,000. T. C. Lindsay will erect two story brick dwelling, slate roof, to cost \$6,500. Lowrie & Flinn will erect two three-story brick dwellings, to cost \$10,000. Emma D. Bickel will erect two-story brick dwelling, to cost \$4,000. B. N. Jacobs will erect two-story brick dwelling, to cost \$5,500.

—At Media, Delaware Co. The plans for the annex to the Court House, call for the following: It will be 43 feet 6 in. from north to south, and 81 feet 8 in. from east to west, and will be built of brick, plastered on the exterior and marbleized. The roof will be of tin and the cornices of galvanized iron of an ornamental character. At the north end will be a porch, with columns resembling the present porch on the south front of the main building. The windows throughout will be larger, and those upon the first floor will be provided with steel inside shutters, and those upon the second floor with inside blinds. A handsome bay window will be erected on the old building at the landing of the present rear stairs, which will be altered and increased in size. Upon the west side of the old building there will be erected an elevator shaft to convey prisoners from the cell room to the dock. This will be equipped with a hydraulic elevator, capable of lifting 400 lbs. The corner room now occupied by the Register of Wills will be altered into a toilet room fitted up with conveniences of an improved pattern. The other room occupied by the Register will be altered into a cell room, containing six cells and other conveniences. The elevator shaft mentioned above will have a door opening into this room as well as one opening into the dock in the court room. The windows opening into the elevated shaft will be provided with ornamental iron grills. The first story of the annex will be fire-proof, being supported upon arches and heavy iron beams, the ceiling being of iron and brick. A corridor corresponding in size and construction with the one in the present building will run through the centre of the annex. There will be a large room on each side of the corridor, one of which will be occupied by the Recorder and the other by the Register. Each of these will have a transcribing room erected on one side. This will be but one story high. These offices will be newly furnished with the modern conveniences pertaining to such places. The second story will contain three large jury rooms, as well as a room for the Judge, which will also have a neat toilet room. The jury rooms will each contain a stationary washstand, and, we hope, stationary beds for the jurors who may be so unfortunate as to get locked up in them. There will be no alteration in the court room, except changing the present window in the dock into the doorway mentioned above. George C. Hoopes has the contract. Contractor Frank S. Riggs has left for Asheville, N. C., to sign the contract for the erection of the Kenilworth Inn at that place. The hotel will contain about five hundred rooms, and will be fitted with every modern comfort and improvement. The stockholders are Vanderbilt, of New York, the Inman Steamboat Company, and a number of Philadelphians.

EXCELSIOR RANGES.

* 24 Sizes and Varieties. *

For 30 years the standard of excellence in Philadelphia, and now better and handsomer than ever. No first-class house is complete without one, 75,000 now in use in Philadelphia and vicinity. Ventilated oven, oven door pedals, grates that give perfect control of fire at all times. Single oven, double oven and hot-air ranges at moderate prices. Specify the "Excelsior Ranges" if you want the best. Send to the Manufacturers, **Isaac A. Sheppard & Co.,** 4th STREET, AND MONTGOMERY AVENUE, PHILADELPHIA,

All responsible Dealers supply them.

for their pamphlet "Perfect Cooking" giving full description.

Men who Build HOUSES!

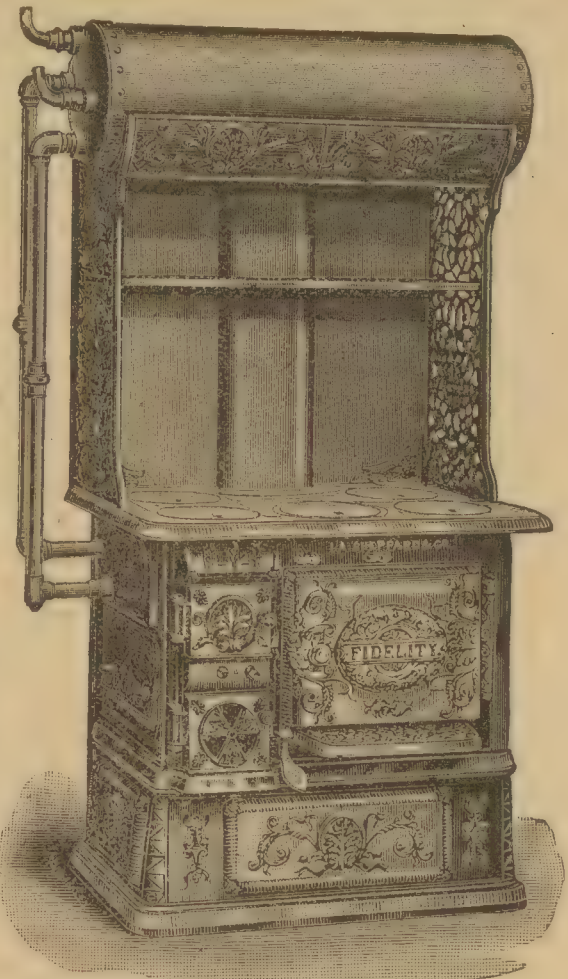

Need To Buy Ranges.

If they themselves occupy them of course the ranges should be good ones. If they intend selling or renting them good ranges in the kitchen will help the Builder or Owner to sell or rent to better advantage. In either case

Does it Pay

to put in cheap ranges of no particular reputation, when a mere trifle in the way of additional expense would provide the

"Excelsior" or the "Fidelity?"

FIDELITY RANGES.

7 and 8 inches, Right and Left Hand.

Just the thing for small Houses. No brick-work. Plumbing reduced to a trifle, Hot Water in abundance. The latest and the best of their class.

Globe Tubular Street Lamps.

Globe Tubular Street Lamp. Burns Head Light Oil without a chimney. The wick is 1½ in. wide. Holds sufficient oil to burn twenty hours. Can be set when lighted to burn a certain number of hours. It endures the roughest winds. Is but little more care than a gas street lamp, and will give a better light.

We propose to light a medium size dwelling complete, for \$26.00, as follows:

Parlor—3 Light Extension Gold Bronze Chandelier, - - -	\$11.00
Hall—Gold Bronze Hall Lamp, - - -	3.75

THE ONLY BEST

WANAMAKER'S

Of course there are styles of head-wear that you don't care to buy, but we mean our Hat Store to have everything of the sort a man or boy needs for dress or for comfort.

The newest Heath Hats (London) are at hand. Every make that we are to have is here.

Knox's Derby and Silk Hats are as near the top as any. You never see that name in a mean Hat.

Best Philadelphia makes too. Jumble them all up and you might not hit the Heath or Knox at the first or second choice. When a certain point of Hat goodness is passed how many of you make up your minds after a look in the crown?

Silk Hats, \$4 to \$8.

Derby Hats, \$1.50 to \$5.

All the other things that help to comfortably and perfectly dress the man.

JOHN WANAMAKER.

Bridge and House Railings, Stairs, Grilles, Shutters
Tree-Guards, Builder's Iron. Repair Work.

Miscellaneous.

At Covington, Newton Co., Ga., a cotton mill, to cost \$100,000 will be erected by the Bibb Manufacturing Company, of Macon, Ga.

At Boulder, Boulder Co., Col., plans have been prepared for the erection of a hotel to cost about \$100,000.

At Bridgeport Jackson Co., Ala., a large grain elevator will be erected by the N. C. and St. L. Railway Company.

At Springfield, Hampden Co., Mass., \$50,000 has been subscribed by ten men for the erection of a building for the Y. M. C. A.

At Rockmart, Polk Co., Ga., the Rockmart Land and Improvement Company will erect a town to be called East Rockmart.

At Newburyport, Essex Co., Mass., Company A, of the Eighth Regiment, will erect an armory.

At Harper's Ferry, Jefferson Co., W. Va., the Harper's Ferry and Loudon Bridge Company has been incorporated, and will erect a bridge over the Shenandoah river.

At Parkersburg, W. Va., the oil refinery of George Rice, which was run in opposition to the Standard Oil Company, has been destroyed by fire at a loss of \$75,000. It will be rebuilt at once.

At Richmond, Va., S. E. Reed, Jr., has prepared plans for a residence, for Professor Dunnington, to cost \$6,000; also plans for a residence, for Mr. Smith, to cost about \$5,000. J. Kennedy has prepared plans for a residence for J. Tatnall Spooner & Son, builders.

At Kent's Hill, Kennebec Co., Maine, a new building will be erected by the Maine Wesleyan Seminary, from plans drawn by architect Y. J. Thomas, of Boston, Mass. The building will be 80x56 feet, and contain music and art departments, library, gymnasium and society room.

At Worcester, Worcester Co., Mass., Rev. Thomas Griffin has purchased a lot on Winter street, upon which will be erected a brick parochial school and parish hall for St. John's parish. The building will have a frontage of 125 feet.

At Brockton, Plymouth Co., Mass., the new court house to be erected, will cost about \$65,000. No plans have been prepared, and architects will be invited to compete. The Perry Building will be remodeled into a hotel, to contain about one hundred rooms, by Lester F. Holmes.

At Fall River, Bristol Co., Mass., the Board of Overseers want the city government to erect a new hospital. J. M. Darling has made plans for a frame structure, to cost \$17,000. The local Committee on Public Instruction has voted to award contracts for the erection of three new school buildings, to cost about \$50,000.

At Thomaston, Litchfield Co., Conn., the trustees and board of directors of the Y. M. C. A. have decided to erect an association building. The front will be of Philadelphia pressed brick, trimmed with Ohio white stone. The interior will be handsomely finished and furnished for the use of the association.

At Piedmont, Calhoun Co., Ala., the Hughes estate, containing about 200 acres, has been purchased by W. M. Canby, and others, of Wilmington, Del. A company has been organized to be known as the Wilmington Real Estate Company, for the purpose of improving the land, and erecting ice and other factories and saw mills.

At Steubenville, Jefferson Co., Ohio, Homer C. Cook sends word that the large plant of the Jefferson Iron Works, destroyed by fire last week, will probably be rebuilt on a more extensive scale as soon as the matter of insurance is adjusted. The loss was about \$100,000, covered by an insurance of \$64,000. The board of directors will meet in a short time to consider future action.

Sealed proposals in duplicate, endorsed "Proposals for Pumping Plant," will be received at the Bureau of Yards and Docks, Navy Department, Washington, D. C., until 12 o'clock noon, on Wednesday, the 8th day of October, 1890, for furnishing, delivering and erecting the pumps, engines, boilers suction and discharge pipes, and all attachments appertaining thereto, in working order, for the granite dry dock at the Navy Yard, Boston, Mass. There will be two main pumps, to have a mean discharge capacity of 10,000 gallons each, and the engines and boilers must be of sufficient power to perform the duty required by the pumps in the above discharge, with a pressure of not less than 80 pounds steam in the boiler. There will also be included one drainage pump of a capacity of not less than 2,000 gallons per minute, with the

greatest lift. The bids must include the work of taking out the boilers, engines and pumps now in use, to be deposited as directed. The boilers, engines and pumps are to be located where the present apparatus now is. The cost of adapting the present wells to the new apparatus is to be included in the bids; also, any alterations in foundations necessary for the new plant. Plans and specifications must accompany the bids and be full and explicit in regard to all features of the new plant and all the work to be done. Plans of the dry dock and engine and boiler house can be seen at the Boston Navy Yard or this Bureau. The Bureau reserves the right to reject any or all bids. N. H. Farquhar.

Proposals will be received until August 31, for furnishing and delivering free on board cars at South Orange, N. J., cast-iron water pipe approximately as follows: 10 inch pipe, 6000 feet; 8 inch pipe, 6000 feet; 6 inch pipe, 6000 feet; 4 inch pipe, 6000 feet; special castings, 15 tons, more or less. All pipes are to be of the spigot and socket pattern, with caulking rings satisfactory to the engineer. All castings shall be smooth and free from swells, lumps, scales, blisters, sand holes or other imperfections. Hubs and spigots shall be smooth, and so smoothed that the spigot end of all pipes shall enter readily to the full depth of the hub. All pipes and castings are to be made of first-class iron, and must be subjected to a hydrostatic pressure before leaving the foundry of 300 pounds to the square inch, test to be made under the supervision of an authorized inspector of the engineer. The metal for the castings shall be from foundry pigs of good grey iron, giving uniform granulation and producing tough castings which may be readily cut, drilled and chipped, and show a tensile strength of at least 18,000 pounds per square inch. All pipes shall truly conform to their design, be truly cylindrical, and in section shall exhibit a truly annular form of metal, and be carefully coated inside and out with a preservative varnish following Dr. Angus Smith's process or a similar one satisfactory to the engineer. All pipes and castings as they are unloaded from the cars are to be subjected to a thorough hammer test before they will be accepted by the engineer. Bidders will state in their proposals the weight of twelve foot length of the different sizes of pipes, and in determining the weight of pipe received these weights shall not be deviated from more than three per cent. Bidders will state their earliest date for delivery of pipe. The Trustees reserve the right to reject any and all bids. H. H. Hart, H. B. Halsey, J. G. Morrison, Water Committee.

FOUND AT LAST.

It has been the perplexing study of Chemists for many years to discover a paint which on application would enter into the pores of wood and other material, dry quickly, become extremely hard and last for a number of years without blistering, cracking or peeling off and at the same time resist Fire and Dampness.

Such a Discovery having been made by W. D. ROBERTS, SR, and having been in use and under the severest trials for more than 12 years in which time it has deservedly gained a reputation which now excels that of all other paint.

It is made in all Colors and is suitable for all kinds of Painting.

Numerous strong endorsements are in our possession. Call and examine or send for descriptive Circular.

Miscellaneous.

At Rome, Lloyd Co., Ga., a chemical works is to be erected. W. L. Goldsmith is president of the company.

At Clinton, Anderson Co., Tenn., the Mayor can give information as to the construction of a water works by a stock company.

At Westboro, Worcester, Mass., the Board of Trade contemplate the erection of a building to cost about \$10,000, for manufacturing purposes.

At Chattanooga, Hamilton Co., Tenn., the Consumer's Ice Company, with a capital of \$50,000, has been incorporated by Edward Kohn and others. A factory will be erected.

At Brockton, Plymouth Co., Mass., it is reported that six or seven architects will present their plans in a few days to the County Commissioners, for the new Court House.

At Plainville, Norfolk Co., Mass., it is reported a library building will be erected. Daniel Brown has offered to give the site, and Lowring Howes, of Providence, R. I., offers to give \$10,000.

At Worcester, Worcester Co., Mass., the Young Women's Christian Association has secured \$44,000 out of a needed \$60,000 towards the erection of a building for the use of the association.

At Lyndon, Caledonia Co., Vt., proposals are now being received for the erection of the new dormitory at the institute. It will be three stories high and contain sixty rooms. Architect Lambert Packard, of St. Johnsbury, same county, Vt., prepared the plans.

At Norwalk, Fairfield Co., Conn., the proposals for erecting the Children's Home building will soon be invited, as the plans, which have been prepared by architect A. A. Beers, of Bridgeport, Conn., have been accepted by the County Commissioners. The appropriation for the structure is \$12,000.

At Concord, N. H., Wm. P. Fowler, of Boston, is negotiating with parties of Concord, looking towards the erection of a large hotel at State and Pleasant streets. The new structure will be of brick, four stories high, and will contain all modern improvements. Plans will be prepared by a Boston architect. As soon as the plans are completed contracts will be called for and work begun, so as to finish the new structure by January 1, 1891.

At New York City contracts for the new emigrant station on Ellis Island, N. Y. H., were let August 20th, as follows: Frank Rinchler, of Stapleton, L. I., for piling and masonry for main building, \$13,747; Warren Rosevelt, of New York city, for crib work, except brick work, \$37,000. The Grant Monument Association now look to an early completion of a monument to cost \$500,000 or more. Ground will be broken at once for the construction of the new police station for the twenty-seventh precinct, in West Sixty-eighth street. Isaac A. Hooper has been awarded the contract for \$60,985. The real estate agents are expecting a good trade in the fall. The demand for houses and lots in the rural districts is good. The Western Union's tower and roof are nearly torn down. It is expected the work of alterations and improvements will be completed before cold weather sets in, but it may be winter before the upper stories are ready for occupying. The building will be made safe and as nearly fire proof as possible. The disastrous effects of the tie-up by the brick manufacturers is already felt. The price of brick has advanced from \$5.25 to \$5.75 a thousand, and the scarcity is daily increasing. It will soon be impossible for dealers to fulfil their contracts with the builders. The brick yards along the Hudson river are obliged to close by November 1st each year, so it is too late for the yards to start up this season. The Armory Board has decided to advertise for bids for preliminary plans for the new armory of the Seventy-first regiment, to be erected on Fourth avenue, between Thirty-third and Thirty-fourth streets. Plans for the new armory which is proposed to be erected on the site of the old Twenty-second regiment armory, have been placed on file. The Ninth Regiment will also have a new armory.

Architect's Notes.

Furness, Evans & Co, architects, 209 South Third st., are engaged making plans for alterations and additions to the handsome residence of the Hon. J. G. Blaine, in Washington, D. C., which will be of a very elaborate character. Many new comforts will be introduced, and will be finished before the winter season begins.

Wilson Bros, architects and engineers, Drexel building, have finished the plans for alterations and additions of the old "Wetherill House" on Sansom street, for Geo. W. Childs, proprietor of the *Public Ledger*. The structure will be annexed to the present plant of the *Ledger*, and constructed in accordance with our description in "Building Notes" of June 4th, 1890.

Edwin F. Bertollett, architect, 257 South Fourth street, Philadelphia, is engaged on plans for an office building for the Geiser Manufacturing Company, at Waynesboro, Pa., to be three story, stone basement, brick superstructure and brick interior walls, metal tile roof, heated by indirect hot water system, common glass light, double thick, fire-proof vaults and best of sanitary improvements, etc.

R. H. Robertson, architect, 121 East Twenty-third street, N. Y., has drawn plans for a handsome office building to be erected at corner of Eighteenth street and Broadway, for Eusu McIntyre, 34 West Eighteenth street, to be 24x88 feet, ten stories high, to be of brick, stone and iron, passenger elevator, steam heat, asphalt roof and artificial pavement, together with all the latest and best improvements.

Harold Godwin, architect, 905 Walnut street, has completed plans for depots at Mt. Hope and Brighton stations, on the Western Maryland railroad, and is soon to begin drawings for a number of larger ones in the city of Baltimore, Md.

Maher & Corwin, architects, 218 La Salle street, Chicago, Ill., have been engaged to draw plans for a large family hotel at Fifty-sixth street and East End avenue, to be erected by A. F. Shuman, 84 Washington street, Chicago. It will be 155x155 feet and be constructed of brick, stone and iron, finished in hard wood, inside marble wainscoting and tile floors, heated by steam and lighted by electricity, to have elevator service and all modern improvements.

Willis G. Hale, architect, 1524-26 Chestnut street, Philadelphia, is engaged on plans for the extension of the bank and office building known as the Lucas building, at the S. W. corner of Juniper and Chestnut streets. The plans contemplate the extension of the structure entirely back to Sansom street, and in keeping with the rear part of it, except a fine front will be upon the latter street. Elevators and electric work will be introduced, and no expense spared to maintain its standing as an office building.

F. Miles Day, architect, 238 South Third street, Philadelphia, has made plans for a factory building at Kaulakee, Ill., for the Taylor Fibre Ware Company, to be brick and fitted with all machinery and equipments for a refrigerator factory. There will also be a boiler house, stack and a kiln for drying lumber. Address the firm for information. He has on hands plans for a carriage factory for Sowney Bros., 747 South Fourth street, Philadelphia, to be 40x80 feet, four stories high, have carriage elevator, varnish and manufacturing rooms, etc.

John J. Deery, architect, 328 Walnut street, Philadelphia, has completed plans for a three-story store and dwelling for J. Frank Simmons, at Roanoke, Va., to be of Baltimore press brick and all modern improvements. He is engaged upon plans for a handsome Roman Catholic Church to be erected in Brooklyn, N. Y., at Myrtle avenue and Division streets. It will be of Romanesque design, Perth Amboy buff brick with terra cotta trimming and ornamentation, and will cost about \$60,000 when completed. Also plans for a carriage house for Mr. J. G. Lindsay, at Upsal, near Chestnut Hill, to be of stone, gable roofs, and to have all stable improvements. Its cost will be about \$3,000.

Harrison Albright, architect, 508 Walnut street, Philadelphia, designs quite extensive alterations to his present quarters by enlarging the rooms and adding more, which he will fit up in a manner which will give comfort and convenience to his patrons. He is also making plans for alterations and additions to a house at Langhorne, Pa., for Mr. T. F. Phillips, plans for a house for Mr. H. C. Adams, at Cheltenham, Pa., and a store and office building at Lansdale, Pa., for Thos. H. Sands, and twin cottage at Wissanoming, Pa., for H. P. Castor, a stable at Penlynn, Pa., alterations and additions to house for T. F. B. Wunder, at Gwynedd, Pa., also, a greenhouse for Mr. William B. Bullock, at Yeadon, Pa.

The J. B. Legg Architectural Company, Olive and Broadway, St. Louis, Missouri, is preparing plans for a bank building to be erected at Highland, Madison Co., Ill., for Kenney and P.bst. It will be of stone, two stories high, 20x60 feet; also plans for a bank building to be erected at Carthage, Jasper Co., Missouri, by the bank of which Mr. Frank Hill is president. It will be 25x80 feet, stone, three stories high, and handsomely finished and fitted on interior; also, plans for a large hotel to be known as the Lindenwood, to be erected in the suburbs of St. Louis, at a cost of \$30,000. It will be of stone, and will contain eighty rooms and all modern improvements.

Architect Ord, of the City Hall, Philadelphia, has completed his design for the Grant Mausoleum. It consists of a building rising four square

with a fine dome and half-domed annexes as high as the first story round the base. the horizontal plan showing a square with four semicircles springing from it, towering above the sarcophagus which stands in the midst of a circular railed depression, like that in which stands the sarcophagus of the first Napoleon under the dome of Les Invalides. The stories into which the higher portion of the edifice is divided, afford, under or over the pillared balconies which adorn the facade, space for friezes, to be filled with figures in bold relief, showing Grant's reception by the crowned heads of Europe and Asia, with other events in his illustrious career.

Building and Real Estate Notes.

It is reported that William Reed, the proprietor of the Penrose Ferry Hotel, Phila., has purchased the property of John Miller, at Tini-cum, Phila., and will erect a large hotel.

PHILADELPHIA, WED'Y. SEPT. 3, 1890.

For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communications for publication may be left.

REAL ESTATE BROKERS wanting real estate of any kind for their clients will find our "Real Estate Wanted" column a desirable means of communicating their wants to their brother brokers. The necessity for some such inexpensive means of communicating the wants of brokers to each other will, when more generally used, serve an important purpose in saving valuable time and labor, besides leading the way to customers and sales, which might not be effected at all. The attention of Real Estate Brokers is invited to this new feature of this journal.

Northern manufacturers are interested in the statement that the finest bricks made in the South are from the refuse of slate quarries. They have a double resisting power and absorb only one-third as much water as ordinary brick.

Miscellaneous.

At Claremont, Sullivan Co., N. H., a hotel to cost about \$50,000 is to be erected of brick and Ohio stone trimmings. It will contain sixty rooms. Architect William Ralph Emerson, of No. 5, Pemberton Square, Boston, Mass., has prepared the plans.

At Springfield, Hampden Co., Mass., the Cooley Hotel property on Main street will be improved, from plans prepared by Jason Perkins. The new building will be of brick, five stories high, 50x120 feet, and will contain all modern improvements and conveniences.

At Essex, Essex Co., Mass., a new high school building will be erected, 40x70 feet, frame, with stone foundation, shingle roof, steam heat, and modern improvements. The plans have been prepared by W. B. Smith, Endicott building, Beverly, Mass.

At Jerseyville, Jersey Co., Ill., the Jerseyville Opera House Company will erect an opera house to cost about \$30,000. Brick and cement, galvanized iron cornices, cathedral glass windows, parquet flooring, freight elevator, opera chairs, iron stairways, skylights, &c. The plans have been drawn by Messrs. Kramer and Zoll, of Findlay, Ohio.

At Springfield, Mass., plans have been accepted for the new school-house to be erected on the corner of Eastern avenue and Wilbraham Road. The structure will be of brick with brown stone trimmings, 80x150 feet, and contain twelve schoolrooms and four recitation rooms. Ventilating and heating apparatus will be put in.

At Circleville, Pickaway Co., Ohio, a memorial building will be erected, from plans prepared by H. C. Lindsay, of Zanesville, Ohio, to be 90x120 feet, pressed brick with stone trimmings and slate roof, electric lights, steam heat, wood mantels, marble wainscoting, office fixtures, opera chairs, iron stairways, gas fixtures, steam pipe covering, two boilers, inside blinds, fine plumbing, &c. To cost about \$25,000.

At Wausau, Marathon Co., Wis., a new Court House will be erected, to cost about \$45,000. The material will be brick and terra cotta with stone trimmings, iron shutters, steam heat, plate glass windows, tiling, slate roof, architectural iron work, &c. The plans have been drawn by H. C. Koch & Co., Milwaukee, Wis., and bids will be received at the office of the architects until Sept 9th.

At Lenoirs, Loudon Co., Tenn., J. M. Thornberg will erect a bank building, two stories and basement, pressed brick front, stone and terra cotta trimmings, hard wood interior finish, office fixtures, &c. The plans have been drawn by George O. Garnsay, 185 Dearborn street, Chicago, Ill., but the contracts will be let by the owner, J. M. Thornberg, of Lenoirs.

At New Haven, Conn., L. Candee & Co has purchased the land on East street, formerly occupied by the G. F. Warner Manufacturing Company. The buildings are being removed to

make room for an addition, 80x100 feet and 50x110 feet, to the rubber factory. About one million of brick will be used. The cost of the additions will be about \$50,000. Messrs. Smith, Sperry & Treat have the contract for the mason work.

At New York a scheme for tunneling the Narrows between Staten Island and Bay Ridge is the latest result of Erastus Winen's plans for the improvement of New York as a railroad and commercial center. The best line for the tunnel has been thought to be between a spot near Fort Wadsworth, about at the foot of Vanderbilt avenue, Staten Island, to Bay Ridge. The depth beneath would be about 35 feet, and the length of the tunnel about 1 3/4 miles, and cost about five million dollars.

At Chicago, Ill., McVickers Theatre, destroyed on August 26th, will be rebuilt as soon as possible. The loss was about \$125,000. A company, to be known as the Inter state Stockyards Company, has been incorporated, with a capital of \$1,000,000. The intention of the company is to establish slaughter houses and stock yards in the State of New Jersey, somewhere near the coast. Mr. Nelson Morris and his son Edward Morris are interested in the project. Mr. Morris is one of the largest packers at the Chicago stock yards, and is of the opinion that by establishing slaughter houses in New Jersey, he can kill cattle with as much profit as in Chicago.

At Detroit, Mich., the Russell House, on Woodward avenue, will be enlarged, from plans prepared by Messrs. Chittenden & McCreary; brick, with stone trimmings, electric lights, elevator, plate, stained, embossed and cathedral glass, open grates, tile work, steam heat, hard wood finish, mantels, fine plumbing, furniture, dumb waiters, inside blinds, &c. The cost is estimated at \$100,000. The Detroit Radiator Company will erect a large building, 50x100 feet, four stories, of brick, with stone trimmings, electric lights, skylights, engines, architectural iron work, &c. Scott, Kamper & Scott, 67 Moffatt building, are the architects. Cost, \$40,000.

At Denver, Colorado, Messrs. Miller & Janisch, Sixteenth and Curtis street, have prepared plans for the erection of a lodge, hall and store building at Broadway and Second avenue, for Fleming Bros., to be 50x100 feet, pressed brick with stone trimmings, tin roof, plate glass windows, steam heat, interior finish of Georgia pine, opera chairs, architectural iron work, &c. The estimated cost is \$20,000. A. E. Hull will erect a handsome two-story stone dwelling, 40x60 feet, to cost about \$25,000. Mr. Hull will also erect a stone residence on Race street, 40x50 feet, two stories, to cost \$32,000. E. Heiller will erect three dwellings and stores on Twenty-sixth street, at the corner of Arapahoe street. The estimated cost is \$20,000. T. L. Cathcart will erect a two-story brick dwelling on Lafayette street, between Twenty-first and Twenty second streets, to cost \$10,000. E. M. Martines will erect a two-story brick dwelling, to cost about \$9,000, at the corner of Race street and Fourteenth avenue. Mrs. Whitridge will erect a two-story double brick dwelling on Sixteenth avenue, between Clarkson and Washington streets, to cost about \$21,000. Mrs. A. E. Meek will erect a two-story brick dwelling, to cost about \$8,000.

The Messrs. Fitzgerald intend to enlarge their present plant, *The Item*, by annexing another building, in the rear, upon Jayne street, and making considerable alteration. They will also extend facilities for distribution and instal in their establishment an additional press of the latest and most approved pattern.

George W. Stewart, builder and contractor, has been awarded the contract to erect the new varnish factory, for Nassau & Kuhn, at Harrowgate, and noted in full in previous numbers of this journal. Edwin F. Bertollette, the architect, will supervise the erection and completion of the work.

The contract for erection of the Bank and office building to be erected at North Wales, Pa., has been awarded to Benj. Collom, of Germantown, by T. Frank Miller architect, 1221 Arch street, who drew the plans and will supervise the work of construction, noted fully in prior issues of this journal.

The Ambler Real Estate Improvement Co., has just sold to Mr. W. E. Burrell, on behalf of a syndicate, thirty-four fine building lots, at Ambler, Bucks, Co., Pa., for the purpose of erecting a number of fine suburban houses, it is said work will be started at once, upon the operation.

R. C. Ballinger & Co., Lucas Building, Chestnut and Juniper streets, have just been given the contract to erect the Hotel at Goshen, Va., for which Yarnall & Goforth architects, 14 S. Broad street, drew the plans and which have been fully noted in previous issues of this journal.

John J. Alter, son-in-law of Lewis Bergdoll, brewer, has just made the purchase of a large piece of ground on the south side of Herman street, between Thirtieth and Thirty-first streets, upon which he proposes to erect a number of neat houses, to be press brick, blue marble trimmings, and modern improvements. Work will begin at once.

The State Board of Charities has asked for an injunction to restrain the city from erecting the two wings, as proposed by the plans, for the care of the insane subjects at Blockley Almshouse, upon the grounds that they are contrary to law and the rules established. The Board particularly objects to a three-story structure and to the sanitary provisions.

Superintendent Whitcomb, of the Philada. & Reading R. R., is in negotiation with Mr. Geo. K. Klight, for two acres of ground, at Ambler station on line of the P. & R. R., for the purpose of building a structure to accommodate their fast increasing business at that point, as it is essential, there is little doubt of the purchase not being consummated.

It is proposed by Samuel Levis, real estate, 731 Walnut street, and others, to erect a large and handsome bachelor apartment house if the ground can be secured at a reasonable figure. Property on Sansom street, above Twelfth, has been looked at, but nothing definite has transpired to warrant a certainty. As yet no architect or builder has been engaged for the enterprise, which, at best, is in embryo.

A strong movement is being made by the residents and property owners on the line of Montgomery avenue, in the Twenty-ninth and Thirty-second Wards, to have that thoroughfare opened through to the limit of Fairmount Park, the street does not at present appear upon the City plan and is for the purpose of survey and dedication to the city, that this agitation was commenced.

Joseph Wilcox, the West Philadelphia builder, has made the purchase of additional ground for building purposes on Fortieth street, Elm and Girard avenues, in the immediate vicinity of his former operations. The ground is irregular in shape, but it is the intention of Mr. Wilcox to connect all by a series of fine houses, similar to the others already up, and fitted throughout with best of conveniences, the frontage of the ground on Elm avenue is about 600 feet.

John A. Stoddart, real estate agent, 925 Walnut street, has bought on behalf of the society supporting the House of Industry, the property at Island Road and Paschal avenue, known as the Bunting estate. It is proposed by the society to erect buildings, in addition to those already there, for the accommodation of the inmates, who are under the care of Michael Dunn, superintendent. The institution is for the reformation and assistance of ex convicts. The ground is 133 feet 6 inches on Island Road and 195 feet 9 inches on Paschal avenue.

John M. Anderson contractor, will erect the new addition to the mills of Ivens, Dietz & Magee, at Seventh and Lehigh avenue, for which plans were began some months since, by Geissenger & Hales architects, 102 S. Twelfth street, and of which we gave a full description at the time, these are quite extensive, including two buildings, one 55x183 feet, the other, 55x400 feet, extra provision in the way of light has been made, so as to give the best effect to shade and color, upon the finer fabrics in carpet weaving. New machinery will be placed and the plant fitted with the latest improvements.

Through Delaware.

At New Castle, New Castle Co., City Surveyor Kimmey will now lay out lines for the proposed new streets, in the northern part of that town.

At Seaford, Sussex Co., the I. O. O. F. have begun work on the erection of a building to contain lodge rooms and hall. The masonic fraternity contemplate the erection of a building for uses of the order. Mr. G. W. Emery can give information.

At Wilmington, ground has been broken by the Diamond State Iron Company for a new foundry in South Wilmington. The new structure will be of brick, 60x100 feet. The street and sewer directors have awarded the contract to John Jacoby for building the sewer on front street, from Monroe to Harrison streets, for about \$6,300. A petition was received from the Front and Union Street Railway Company asking to be allowed to use electricity as a motive power on its line, and to erect poles and string wires.

Through Maryland.

At Salisbury, Wicomico Co., Mr. Thomas Mitchell, contractor and builder, has been given the contract for the erection of a brick store 55 by 120 feet, two stories and basement, for Messrs B. L. Gillis & Son, wholesale grocers. Bicket & Cary have had plans made for a hotel 53x116 feet, to be of brick, three stories high, to contain forty rooms and all modern conveniences. The estimated cost is \$16,000.

At Baltimore, building permits have been issued as follows: To the Baltimore Butchers' Mutual Protective Association, three two-story brick dwellings; to the Society of Friends, to erect a one-story frame school house; to Samuel Philson Millison, to erect one two-story brick stable; to Julius A. Epply, to erect one three-story brick dwelling; to William Collett, to erect thirteen two-story brick dwellings; to James E. Murdock, Jr., to erect one two story dwelling; to John F. Bailey, to erect one three-story brick dwelling; to G. W. Parks, to erect

six two-story brick dwellings; to Henry Seim & Co. to enlarge factory in the rear of Leadenhill street; to George Werner, to erect three two story brick dwellings; to C. F. Richler, to erect six three-story brick dwellings; to William Briggs, to erect eight three-story brick dwellings. Application has been made to Mayor and Councils to condemn, widen and open Fayette street, between the west side of Calvert street and the east side of Liberty street. Edwin Bennett and others have incorporated the Patapsco Flint Mill Company, with the object of quarrying and grinding flint and spar. The committee of prominent citizens appointed a week ago to secure the earliest possible construction of a new Court House in the square bounded by Calvert, St. Paul, Lexington and Fayette streets, met a short time since and appointed a sub-committee to confer with the commission appointed by the recent ordinance of the Mayor and City Council for the improvement of the present Court House, with a view of obtaining a suspension of proceedings on the part of the commission until it shall be ascertained whether it would not be better to erect a new building to correspond with the handsome public buildings in the vicinity of the present Court House than to patch up the old building. The Mayor can give information as to the proposed bridge 2,000 feet long to be erected over Druid Lake, in Druid Hill Park.

Washington, D. C.

The amendments tacked on by the Senate to the House bill for the erection of a new light tower on Smith's Island, Va., are as follows:

plans for a row of frame dwellings to be erected on Twenty-second street, N. W. Mr. J. Hugle will erect at No. 167 F street, N. E., a store and dwelling to cost about \$6,000. W. S. James has the contract. Frank L. Hanney has the contract for building W. Cochran's new hotel at the north-east corner of K and Fourteenth streets, for \$131,000, and Edward L. Dent has the contract for furnishing heating appliances, at \$15,525.

Through New Jersey.

At Pleasantville, Atlantic Co., it is reported that the Baptist congregation will erect a church.

Hunterdon County Commissioners will expend about \$8,000 in repairing county bridges.

At Jersey City, work will soon be commenced on the construction of the sewers, to cost about \$200,000.

At Phillipsburg, Warren Co., Casper Laubach has been awarded the contract for building the new school house for \$20,000.

At Pitman's Grove, Gloucester Co., over sixty lots have been rented, upon which to erect cottages for next season.

At Asbury Park, Monmouth Co., Rev Geo. Clark has sold his two lots, on Fourth avenue, to Christian Brand, of N. Y. T. F. Appleby made the sale.

At Woodbury, Gloucester Co., Robert D. Hughes, who has purchased the Corson property on Delaware street, will make extensive improvements to the same.

At Cape May, Cape May Co., it is reported the Columbia burned tract will be improved by the erection of a new hotel, in which case the Oriole and Fryer Cottage properties would be taken in.

At Plainfield, Union Co., the congregation of Grace Episcopal Church will erect a handsome new edifice at West Seventh and Sycamore streets. Rev. E. M. Rodman is the rector in charge.

At Lake View, Passaic Co., there is considerable talk of erecting a large hotel, to be finished by next season. The site selected is on Pallisade Height, opposite the new resort of High Point, on Lake Marcie. The High Point Park Association can give information.

At Orange, Essex Co., the City Council will spend \$15,000 in deepening the shallow parts of the reservoir, taking out old stumps, and erecting a retaining wall. Other improvements are contemplated. Active steps are being taken for an improved system of sewerage.

The New York, Susquehanna and Western R. R. Co. purpose issuing \$3,000,000 of bonds. One million to be used in double tracking from Jersey City to Paterson; one million for paying off mortgages, etc., and one million for various improvements not yet definitely determined upon.

At Caldwell, Essex Co., the prospect of a railroad has increased materially the value of land. Robert J. S. White, of Montclair, Essex Co., and representing a syndicate of Philadelphia gentlemen, has purchased quite a number of farms near the town, which, it is said, will be improved in the near future.

At Hoboken, Wm. Utz will erect a dwelling, to cost about \$15,000, from plans prepared by Henry S. Ihnen, of New York City. The same architect has prepared plans for a frame dwelling, for William S. Friedlander, to be erected at Passaic, N. J.

At Gloucester, Camden Co., Mr. Frank Fath will erect eleven tenement dwellings on Water street. The Gloucester Land Company is negotiating with a Philadelphia brewer who wishes to purchase four acres of land on the west side of Broadway below the bridge over Newton creek, as a site on which to erect a large brewery.

At Atlantic City, the reported sale of the old Excursion House property, mentioned in our

issue of last week, has been confirmed. The property was formerly owned by the Camden and Atlantic Railroad Company, and is located at the ocean end of Missouri avenue. It has now been purchased by Maher & Co., of New York City, who represent a syndicate. The price paid was \$125,000. It is said that improvements on a large scale will be made before next season. The present proprietor is John M. Plum.

At Camden, R. R. Miller, insurance, and a number of Camden gentlemen, have purchased a farm, on Tuckahoe river, Atlantic Co., for gunning and fishing purposes. The present dwelling will be remodeled to suit it for club purposes. Other improvements will be made. The Light and Heating Company's plant will at once be enlarged. A 700-horse power engine will be put in. About 5000 incandescent and 300 arcs will be added. The company proposes extending the circuits for lighting the southern section of the city. The cost of the work will be about \$75,000.

At Newark, Essex Co., the following contracts have been awarded for work on Prudential Insurance Company's building: J. B. and J. M. Cornell, New York, iron work, \$275,000; Geo. W. Roydhouse, Philadelphia, mason work, \$269,900; Geo. Brown & Co., Newark, cut stone work, \$179,850; V. J. Hedden & Sons, Newark, carpenter work, \$111,000; Otis Bros. & Co., New York, elevator work, \$42,350; Baker, Smith & Co., New York, heating and ventilating, \$33,468; J. M. Bonnell & Son, roofing and metal work, \$27,350; Perth Amboy Terra-cotta Company, terra-cotta work, \$8,950. Contracts for minor work, amounting to about \$50,000, are yet to be awarded.

J. ELLIOTT SHAW & CO.,

53 No. 7th St., Phila.

—At Washington, Washington Co., Pickett Bros., will erect a ten-room frame dwelling from plans prepared by Architect T. H. Scott, 531 Wood street, Pittsburg; also, plans for an eight-room frame dwelling for Mrs. Hiram Swart.

—At Downingtown, Chester Co., at the annual meeting of the Downingtown Milk Association, held last week, and new officers elected. George Kerr is president and Henry Larkins vice-president, W. J. Pollock, Secretary. The question of erecting a cold storage warehouse was discussed, and it was decided to recommend the adoption of this course to the General Board representing Pennsylvania, Delaware, Maryland and New Jersey.

—At Erie, Erie Co., Messrs. Nicholson and Grant have purchased the square west of where the new seminary buildings will be erected. Grading has already been begun, and the ground will be prepared for the erection of dwellings. The recently organized Erie Real Estate and Title Company has purchased an entire square of ground near Cascade street, which will be cut upon into lots and put upon the market for building purposes. The Y. M. C. Association will erect a gymnasium.

—At West Chester, Chester Co., quite a large number of lots have been sold in the Roselyn, a suburb of West Chester. Several Philadelphia parties have purchased lots, and a number of purchasers are arranging to erect handsome dwellings this autumn or next spring. All of the lots are sold with the proviso that the buyer will erect a dwelling costing not less than a certain sum stated by the syndicate. Plummer Jefferis and J. Roney Williamson, of West Chester, are members of the syndicate.

—At McKeesport, Allegheny Co., it is reported that R. L. Riggs has purchased the property of Margaret Whigham, fronting 139 feet on Sinclair street, for \$50,000. Part of the property, it is said, has been offered to the congregation of the Baptist Society, upon which to erect a handsome new church edifice. Ground has been broken for the Boston Iron and Steel plant. The Baptist congregation will erect a new church. The Light and Power Company will erect a two-story brick 80x80 feet power house.

—At Penllyn, Montgomery Co., thirty acres of land have been purchased of Dr. Albanus Styer by John S. Buchanan, Dr. C. B. Hough, John T. Houghton and A. M. Walkup, of Ambler, Montgomery. The tract has been surveyed and will be divided into about two hundred building lots of various sizes. The tract is situated on the Blue Bell and Penllyn turnpike, near the station, and is surrounded by costly residences. After the lots are sold it is expected that by next spring a number of handsome residences will be erected.

—At West Chester, Chester Co., a company has been formed for the manufacture of brick, to be known as the West Chester Brick and Tile Company. Prof. Richard Darlington was elected chairman of the meeting and George B. Johnson secretary. The following were elected the Board of Directors: Robt. L. Hayes, Herbert P. Worth, John J. Parker, Edward S. Mendenhall, Richard S. Darlington, Thomas T. Smith, Walter H. Lewis, David J. Scott and Frederick W. Wollerton. It was resolved at the last meeting to purchase the necessary machinery at once, and to begin operations as soon as possible.

—The main building of the I. V. Williamson Free School of Mechanical Trades, near Elwyn, Delaware county, is being erected as rapidly as possible, and when finished will be a handsome structure. The material is native stone, quarried on the grounds, and the iron work is, and other materials are conveyed directly to the grounds on the tracks of the P. W. & B. railroad. In shape the main structure is like the letter T, three stories high, and 200x175 feet; the plans for the shop building, which will be of brick, two stories high, 30x100 feet. Besides this there will be a boiler, laundry, and dynamo house; also, a three-story stone residence will

be erected for the superintendent. All these buildings will be erected the present year, and will afford accommodations for about eighty pupils. Plans have also been prepared by the architects for a number of cottages to be erected upon the grounds, but work on them will not be commenced until after the opening of the school. The plans have been prepared by Funnell & Evans, 209 South Third street, Philadelphia.

—At Pittsburg, James W. Drake & Co. have sold a plot of ground in the west end, which will be cut up into about 30 lots by a local capitalist, who will erect a number of small dwellings to rent or sell on long easy payments. It is said that Mr. F. X. Woog, a former proprietor of the Monongahela House is one of a syndicate of local capitalists to erect a large hotel to cost about \$300,000, to be fire-proof, eight stories high, and to contain about 225 rooms. The proposed site is the block of ground bounded by Scrip, Cherry, and Relief alleys and Fifth avenue, and contains about 15,000 square feet. Mr. V. Lang will erect two brick three-story flats at the corner of Covington and Calwell streets at a cost of \$10,000. John Gamble will erect a block of six frame dwellings, from plans prepared by J. E. Obitz, architect, McCance Block. M. Oppenheimer will erect a nine-story brick building, 22x180 feet, on Penn avenue, the building will cost about \$50,000, and will be used for business purposes. Messrs. Huckestein & Co. have the contract. Charles Friebertshauser will erect a two-story dwelling, to cost \$8,000. Peter Hess has the contract for erecting a two-story and basement frame club house on Elliott street. Cost, \$5,000. Mrs. C. M. Morris and C. G. Cassell will erect a two-story frame dwelling, 29x45 feet on Sheridan avenue. Cost, about \$3,700. J. R. McGinley will erect a two-story and attic dwelling 83x65 feet, on Forbes street, to cost about \$30,000. W. A. Hoeveler will erect a four-story warehouse, 25x120 feet, on Pike street. Cost, \$14,000. Thomas O'Conner will erect two brick three-story stores and dwellings. John C. Knipp will erect a three-story frame dwelling. James Murphy will erect a two-story and attic brick dwelling, to cost about \$8,000. Architects Bickel & Brennan, Hamilton Building, have completed plans for two buildings, with brick and stone fronts, to be erected on Shady avenue for John Goff, Jr. James W. Drape & Co., have sold a plot of ground, which will be cut up into about thirty lots, and small dwellings erected thereon, to rent and sell.

WANAMAKER'S

Of course there are styles of head-wear that you don't care to buy, but we mean our Hat Store to have everything of the sort a man or boy needs for dress or for comfort.

The newest Heath Hats (London) are at hand. Every make that we are to have is here.

Knox's Derby and Silk Hats are as near the top as any. You never see that name in a mean Hat.

Best Philadelphia makes too. Jumble them all up and you might not hit the Heath or Knox at the first or second choice. When a certain point of Hat goodness is passed how many of you make up your minds after a look in the crown?

Silk Hats, \$4 to \$8.

Derby Hats, \$1.50 to \$5.

All the other things that help to comfortably and perfectly dress the man.

Recent Decisions.

IN RELATION TO MATTERS CONCERNING REAL ESTATE AND COMMERCIAL LAW.

Decided by the Supreme Court of Pennsylvania.

ACCRETIONS.—While, as a general rule, a grant of land bounded upon a navigable river extends to low water mark, subject to the right of the public for the purpose of navigation; yet, there are cases in which the intention of the parties may be otherwise, and it is a cardinal principle, in all cases, that a grant is to be construed according to that intention. The most beneficial enjoyment of land bordering on a river, and the accretions thereto being derived from their connection, a presumption always arises that a grant of fast land is intended to pass the accretions as well; but, this presumption of fact, may, like any other, be rebutted by proper and competent evidence of a contrary intention.—*Palmer vs. Farrell*, March 25, 1890.

ASSIGNMENT FOR CREDITORS.—An assignee for the benefit of creditors, is bound to deal with the trust property as a prudent man would deal with his son; and, where he makes a sale of the property by agreement of creditors, and without an order of court, at a price less than could be obtained for the same, a Court of Equity has jurisdiction to restrain him from making a conveyance of said property.—*Gleim vs. Mickey*, October 22, 1889.

BANKS.—The credits entered on the books of the bank, in favor of a depositor, is prima facie evidence of ownership, but the money deposited may be shown to be the property of a third person, may be reached by an attachment on the part of the judgment creditor, or its payment to the depositor may be stopped by proper notice to the bank on the part of said third person that the money belongs to him. However, in the absence of any claim by the real owner, the bank cannot dispute the right of its depositor, and is bound to honor his check.—*Hemp-hill vs. Yerkes*, February 11, 1890.

DEED.—The acknowledgment of the purchase money in the body of a deed and a receipt endorsed are not conclusive evidence of the payment of money, but only prima facie proof, and always open to explanation.—*Nichols vs. Nichols*, February 24, 1890.

HUSBAND AND WIFE.—A married woman, living apart from her husband, may maintain by her next friend an action of ejectment against him for real estate belonging to her, of which he has taken possession during the separation. If, however, the husband has acquired possession of the premises by residing thereon, with his wife, as their home, or if he takes possession of the same in pursuance of any arrangement made between them, that they shall reside upon the same as their home, no such action can be maintained.—*McKendry vs. McKendry*, October 28, 1889.

MORTGAGE.—A bond and a mortgage taken for the same debt are so far one security that payment of either discharges both; and a release or extinguishment of either, even without actual payment, is prima facie a discharge of the other. When, therefore, a case stated sets forth that the judgment upon which one of the parties bases his claim was obtained upon a bond which accompanied a mortgage, and it was further stated that said mortgage had been satisfied of record and no averment was made that it was the intention of the parties that the debt should remain, the legal presumption will arise that the satisfaction of the mortgage was an extinguishment of the judgment obtained on the bond, and no inference of fact will be drawn from the case stated to defeat the effect of this legal presumption.—*Seiple vs. Seiple*, March 10, 1890.

All above cases can be found in 24, W. N. C.

The largest single log of poplar ever cut in West Virginia was cut a few days ago in Logan. It measured 93 feet in length, 63 inches in diameter, 1,090 cubic feet and 21,125 feet board measure. This log alone is large enough to build a good-sized frame house. It will be run out for the Cincinnati market on the first water of sufficient size in the Guyan river.

Plans and specifications can be seen, and all information necessary, together with the requisite blank form for bidding, can only be obtained at the office of Messrs. Wilson Bros. & Co., engineers and architects, room 1036, Drexel Building, Philadelphia. No bid will be considered unless accompanied by a certificate from the City Solicitor, that the provisions of an ordinance (when the bid exceeds in amount five hundred dollars) approved May 25, 1880, have been complied with. Bidders must be skilled in the special work bid for. The Inspectors reserve the right to reject any or all bids at their option. Edmund Smith, president.

Proposals will be received at the office of the Supervising Architect, Treasury Department, Washington, D. C., on the 19th of September, 1890, for all the labor and materials required in the erection and completion of the United States Post Office Building, at Watertown, New York (heating apparatus not included), in accordance with the drawings and specification, copies of which may be had on application at this office, or the office of the Superintendent, at Watertown, New York. Each bid must be accompanied by a certified check for \$500. The Department will reject all bids received after the time herein stated for the opening of the same; also, bids which do not comply strictly with all the requirements of this invitation. Proposals must be enclosed in an envelope sealed and marked "Proposal for the erection and completion (excepting heating apparatus) of the U. S. Post Office Building, at Watertown, New York," and addressed to James H. Windrim, Supervising Architect.

Sealed proposals in duplicate, endorsed "Proposals for Pumping Plant," will be received at the Bureau of Yards and Docks, Navy Department, Washington, D. C., until 12 o'clock noon, on Wednesday, the 8th day of October, 1890, for furnishing, delivering and erecting the pumps, engines, boilers, suction and discharge pipes, and all attachments appertaining thereto, in working order, for the granite dry dock at the Navy Yard, Boston, Mass. There will be two main pumps, to have a mean discharge capacity of 10,000 gallons each, and the engines and boilers must be of sufficient power to perform the duty required by the pumps in the above discharge, with a pressure of not less than 80 pounds steam in the boiler. There will also be included one drainage pump of a capacity of not less than 2,000 gallons per minute, with the greatest lift. The bids must include the work of taking out the boilers, engines and pumps now in use, to be deposited as directed. The boilers, engines and pumps are to be located where the present apparatus now is. The cost of adapting the present wells to the new apparatus is to be included in the bids; also, any alterations in foundations necessary for the new plant. Plans and specifications must accompany the bids and be full and explicit in regard to all features of the new plant and all the work to be done. Plans of the dry dock and engine and boiler house can be seen at the Boston Navy Yard or this Bureau. The Bureau reserves the right to reject any or all bids. N. H. Farquhar.

A. W. Greeley, Chief Signal Officer War Department, Washington, D. C., wants proposals as follows, until September 20th, 1890: For furnishing the Signal Service the articles described in the following specifications: 50, more or less, field glasses, in aluminum or ordinary metal, of either Voigtlander or Lemaire make, each covered with black morocco leather and provided with a heavy black sole leather case and strap, stamped on inside of lid "U. S. Signal Service." The Voigtlander to be of the kind described on page 7, in the catalogue for January, 1886, of Voigtlander & Sohn, Brunswick, Germany, and known as number 59, with fixed shades. The Lemaire to be a 12 lens glass of not less than $5\frac{1}{2}$ power. A sample will be required with each bid for the Lemaire make. The words "U. S. Army" and "Field Glasses" to be engraved upon the two telescopic tubes, respectively. The office reserves the right to order glasses either in aluminum or ordinary metal. Bids are therefore desired accordingly. If imported, the glasses to be delivered in bond. Free entry to be obtained for the United States. Samples of the glasses can be seen at this office. Prices to hold good from date of award to June, and until September 15, 1890. For furnishing the Signal Service the articles described in the following specifications: For furnishing the office of the Chief Signal Officer, in the District of Columbia, with such second-hand professional books, to be selected from catalogues, as may be needed for stations of the Signal Service, during the fiscal year ending June 30, 1891. It is desired that the price may be quoted per franc, or per florin, per mark, or per shilling, as the case may be, separately, each for dutiable and for non-dutiable books, including the amount of the duty in the case of the former. It is to be understood that the Chief Signal Officer will secure free entry for dutiable books in such cases only as in his judgment would be in the interests of the United States, and such books will then come under the class of non-dutiable.

FOUND AT LAST.

It has been the perplexing study of Chemists for many years to discover a paint which on application would enter into the pores of wood and other material, dry quickly, become extremely hard and last for a number of years without blistering, cracking or peeling off and at the same time resist Fire and Dampness.

Such a Discovery having been made by W. D. ROBERTS, SR., and having been in use and under the severest trials for more than 12 years in which time it has deservedly gained a reputation which now excels that of all other paint.

It is made in all Colors and is suitable for all kinds of Painting.

PHILADELPHIA, WED'Y. SEPT. 10, 1890.

For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communications for publication may be left.

A REVIEW of the building operations of July and August, with a comparison of the same months of 1890, discloses the gratifying fact that the present season is considerably in advance of last year, and that the prediction of the REAL ESTATE RECORD that the slight falling off in the number of two and three story dwellings, noted in our report for the six months ending June 30, 1890, would be made up before the close of the present season, has been more than fulfilled. In July of 1889, 342 two story and 72 three story dwellings were erected, against which we place for July, 1890, 661 two story and 128 three story dwellings, showing an increase of 319 two story and 56 three story dwellings. In August of last year the erection of two story dwellings was unusually large, reaching 640; while for the same month of the present year only 561 two story dwellings were erected, showing a decrease in the erection of this class of buildings of 79, which deficiency is more than covered by the general increase of operations of various kinds. In summarizing for the two months in each year, it is found that the total number of operations in July, 1889, reached 645, while the same period of 1890 shows 1,045, an increase of 400 operations. For August of 1889, 1,091 operations were reported, against which we place 1,112 operations for the same month of the present year, making an increase of 21 operations, or a total increase of 421 operations for the two months of 1890. Taking into consideration the difficulty of obtaining the necessary public improvements, such as sewers, water mains and street paving, in the new districts,

the number of buildings thus far erected, and the general activity of the summer season, speak volumes for the men who have pushed their work in spite of the many impediments thrown in their way by the failure of the city to keep pace with the urgent needs of improvement.

Architect's Notes.

Theophilus P. Chandler, Jr., architect, Brown's Building, 4th and Chestnut streets, has on the boards plans for a grand hotel to be erected at Glen Echo, near Washington, D. C., and will cost about \$240,000 when finished.

Moses, King & Ferris architects and engineers, 226 Walnut street, have completed plans for a large hotel to be erected at Arch and Federal streets, Camden, N. J. The plans contemplate a fine structure, and it will be erected on the day labor principle.

Horace Traumbaur architect, of Jenkintown, Pa., has been ordered to prepare plans for a large hosiery mill to be built at Oreland, adjoining Jenkintown. It will be erected by C. & G. Sasman, and will be pushed forward as soon as possible.

Minerva Parker architect, 14 South Broad street, is engaged on plans for a fine little suburban house at Oak Lane Station, N. P. R. R., of which she will be the owner. To be stone and pebbled ash, two story, inside, hard wood finish, wood mantels, and all accommodations modern.

Geissinger & Hales architects, 201 South 12th street, have completed the plans for factory of F. A. Bochman, at 2d and Somerset streets, and bids are being asked for the construction. It will be a textile factory three stories high and fitted throughout with best and latest improvements in machinery, etc.

Architect J. F. Steller, of Middleburg, Snyder Co., Pa., reports plans for the erection of a tower 75 feet high, for a Catholic church at Lewistown, Mifflin Co., Pa.; estimated cost, \$1,500. The

architect will want stone foundation trimmings, stained cathedral glass, hard wood, oak, spiral stairs, bells; also wants prices on pressed and ornamental brick, delivered at Lewistown, Pa.

J. A. Oakley, Jr., architect, 1201 East Broad street, Elizabeth, N. J., has just finished plans for a cottage to cost \$3,000, for Mr. Isaac N. Faulks of that city, to be frame and have modern improvements. Also plans for the remodeling a frame building for Mr. F. R. West of the same city, and the remodeling of a frame dwelling for Mr. Frank Herbst, at Fanwood, N. J.

J. A. & W. T. Wilson architects, 5 East Lexington street, Baltimore, Md., have made plans for a house for Mr. Thomas W. Hall at Ruxton, Md., to be stone and frame. Cost about \$6,000. Contract awarded to Jno. T. Marshall, Jr. Same architects have drawn the plans for frame residence and stable at Ruxton for Mr. R. C. Hoffman of that place, and cost about \$14,000.

James H. Windrim, U. S. Government architect, has drawn plans for the new post-office to be erected at Waterton, N. Y. Estimates will be offered until the 19th inst., when contracts will be awarded. Estimates are also being made on the two new officers quarters to be erected at the military station at West Point, N. Y., and this contract will be awarded about the 15th of September.

Will H. Decker architect, 1407 1/2 Chestnut street, has drawn the plans for a parish house for the Church of the Advent, P. E., to be erected on the lot next to the church, 507 York street. It will be a three story stone and brick structure; the basement will be a bowling alley, first story a club room and third floor used as an assembly room; interior, wood mantels, electric work, tile work, and all modern conveniences introduced.

Thomas P. Lonsdale architect, American Life Building, southeast corner 4th and Walnut streets, has made plans for erection of a new Methodist Episcopal Church at Wayne, Delaware county, Pa., to be one story high, stone, slate roof, tower in front with peaked roof towers, steam heat taken from pipes in street, lighted by electricity and finished in hard wood and furnished with good substantial church furniture, etc.

Hazelhurst & Huckel architects, 410 Walnut street, has made elaborate plans for alteration and addition to the house of Mr. William Wood, northeast corner 23d and Green streets. The front base is to be of cut stone and brick, inside to be coated with plaster of Paris, roof of Chapman black slate, gutters and cornice of copper, tin roofing for piazza and bay windows; main stairway to be very ornate and grand; electric work, steam heat, tiling and mantels and plumbing are to be separately bid for. All modern conveniences to be introduced.

A. W. Leh architect, 214 Second street, South Bethlehem, Pa., has finished plans for a handsome residence for W. E. Cox, Esq., South Bethlehem, Pa., to be 32x68 feet, of brick and shingle, hardwood finish and steam heat. Also engaged on plans for a residence to be erected at Lehigh, Pa., for L. S. Lentz, Esq., to be 39x56 feet, frame and shingle, to have all modern conveniences and steam heat, also finished plans for a cottage for Mrs. Baker, with all mo-

dern conveniences, heat with hot air; also plans for a handsome chapel for Ashbury M. E. Congregation, South Bethlehem, Pa.; also finished plans for a spire for the Reformed Church, Heltown, Pa.

Harrison Albright architect, 508 Walnut street, has just purchased three fine lots at 63d and Malvern avenue, upon which he intends to build a handsome residence, and on the plans for which he is engaged. The sale was conducted by the Overbrook Land Company, who will also build several fine houses in this vicinity. The stone for all of the above is native to the ground and will be used in their construction. The style of architecture produced from Mr. Albright's pencil is very unique and entirely original in conception. In connection with the above, the Overbrook Land Company propose at an early day to erect a fine hotel at Shady Nook, the purpose being to accommodate permanent boarders, and for which their land and surroundings are peculiarly adapted.

S. Gifford Slocum architect, 902 Walnut street, also having offices in New York City, has made plans for three modern cottages to be erected at Haverford College, to be of brick and stone, for the faculty of the college. Also a stable for Mr. Gideon Stoddard, at Benezet Station, to cost about \$7,000, together with a residence for the same of very ornate and unique design, the latter will cost about \$25,000, being fitted with all modern comforts and conveniences. Also a very fine residence at Orange, N. J., for Mrs. Harris, to be of stone with all conveniences, and one for Mr. McEckrou at Glenn Falls, N. Y., of stone; it will be of English Gothic architecture and will cost \$20,000. Also plans for a club house, 60x110 feet, to be erected at Lake George, N. Y., for a combination of Philadelphia and New York gentlemen.

J. B. McElpatrick & Sons architects, 23 East 14th Street, New York City, are engaged upon plans for a new theatre to be erected in Philadelphia, at Marshall street and Girard avenue, upon the site of the old "Palm Garden." Articles of incorporation for the company having the matter in charge have been applied for by their solicitors, Messrs. Shattuck & Colesberry. The house will have a front of 40 feet on the avenue and about 100 feet in depth, and will seat about 1600 people. The names mentioned most prominent in the movement are G. A. Muller, brewer, Charles Mahler, 625 Girard avenue, Frank M. Wirgman, attorney-at-law, 58 South 3d street, and others well known in business circles. It is said to be the intention of this syndicate to purchase and improve other properties in this city as a matter of investment and business.

Building and Real Estate Notes.

The firm of Shoneman Bros., 116 North Eighth street, are about to make some alterations to interior of their establishment.

Charles D. Hill will erect at once eighteen dwellings on Herman street, west of Thirtieth street, of press brick, stone facings, and best of modern conveniences.

The Keystone Watch Company are about to build an addition to their present plant of a melting house, to be in rear of the main building, which is at Nineteenth and Brown streets.

Wm. F. Albrecht builder, will soon begin the operation of seventeen two-story stone houses on Lewiston street, east of Righter. These will be unique in fittings and embellishments, and have modern conveniences.

Stewart & Bros., contractors, have broken ground for an electric light station to be located on Hope street, above Susquehanna avenue. It will be fitted with engines, boilers, dynamos and general machinery.

Leonard & Guenther builders, have broken ground for a lot of two-story houses at Front and McKean streets, First Ward, to be press brick, stone facings, and neatly fitted on the interior with modern improvements.

The School Committee, City Councils, have resolved to ask that body, by ordinance, for the sum of \$1,500, for repairs to boilers and machinery at the Manual Training School, and it is likely to be granted at once, as it is badly needed.

The contract for erection of the Tradesman's Warehouse and Storage Company has been given to Thomas Little & Sons, contractors. It will be built at Twenty-third and Race streets, and has been noted in a previous number of this journal.

Henry Trautwine, builder, has begun work on an operation of about one hundred, two and three-story houses upon the site known as the "Vodges estate," at Fortieth and Preston streets, West Philadelphia. These are of brick, with stone trimmings, and fitted with all modern conveniences.

Contractor Thomas Bryan, is about to commence the work of erecting the large store and factory building of the Luburg Manufacturing Company, heretofore noted in this journal, on east side of Eighth street, above Wood. The building will be one of the finest in appointments in this city, being six stories high and very ornamental in architectural design.

The Philadelphia and Reading R. R. Company are now grading their property from Pulaski avenue to the tracks of the Germantown and Chestnut Hill branch at Wayne Junction, for the purpose of erecting two large and substantial buildings, one a repair shop, the other a blacksmith's structure. The former will be 75x275, while the latter will be 30x60 feet. These buildings will be one story in height, and fitted with improved machinery.

Some time since, W. T. B. Roberts, builder and real estate operator, purchased the old site of Rising Sun Park, for the purpose of building quite a large operation of two and three story houses. Mr. Roberts proposes to now proceed with his original idea, if proper accommodations can be had in the way of gas and water mains, and erect from 800 to 1000 houses of various kinds, fitted with all comforts and modern conveniences. Mr. Roberts is the president of the Operative Builders' Association at present.

The Pennsylvania Railroad Architects and Engineers have completed plans and specifications for an office building for the use of the company at Jersey City, N. J., and to be located near the ferries at that place, which is the terminal of the road. The plans contemplate a main structure five stories high, with an annex three stories, brown stone base, brick and terra cotta ornamentation, the roof to be of tin. Inside elevators will be placed, and electric work and steam heat introduced, as well all modern conveniences. It is indefinite when work will be commenced on the structure.

The Midvale Steel Company, at Nicetown, Charles J. Harrah, Jr., president, are about to enlarge their plant by erection of a large additional building for casting steel. It will be 135x285 feet in size, one story high. The roof will be a trussed one, with iron girders resting on stone pillars. Foundations to be of Consohocken stone, laid in cement. Twelve piers will extend to the roof, which will support the tramways for large travelling cranes. The structure will be of iron, with slight exceptions, such as window frames, lining, etc. The roof and outer wall's will be sheathed with corrugated sheet iron.

The historical ground and buildings, once known as the Cooper Shop Refreshment Saloon, at Washington avenue and Swanson streets, and extending back to Otsego street, is about to be occupied by the Pennsylvania Railroad, on which they will erect an immense roundhouse, for the storage and repair of engines. The Architectural Corps, under Chief Architect W. A. Felpaugh, has prepared plans and specifications, and the work of removing the old tenements, Cooper Shop, has begun. It will occupy the entire block above-named, and connect by track with the great storage yard at the once famous U. S. Navy Yard.

In an interview with a majority of the parties interested in the properties destroyed by the fire on Friday evening, the 5th inst., at Eighteenth and Market streets, we find it is their intention to at once rebuild and repair the damage done as soon as insurance affairs have been settled. Many of the houses in the vicinity are only slightly injured, and these will undergo repair at once. Mr. Richard Dobbins also will rebuild the damaged section of Industrial Hall, on Broad above Vine street, which was burned on the 6th inst. As to other owners of large buildings adjoining Mr. Dobbins' property, they are as yet undecided what they will do at present.

A fine restaurant will be erected next spring. Captain Frank Geise, Captain W. H. Lanius, Mr. A. B. Farquhar, and others are interested in the improvements. The Fire Committee has authorized the purchase of a hose carriage, to cost about \$475. A. M. Spangler is chairman of the committee.

—At McKeesport, Allegheny Co., the piers for the Duquesne and McKeesport bridge will soon be ready for the iron work. The Pennsylvania R. R. bridge is progressing nicely also. A syndicate has purchased the farm of John Michaels, which is near the pike between Varsailles township and Murrysburg, and on the oil and gas belt. The purchasers will drill for oil. The P. R. R. Co. has not fully decided which route it will take to reach the central part of the city. The company will have to expend many thousands of dollars in the purchase of real estate for the line.

—At Norristown, Montgomery Co., a representative of the Edison-Sprague electric system has been before the directors of the Citizens' Passenger Railway Company to advocate their method to propel street cars. The cost for such improvement to the road would be over \$40,000. It is reported that President Smith favors the request from a number of citizens, and now in the hands of City Council; asking for the erection of a new market house on the site occupied by the present structure. Sheriff Rorer will sell several Norristown properties at the Court House, on Sept. 24th.

—At Pottstown, Montgomery Co., Borough Engineer Ralph E. Shaner has prepared plans for a row of three-story brick dwellings to be erected on Beech street opposite Johnson street. Mr. L. Higgins has commenced work on a three-story brick dwelling to be erected on the corner of Franklin and South streets. The Commissioners of Chester and Montgomery Counties and the officials of the P. S. V. R. R. Company were at that place on the 5th inst., as the railroad company wishes to buy the tool house and a strip of land belonging to the counties, as purchased with the bridge. It is thought a sale will be made.

—At Pittsburg, Messrs. Riter & Conley have the contract to erect the freight depot, for the B & O. R. R. Company. Messrs. Rose and Fisher have the contract to erect the Westminster Presbyterian Church. F. J. Osterling, Hussey Building, Fifth avenue, made the plans. The structure will cost about \$30,000. The same architect has made plans for a stone residence for Mrs. Louis Frank, to be erected on Mt. Washington. The most important permits issued to date are as follows: The Duquesne Theatre, four-story, brick, 74x112 feet, to be erected on Penn avenue, cost about \$40,000; Philip J. Wagner, Jr., two-story and attic brick dwelling,

FOR TWENTY YEARS EHRET'S Slag-Stone Composition ROOFING,

has stood the severest tests and in no case has it ever failed.

It is Fire Proof, as well as Damp and Moisture proof. It never expands or contracts; it is not affected by Steam, Acids, Gasses, Vapors or other injurious influences, that would render a metal roof perfectly useless in a few weeks. It is air-tight and is not affected by atmospheric influences of any kind; it is durable and reliable in winter and summer, and positively requires no care or attention whatever. It will out-last the BUILDING and for Factories, Chemical Works, Boiler and Engine-houses, Depots, Factories, Mills and Warehouses, it is without an equal. It costs less than tin or slate requires no painting, can be walked on without injury and must not be considered in the same light and prejudice usually bestowed upon what are known as Tar Roofs.

BEWARE OF IMITATIONS, for the durability of our Roofing is not only owing to our great care in laying on a roof; but also in the scientific preparation of the Material we use. Circulars and testimonials sent upon application.

cost \$6,000; J. L. Davidson, two story and attic frame dwelling, cost \$5,000; George H. Dauler, seven-story brick business building, 40x110 feet, to be erected on Smithfield street, cost \$48,000. It is reported that the Peckham Car Wheel Company, of New York, will erect a plant near Pittsburg, at a cost of about \$100,000. It will furnish employment to about one thousand men. The works are now located at Kingston, on the Hudson river.

Globe Tubular Street Lamp. Burns Head Light Oil without a chimney. The wick is 1½ in. wide. Holds sufficient oil to burn twenty hours. Can be set when lighted to burn a certain number of hours. It endures the roughest winds. Is but little more care than a gas street lamp, and will give a better light.

We propose to light a medium size dwelling complete, for \$26.00, as follows:

Parlor—3 Light Extension Gold Bronze Chandelier, - - -	\$11.00
Hall—Gold Bronze Hall Lamp, - - -	3.75
Dining Room—Plain Gold Bronze Library Lamp, - - -	2.50
Library—Gold Bronze Library Lamp, with Prisms, - - -	4.00
Kitchen—French Bronze Bracket, with Reflector, - - -	1.25
Front Bed Room—Gold Bronze Bracket, - - -	2.50
Back Bed Room—Universal Side Lamp, - - -	50
Bath Room—Universal Side Lamp, - - -	50
	\$26.00

If you desire something different we can accommodate you, as we carry a complete line of **EVERYTHING** pertaining to the lamp trade, from the **CHEAPEST** to the most **EXPENSIVE**.

If your ceiling is **LOW** we have lamps especially adapted for them, with **AUTOMATIC SPRING EXTENSION**. When writing to us for fixtures, please give dimensions of rooms and height of ceiling.

\$5.00

INVESTED in a yearly subscription to this journal, if carefully read, and you are not too lazy to see the man who's going to build, will certainly prove the best investment you ever made in your life. Thousands of dollars in profit have been made by those who caught on to this idea years ago. Your economy that prompted the saving of five dollars per year by refusing to subscribe, has cost you many a cool hundred. Get aboard now Brother, while the fruit is ripening and the "lucky fellows" are reaching out far and wide for trade, while you are sorrowing because it don't come your way.

WANAMAKER'S

Of course there are styles of head-wear that you don't care to buy, but we mean our Hat Store to have everything of the sort a man or boy needs for dress or for comfort.

The newest Heath Hats (London) are at hand. Every make that we are to have is here.

Knox's Derby and Silk Hats are as near the top as any. You never see that name in a mean Hat.

Best Philadelphia makes too. Jumble them all up and you might not hit the Heath or Knox at the first or second choice. When a certain point of Hat goodness is passed how many of you make up your minds after a look in the crown?

Silk Hats, \$4 to \$8.

Derby Hats, \$1.50 to \$5.

All the other things that help to comfortably and perfectly dress the man.

Miscellaneous.

At Sioux City, Iowa, the contract has been awarded to W. E. Stevens for erection of the St. Joseph's Hospital.

At New Britain, Hartford Co., Conn., Architect F. D. Moore has completed plans for a two-story addition, of brick, 60x40 feet, for the Rockwell School building, on South Main street.

At Charltonville, Albermarle Co., Va., the residence of F. B. Moran will be reconstructed in French renaissance style of architecture. O. Van Nerta, of No. 1215 F street, N. W., Washington, D. C., steam heat, gas, water and sanitary sewerage will be introduced. The improvement will cost about \$15,000.

At Chicago, Ill., a plan is on foot to tear down the old First Regiment Armory, on Jackson street, between Wabash and Michigan avenues, and to erect on the site a theatre, modeled after the memorial theatre of Shakespeare, at Stratford-on-Avon. Manager McVicker has given orders to at once commence the rebuilding of McVicker's Theatre, recently destroyed by fire.

At Pittsfield, Berkshire Co., Mass., a brick addition, three stories high and one hundred feet square, will be erected to the Academy of Music building, at a cost of \$20,000. Mr. Quackenbush is the owner. Mr. Hascal Dodge has the contract for building the electric light station at a cost of \$30,000; also, contract to erect Gimlick and White's new brewery.

At Lima, Allen Co., Ohio, C. H. Miller, architect, has made plans for store and flats, for C. F. Douzes; common and pressed brick and stone, galvanized iron cornices, tin and slate roof, stained glass, iron beams, columns, and stone fronts, cost about \$12,000. The same architect has prepared plans for a dwelling for J. H. Woods, cashier of the Ohio National Bank; also, plans for J. M. Beard's dwelling, to be erected at Spencerville, O.

At Maniston Springs, La Paso Co., Col., Mr. Frank Howbert, clerk of the County Court at Colorado Springs, Colorado, has donated ten acres of ground near the "Garden of the Gods," at Maniston Springs, as a site upon which to erect suitable buildings to be used as a home for invalid ministers of the Lutheran Church. Rev. Dr. A. R. Howbert, of Colorado Springs, an uncle of Mr. Frank Howbert, the donor, is interested in the project. It is said the buildings will be very handsome, and the home munificently endowed.

At Hartford, Conn., Messrs. Cook, Haygood & Co., the architects for the new High street school building, have received also the contract to erect the same for \$69,300. The plans by the same architects have been accepted for the new Northwest School District building, the cost of which will be about \$16,000. The building will be 64x55 feet, iron stairways, and steam heat will be used. The structure will be as nearly fire-proof as possible. At Meriden, New Haven Co., Conn., Fred. De Buyster will erect a residence, on Cook avenue, from plans prepared by Architect D. Bloomfield. The same architect has made plans for two tenement houses for Charles Deetmer.

At Hamilton, Butler Co., Ohio, architects Benner Brothers have prepared plans for a moulding shop and foundry for Long & Allstatter, to be erected on the corner of Fifth and High streets, 50x70 feet, common brick, cement and fire-proofing, stone trimmings.

At Fort Royal, Warren Co., Va., a syndicate headed by Captain C. A. McAtee, of that place, has been formed and will erect a three-story brick hotel, 60x100 feet, to cost about \$25,000. The structure will have slate roof, tower, topped bay windows, and fine wide verandas. The plans have been prepared by T. F. Schneider, architect, No. 933 F street, N. W., Washington, D. C. The same architect has prepared plans for a three-story store and office building, 60x80 feet, to be erected opposite the hotel at a cost of \$15,000, which is also an improvement belonging to the same syndicate.

At New York City, work has been commenced on the new viaduct from 155th street and St. Nicholas avenue to Seventh avenue, at Macomb's Dam Bridge. It will be of iron, one thousand five hundred feet long. The roadway will be sixty feet wide, with walks on each side. The cost of the structure will be about six hundred thousand dollars. A movement is on foot to extend Sixth avenue from Carmine street to West Broadway, and the following streets will be used if the plan is carried out: All of Congress street; McDougal street, between Charlton and Spring; Clarke street, from Spring to Broome; Sullivan street, from Broome to Canal; St. John's lane, from Laight to Beach street. The plan will require the purchase of sixty-five lots, at a cost to the city of about \$1,040,000. Aqueduct Commissioners have opened six bids for building dam D, on the Croton river, near Carmel, with a smaller auxiliary dam near Craft's station. The average of the bids for the large dam was about \$400,000, and about \$85,000 for the small dam. The bids were referred to the engineers in charge.

Sealed proposals in duplicate, endorsed "Proposals for Pumping Plant," will be received at the Bureau of Yards and Docks, Navy Department, Washington, D. C., until 12 o'clock noon, on Wednesday, the 8th day of October, 1890, for furnishing, delivering and erecting the pumps, engines, boilers suction and discharge pipes, and all attachments appertaining thereto, in working order, for the granite dry dock at the Navy Yard, Boston, Mass. There will be two main pumps, to have a mean discharge capacity of 10,000 gallons each, and the engines and boilers must be of sufficient power to perform the duty required by the pumps in the above discharge, with a pressure of not less than 80 pounds steam in the boiler. There will also be included one drainage pump of a capacity of not less than 2,000 gallons per minute, with the greatest lift. The bids must include the work of taking out the boilers, engines and pumps now in use, to be deposited as directed. The boilers, engines and pumps are to be located where the present apparatus now is. The cost of adapting the present wells to the new apparatus is to be included in the bids; also, any alterations in foundations necessary for the new plant. Plans and specifications must accompany the bids and be full and explicit in regard to all features of the new plant and all the work to be done. Plans of the dry dock and engine and boiler house can be seen at the Boston Navy Yard or this Bureau. The Bureau reserves the right to reject any or all bids. N. H. Farquhar.

A. W. Greeley, Chief Signal Officer War Department, Washington, D. C., wants proposals as follows, until September 20, 1890: For furnishing the Signal Service the articles described in the following specifications: 50, more or less, field glasses, in aluminum or ordinary metal, of either Voigtlander or Lemaire make, each covered with black morocco leather and provided with a heavy black sole leather case and strap, stamped on inside of lid "U. S. Signal Service." The Voigtlander to be of the kind described on page 7, in the catalogue for January, 1886, of Voigtlander & Sohn, Brunswick, Germany, and known as number 59, with fixed shades. The Lemaire to be a 12 lens glass of not less than 5 1/2 power. A sample will be required with each bid for the Lemaire make. The words "U. S. Army" and "Field Glasses" to be engraved upon the two telescopic tubes, respectively. The office reserves the right to order glasses either in aluminum or ordinary metal. Bids are therefore desired accordingly. If imported, the glasses to be delivered in bond. Free entry to be obtained for the United States. Samples of the glasses can be seen at this office. Prices to hold good from date of award to June, and until September 15, 1890. For furnishing the Signal Service the articles described in the following specifications: For furnishing the office of the Chief Signal Officer, in the District of Columbia, with such second-hand professional books, to be selected from catalogues, as may be needed for stations of the Signal Service, during the fiscal year ending June 30, 1891. It is desired that the price may be quoted per franc, or per florin, per mark, or per shilling, as the case may be, separately, each for dutiable and for non-dutiable books, including the amount of the duty in the case of the former. It is to be understood that the Chief Signal Officer will secure free entry for dutiable books in such cases only as in his judgment would be in the interests of the United States, and such books will then come under the class of non-dutiable.

FOUND AT LAST.

It has been the perplexing study of Chemists for many years to discover a paint which on application would enter into the pores of wood and other material, dry quickly, become extremely hard and last for a number of years without blistering, cracking or peeling off and at the same time resist Fire and Dampness.

Such a Discovery having been made by W. D. ROBERTS, SR., and having been in use and under the severest trials for more than 12 years in which time it has deservedly gained a reputation which now excels that of all other paint.

It is made in all Colors and is suitable for all kinds of Painting.

OPINIONS OF THE PRESS.

[From the Northwestern Architect.]

MINNEAPOLIS, MINN.

"As is compatible with this progressive period, even wall plaster has succumbed to inventive genius, and 'the day is nearly done' when our handsomely decorated walls and ceilings shall be ruined by reason of the utter unreliability of the old style mortar. To meet this demand for a non-porous plaster, Adamant has appeared on the market, and is now being manufactured in nearly every State in the Union."

[From the Scientific American.]

"Some of the advantages Adamant possesses above the other plaster is the extreme hardness of the wall. It will neither crack nor crumble. It is a strong support to a building. It does not swell timbers by an absorption of the moisture, as the material itself absorbs most of it. It dries so quickly after it is applied to the wall, that in a few hours frost will have no effect on it. We are convinced that this Adamant is destined to revolutionize the business of house plastering."

[From the Baltimore Commercial.]

"Adamant makes a wall as hard as marble, at a slight cost."

[From the Leader and Herald.]

CLEVELAND, O., March 22, 1889.

"The problem has been to provide a substitute that would not only produce a perfect wall, but be comparatively cheap and easily applied as well. Repeated tests, under the most exacting conditions, clearly prove that such a happy combination has at last been secured in the plastering material called 'Adamant,' now being so extensively introduced in this city."

[From the Builder, Decorator and Wood-Worker.]

PHILADELPHIA, PA.

"Nothing in house building has so long withstood the 'march of improvement,' notwithstanding it has failed to give a substantial wall, while many houses become defaced and old in a few months on account of broken walls and ceilings. 'Adamant' obviates all this, and is the coming wall plaster."

[From the New York Commercial News.]

"There is not the least doubt about 'Adamant' wall plaster will last as long as the building upon which it is used."

PHILADELPHIA, WED'Y. SEPT. 17, 1890.

For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communications for publication may be left.

THE progress of the Trades School, recently opened by the Master Builders' Exchange, of this city, will be watched with more than ordinary interest. It is under the care of practical men, who, having served apprenticeships and ripened under the pressure of necessity, have wrought out what business success they have attained by and through the merit of their own capabilities. Such men are certainly qualified to guide and direct a school of this nature, where practice in practical things makes the road to wage-earnings easy. The aim of trade schools, as we comprehend their meaning is to mould American youth into thrifty and capable American mechanics; having, also, as an ultimate aim, the annual multiplication of their products, until the term reaches its old time significance. The work of turning out these young American mechanics cannot be pushed too vigorously, for, until their influence is felt, there will be small hopes of witnessing labor day and other labor demonstrations without the red symbol of anarchy borne by a lot of jabbering idiots, who are not Americans either in sentiment nor sympathy.

Increase of Wealth in the United States.

The rapid increase of wealth, business and prosperity of the United States during the past ten years, says the Boston *Manufacturers' Gazette*, is simply marvelous. According to the published figures, the total wealth of the country is now \$71,459,000,000, equal to nearly \$1,000 per capita. This is an increase in ten years of \$18,000,000,000, or 42 per cent. England's wealth in 1885 is given at \$50,000,000,000. The average of wealth per head in England is \$1,545, in Scotland \$1,215, in Ireland but \$565. The total

wealth of France is estimated at 36,000,000,000. England exacts in taxes \$20 per head of population, while each individual in the United States pays but \$12.50. America will produce 7,000,000 tons of iron this year, while England's greatest production is \$8,600,000 tons.

Architects Notes.

P. A. Welsh, architect, 429 Walnut street, Philadelphia, reports himself as very busy on a number of fine plans, and desires to secure the services of one or two fine draughtsmen at once. See column of Wants.

L. S. Jacoby, architect, Allentown, Pa., is engaged on plans for two six-roomed school houses to be built at the above-named place, to be brick and stone, heated and ventilated by the Smead Wills & Company process.

Wilson Bros., architects and engineers, Drexel building, Philadelphia, drew the plans for the addition to the Convalescent Home at Devon, Pa., and will have entire charge of erection of the structure, which will be very complete in matters of detail.

A. L. Hartwell, architect, Long Branch, N. J., has on boards plans for a fine two-story school house to be erected at that place, to be of brick with stone base, and fitted with all modern improvements, inclusive of the Smead, Wills & Company system of heating and ventilation.

J. F. Stuckert, architect, 524 Walnut street, Philadelphia, who drew the plans for the German Reformed Church, to be erected at south-east corner of Ward and Wharton streets, and previously noted in this journal, has awarded the contract for the erection of the same to Charles Auchter, contractor, and work will start at once.

Charles Palmer, architect, 1804 Palmer street, Philadelphia, has finished plans for an addition to the house at northeast corner of Germantown avenue and Berks street, owned by James Ritchie. The proposed addition will make it one of the largest business places up town. It will then be a five story structure and 53x62 feet in size, and will have all modern improvements and conveniences, electric work, etc.

Geo. T. Pearson, architect, 427 Walnut street, Philadelphia, has made plans for an academy building to be erected at Darlington, Md., to be frame and designed in true Colonial style of architecture, exterior to be painted in white, to have a belfry, heated by hot air, and good sanitary fittings. The same architect has charge of the interior decoration of St. John's Protestant Episcopal Church at Germantown.

Willis G. Hale, architect, 1524-6 Chestnut street, Philadelphia, is engaged on plans for the erection of an additional building to the Jewish Foster House, located at Mill and Chew streets, Germantown. At present, minor details and matters in general are in such shape that a definite description cannot be given of the building. Mr. Mason Hirsh, 1421 North Fifteenth street, is chairman of the building committee.

Samuel Milligan, architect, 708 Chestnut street, Philadelphia, has made plans for a handsome residence for James Mooney, Esq., at Broadaxe, Montgomery Co., Pa., to be stone and shingle work, three stories high, porches and verandas extending around exterior, while the interior will be finished in hardwood, to have electric bells and all modern conveniences. Estimates are being received.

Jno. H. Duncan, architect, 237 Broadway, New York city, has submitted plans for a tomb and monument to the committee having in charge the matter of erecting such a structure over the remains of the late President U. S. Grant, and they have been accepted by these gentlemen. They are very elaborate, and form a combination of a monument and a mausoleum, with general accommodation for the entrance and exit of those who, in the future, will visit the hero's grave.

John Blakeley & Sons, railroad supplies, have bought a piece of ground on Germantown avenue below Second street, on which they will erect a large storage warehouse in connection with the factory on Sophia street. There will be two wings erected, one of which will be three stories, the other four, and these will be fitted with freight elevators and electric work throughout, as well as with all modern conveniences.

The Penna. Railroad authorities are about to erect a fine station at St. David's station, on the main line, and the contract has been given to William H. Burns, of Berwyn, for \$6,500. The plans were drawn by the company's architects, and provide for a very neat brick and stone structure, 27x65 feet, slate roof, and to be two stories high, and includes cozy quarters for the agent at that point. All comforts and conveniences for the patrons of the road will be introduced.

Architect A. L. Hartwell, of Long Branch, N. J., reports that he has prepared plans as follows: For an office building for the N. Y. & L. B. R. Co., brick with stone trimmings, cost \$30,000; a primary school building, brick, with stone trimmings, cost \$12,000; a stable and alterations to cottage for A. B. Proal, cost \$6,000; alterations to cottage and stable for Alexander McKinsty, cost \$5,000; alterations to cottage for Henry Moss, cost \$2,000; a cottage for F. M. Taylor, cost \$3,500; a brick store for G. S. White, cost \$5,000; and a hotel to cost \$5,000.

Joseph D. Austin, architect and supervisor of erection of public schools in Philadelphia, Filbert street, above Seventh, has completed all the plans for the school to be erected at Second and Oxford streets. They contemplate an eighteen division structure of brick and stone, and fitted with all modern conveniences for accommodation of children and a watchful care for safety; also plans of the same character for the Cambria school, on Thirteenth between Richfield and Fremont streets, Twenty-eighth section. The bids are to be opened on the 16th inst., and contracts awarded.

Jno. J. Deery, architect, 435 Chestnut street, Philadelphia, is engaged on plans for a handsome church (R. C.), to be erected in Brooklyn, N. Y., to be triangular in shape and very unique in design, entirely Romanesque treatment in the plans and facing upon three streets. It will be built of buff brick and terra cotta; the basement will be finished finely as well as the main auditorium, and will cost about \$70,000. Also, plans for St. Paul's R. C. School at Portsmouth, Va., to be of brick, steam heat, and well finished on interior, cost \$5,000. Also, plans for a house for J. T. Moffitt, of Roanoke, Va., to be three stories, stone and shingle work, Colonial style of architecture.

M. Fielding, architect, 110 South Fourth street, Philadelphia, is engaged on plans for a handsome office building, to be known as the "Terry building," and erected at Roanoke, Va. It will be built of buff brick and stone, light color, first floor to contain two large bank offices as well as a number of offices for other purposes, to be fitted with safe vaults, etc. Light-well will extend from first floor to roof, which will be of slate. 2, 3-4-5-6 floors are to be offices also, and the 7th fitted with janitor's rooms and restaurant, which will be reached by two passenger elevators. Electric light and bells will be placed all through interior, which will be finished in hardwood. It will also have all modern conveniences, such as retiring rooms, lavatories, baths, and well heated and ventilated.

Moses, King & Ferris, architects and engineers, 226 Walnut street, are engaged on plans for alteration of the Masonic Temple at Mount Holly, N. J., which will be quite elaborate and unique in design; and plans for a house for S. D. Weaver, at Wellwood, near Merchantville, N. J., fitted with all modern conveniences; also plans for house for F. S. Walton, of the same place, to be finished in good style, with all conveniences; and plans are upon the boards for a large factory for the Standard American Extract Company, to be a three-story brick structure, fitted with boiler, engine, etc. No site has yet been selected for location. It will be 92x198 feet in size. They are also engaged on plans for a hotel for Theo. Brown, of Camden, N. J., to be four stories high, brick, tin and slate roof, steam heat and electric work, wood mantels, and finished in hardwood. Located at Fifth and Federal streets. Also plans for alteration of house for F. S. Simmons at Third and Market streets, Camden, N. J. In a few days the above-named architects will ask for estimates for erection of the Carisbrooke Inn, located at Ventnor, below Atlantic City, N. J., and it will be pushed to completion under their direction.

Building and Real Estate Notes.

McCartney & Oler, contractors, have been given the contract for erection of a three-story warehouse on Germantown avenue, east of Second street, and will commence work at once.

Harrison Albright, architect, 508 Walnut street, is about to begin the additions and alterations to the above location, and noted in full in this journal some time since.

The Germantown Real Estate, Trust and Deposit Company expect to occupy their new building at the corner of Main street and Chelton avenue about October 1st.

In Frankford, the work on the sewer will be commenced on Main street from Unity, north; also, the work on the Harrison street sewer, in a short time, and pushed to completion.

The H. W. Jargue Chemical Company are about to begin the erection of two structures on Bermuda street, east of Magnet, Twenty-third Ward. They will be brick, one story high, and have modern appliances.

John Stafford, builder, Sixteenth and Susquehanna avenue, is making preparations to erect twenty-five large houses on the lot of ground recently purchased at Twenty-third and Locust streets.

The Roman Catholic Church at Johnstown, Pa., will erect near their church a fine two-story parochial school building, to be of brick and stone, and will have the Smead, Wills & Company system of heating and ventilation, and all modern improvements.

R. & H. Wilson, builders, will at once erect eighteen fine three-story houses on Tasker street between Fifth and Sixth streets, to be pressed brick, stone facings, gas pipe, electric work, wood and stone mantels, and fitted with the best of conveniences.

Jno. J. Torpey, builder, is about making arrangements for one hundred-and-two houses on Helen and Jasper streets and Morris avenue below Somerset street, to be pressed brick fronts, with stone trimmings, and fitted on interior with best of modern conveniences.

Geo. V. Cresson, Iron Works are about to be enlarged, at Seventeenth street and Allegheny avenue. It will be 70x150 feet in size, and three stories high, to be of brick and stone, and fitted with all the most approved machinery, electric work and freight elevators.

John J. Cassidy, builder and operator, McKean street and Moyamensing avenue, is about to begin twenty-five houses on Mercy street, west of Second street. They will be of press brick front, brown stone trimming, and well fitted on interior with every comfort and convenience.

William C. McPherson & Sons, contractors, 1625 W 16th street, has been awarded the contract to re-build the annex to the *Public Ledger* building on Sansom street above Sixth, and will at once begin operations. The structure has heretofore been fully described in this journal. Wilson Bros., architects and engineers, Drexel building, having drawn the plans, will supervise the work.

Ordinances have been presented to City Councils appropriating money as follows, for new work and public repairs: \$100,000, for constructing Wissahickon Creek intercepting sewer, also to authorize erection of a public bath house on ground formerly occupied by the old station house, also to construct a permanent bridge on Shurs lane, at Manayunk avenue. All have gone to Finance Committee.

Thomas P. Twibill, builder and real estate operator, 608 Chestnut street, is about to erect quite a number of elegant houses, at what is popularly known as "Columbus Park." This handsome place is now being graded and paved and curbed. All the houses to be erected will have a fine comfortable porch placed in front, and the houses are to be of unique architectural design, and fitted with all modern comforts and conveniences. Over one hundred of the lots at the above location have been disposed of already, and sale of the whole is but the question of a short time.

William C. Merritt, the practical builder, having completed his operation of 101 houses on the east side of Fortieth street, north side of Poplar, West Philadelphia, is erecting twelve substantial and elegant brown stone dwellings, with porch fronts, on the west side of Fortieth street, north of Poplar street. These properties will have lots 17 and 18 feet front by 100 feet deep, and the houses will be 17 and 18x58 feet in depth. There will be two corners with oriel windows back and front, with press brick and brown stone trimmings on gables. The interior finish will be quite elaborate, and of an entire new design. The finish entire will be in quartered oak. At this point Fortieth street is 100 feet front from house line to house line, making a grand approach to the main entrance of West Park. These houses will range in price from \$8,000 to \$12,000.

At Wilmington, the corner stone of the new St. Hedwig's Polish Catholic church, to be erected at Harrison and Linden streets, will be laid October 25th. Contractor Lewis T. Grubb & Son are making extensive improvements for Messrs. Heald & Co., Seventh and Market streets. The Board of Trade will resume its meetings October 1st. The corner stone of the new Brownson Hall, to be erected at the corner of Jackson and Fourth streets, will be laid September 21st.

Through Maryland.

The Cecil County School Commissioners have awarded contracts for the erection of schools as follows: At Warwick, to L. E. Patterson, for \$1,400; at Cedar Hill, to M. G. Scarborough, for \$634; at Harts, in Elk Neck, to L. E. Patterson, for \$800; at Principio Furnace, to Lewis D. Pusey, for \$1,275.

At Reisterstown, Baltimore Co., Messrs. Caron & Cook, builders, have been awarded the contract for the erection of All Saint's Episcopal church, which will cost about \$11,000. It will be of gray stone, handsomely finished on the interior, stained glass windows, etc. The expense will be borne by Mr. William Keyser, who designs it as a memorial to his mother.

At Harrisonville, Baltimore Co., Mr. Thomas B. Slanfield has been given the contract for the erection of the Episcopal chapel for \$1,595. It will be of frame, gothic in style of architecture, and with a seating capacity of about two hundred. Buckler Ghequier, 227 St. Paul street, Baltimore, is the architect. The mission is under the charge of Mr. Alexander M. Rich.

At Elkton, Cecil Co., the Town Commissioners have awarded Jacob Rambo the contract for the erection of a town hall to cost about \$3,000. The new structure will be of brick with slate roof, and all modern conveniences will be introduced. The dimensions are 40x30 feet, and the first story will be fitted up for an engine house for the use of the fire department. The second story will be used for an office for the Town Commissioners, and a room for the fire department which is to be organized. The building will be ornamented by a tower 60 feet high.

At Salisbury, Wicomico Co., Thomas P. Mitchell has prepared the plans and specifications for a handsome hotel to be erected on the site of the old Peninsula House at Main and St. Peter's streets, Salisbury. The plans call for a structure three stories high, of brick. The dimensions will be 130x52 feet. The front will be of fancy brick with stone and iron trimmings, with an entrance on Main street in form of a double pilastered archway. On the first floor, facing Main street, will be two large store rooms, with plate glass windows and handsome store fixtures. On the second and third floors there will be suites of rooms designed for families, also single rooms to accommodate about one hundred guests, electric lights, elevators, best of sanitary plumbing, handsome bath room and closet fixtures, fine interior finish and all modern conveniences. The cost will be about \$20,000. The owners are Messrs. Birkhead and Carey, of Salisbury.

At Baltimore, building permits have been issued as follows: To George Schwinn, one two-story brick dwelling; to William Baker, to erect one three-story brick dwelling; to W. I. Clendinen, to erect six two-story brick dwellings; to Robert Garrett & Sons, to erect a four-story and a two-story back building in rear of Eutaw House, at the corner of Baltimore and Eutaw streets; to G. I. Walz, to erect five two-story brick dwellings; to F. O. Singer, Jr., to erect

twelve two-story brick dwellings; to Michael Coyne, to erect two two-story brick dwellings; to George Appercue, to erect a stable; to Henry Koch, to erect a three-story brick dwelling; to Tyler, Leech & Company, to erect a one-story office building at No. 2301 Boston street; to Isaac Benesch, to erect two three-story brick dwellings at Nos. 555 and 557 Gay street; to the Grand United Order of Nazarites Association, to erect a four-story brick building; to W. Arlington Land Company, to erect a three-story frame building.

Washington, D. C.

Charles A. Langley has the contract for the erection of a dwelling for Capt. A. C. Taylor, the owner of the site of the Tracy mansion, which was destroyed by fire. The structure will be four stories high, in Colonial style, buff Ohio stone and Pompeian brick, will be used in the front. The first story and piers of the second story will be entirely of stone. A recess at the second story, across the front, forms a balcony finished with an iron railing. The cornice will be of stone and brick ornamented with terra cotta. —At Coatesville, Chester Co., the Lukens Iron and Steel Works are erecting an electric light plant, 40x60 feet, and the machine shop will be moved to a new location.

—At Myersdale, Somerset Co., it is reported that John Groh, of Denver, Lancaster county, has rented the old Academy building on East Main street, and will convert it into a factory for the manufacture of furniture and undertakers' supplies.

—At Downingtown, Chester Co., the Baptists have broken ground on the corner of Monroe and Lancaster avenues for their new church, as before reported. John Gray will erect a double frame dwelling. At a recent meeting of the Milk Association the erection of a large cold storage warehouse was favorably talked of.

—At Elizabethtown, Lancaster Co., the property holders on East High street have been served with notice to make their pavements conform to the grade. This will necessitate the re-laying of half a mile of sidewalks. J. N. Witmer has contracted with B. G. Groff, for the erection of a new barn, in place of the one recently burned.

—At McKeesport, the Street Railway Company has decided to double its tracks throughout the city, also to extend to Christy Park. The latter line will be built as soon as the road bed is put on grade. The contract for grading and paving is to be awarded within a month. Asphaltum will be used. Work will be commenced on the erection of the new block belonging to the White estate on Fifth avenue.

—At Norristown, Montgomery Co., the State Legislature will be asked for an appropriation of five hundred thousand dollars, to erect a building for the State Insane Hospital. The farm land now owned by them affords a good site. The Pennsylvania Schuylkill Valley R. R. Company has commenced work on the erection of a new station, near the Norristown Steel Company's works.

—At Pottstown, Montgomery Co., Messrs. J. & H. Gabel are laying out fifty acres of the Mill Park farm into building lots. There will be over one hundred lots south of the Pottstown Trotting Park extending to High street, commencing at Shoemaker street, which passes the east front of the park, then back to Ritter's lane. Each of the Mill Park lots will be 30x150 feet to a 24 foot alley. Chestnut and King streets will pass through these lots. The streets running north and south will be fifty feet wide, with twenty-five feet wide alleys.

—At West Chester, Chester Co., the Cold Storage Ice Company will erect an ice house which will have a capacity of one thousand tons. The structure will be used as a storage house for ice manufactured during winter. The syndicate owning Roselyn, the new suburb, report about 70 lots sold to date. As the Borough needs additional water supply, Councilman A. P. Hall suggests the Bower's paper mill, on the Brandywine, as a suitable site for a pumping station. The water right could be purchased, and with a little repairing, the dam would furnish all power needed. The water could be pumped to the hill near the Reid residence on West and Gay streets, which would be a good site for the erection of a reservoir.

—At Allegheny, J. B. Fohn will erect two dwellings on Arch street, from plans prepared by F. J. Oesterling, of Hussey building, Pittsburg, Pa. Mrs. Brown will have erected on North avenue a four-story twenty-four room brick and stone flat, elevator and other appointments. A. E. Linkenheimer, of Pittsburg, is the architect. Marshall Kennedy & Company have purchased a lot 190x400 feet, bounded by Lackock and Hope streets and River avenue, for \$80,000. In addition to the buildings on the lot, the company will erect an elevator with a capacity of 150,000 bushels of grain, and will also erect large stables and wagon sheds.

—At Pittsburg, architect F. J. Oesterling, of Hussey block, has prepared plans for a block of tenement houses to be erected by John O. Phil-

lips, architect. A. E. Linkenheimer has made the plans for a two-story brick tannery, 90x94 feet, to be erected for Messrs. Martin Lappe & Sons; also, a three-story tannery, 52x63 feet, for the same firm; also, plans for a two-story frame dwelling for Frederick Lynch, to be erected on Second avenue. SLAG-STONE PAVEMENT,

For Sidewalks and Floors, is conceded to be the best production of the present century.

Slag-Stone, when properly combined with the best grades of Portland Cement, produces an artificial Stone superior in appearance, toughness, tensile and crushing strength to any combination known to modern science. Its durability is greater than the best Flag-stone, and for that reason it is cheaper than brick.

Being a non-absorbent, it is superior for Canneries, Slaughter Houses, Damp Cellars, Boiler Houses, Dye Houses, etc.

For the Cellars of Residences it expresses the highest standard of perfect Sanitation, as it prevents the escape of noxious gases from the underlying soil and will not absorb impurities. It prevents dampness, is easily cleaned, and renders the whole house more comfortable and healthful.

ALSO,

Coal-Tar-Concrete Work carefully and properly laid in City or Country, in the most substantial manner, and at prices in keeping with our guarantee for first-class work.

Hard-Pressed Felt Hats

These Hats, after they come from the maker, are subjected to a hydraulic pressure of 250 pounds to the square inch. This thoroughly exudes all improper substances and knits the fur together, and makes a surface much smoother and more serviceable than by the old process. These Hats can be purchased only from

EXCELSIOR RANGES.

* 24 Sizes and Varieties. *

For 30 years the standard of excellence in Philadelphia, and now better and handsomer than ever. No first-class house is complete without one, 75,000 now in use in Philadelphia and vicinity. Ventilated oven, oven door pedals, grates that give perfect control of fire at all times. Single oven, double oven and hot-air ranges at moderate prices. Specify the "Excelsior Ranges" if you want the best. Send to the Manufacturers, **Isaac A. Sheppard & Co.,** 4th STREET, AND MONTGOMERY AVENUE, PHILADELPHIA,

All responsible Dealers supply them.

for their pamphlet "Perfect Cooking" giving full description.

Men who Build HOUSES

Need To Buy Ranges !

If they themselves occupy them of course the ranges should be good ones. If they intend selling or renting them good ranges in the kitchen will help the Builder or Owner to sell or rent to better advantage. In either case

Does it Pay

to put in cheap ranges of no particular reputation, when a mere trifle in the way of additional expense would provide the

\$5.00

INVESTED in a yearly subscription to this journal, if carefully read, and you are not too lazy to see the man who's going to build, will certainly prove the best investment you ever made in your life. Thousands of dollars in profit have been made by those who caught on to this idea years ago. Your economy that prompted the saving of five dollars per year by refusing to subscribe, has cost you many a cool hundred. Get aboard now Brother, while the fruit is ripening and the "lucky fellows" are reaching out far and wide for trade, while you are sorrowing because it don't come your way.

\$5.00 IN ADVANCE.

S. Signal Service." The Voigtlander to be of the kind described on page 7, in the catalogue for January, 1886, of Voigtlander & Sohn, Brunswick, Germany, and known as number 59, with fixed shades. The Lemaire to be a 12 lens glass of not less than 5½ power. A sample will be required with each bid for the Lemaire make. The words "U. S. Army" and "Field Glasses" to be engraved upon the two telescopic tubes, respectively. The office reserves the right to order glasses either in aluminum or ordinary metal. Bids are therefore desired accordingly. If imported, the glasses to be delivered in bond. Free entry to be obtained for the United States. Samples of the glasses can be seen at this office.

Sealed proposals in duplicate, endorsed "Proposals for Pumping Plant," will be received at the Bureau of Yards and Docks, Navy Department, Washington, D. C., until 12 o'clock noon, on Wednesday, the 8th day of October, 1890, for furnishing, delivering and erecting the pumps, engines, boilers, suction and discharge pipes, and all attachments appertaining thereto, in working order, for the granite dry dock at the Navy Yard, Boston, Mass. There will be two main pumps, to have a mean discharge capacity of 10,000 gallons each, and the engines and boilers must be of sufficient power to perform the duty required by the pumps in the above discharge, with a pressure of not less than 80 pounds steam in the boiler. There will also be included one drainage pump of a capacity of not less than 2,000 gallons per minute, with the greatest lift. The bids must include the work of taking out the boilers, engines and pumps now in use, to be deposited as directed. The boilers, engines and pumps are to be located where the present apparatus now is. The cost of adapting the present wells to the new apparatus is to be included in the bids; also, any alterations in foundations necessary for the new plant. Plans and specifications must accompany the bids and be full and explicit in regard to all features of the new plant and all the work to be done. Plans of the dry dock and engine and boiler house can be seen at the Boston Navy Yard or this Bureau. The Bureau reserves the right to reject any or all bids. N. H. Farquhar.

Architect Theodore B. Peck, of Waterbury, Conn., is making the plans. A new school building will be erected.

FOUND AT LAST.

It has been the perplexing study of Chemists for many years to discover a paint which on application would enter into the pores of wood and other material, dry quickly, become extremely hard and last for a number of years without blistering, cracking or peeling off and at the same time resist Fire and Dampness.

Such a Discovery having been made by W. D. ROBERTS, SR., and having been in use and under the severest trials for more than 12 years in which time it has deservedly gained a reputation which now excels that of all other paint.

It is made in all Colors and is suitable for all kinds of Painting.

For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communications for publication may be left.

Miscellaneous.

At Chicopee, Hampden Co., Mass., the Dwight Cotton Manufacturing Company will erect a two-story machine shop, 40x210 feet.

At Haverhill, Berkshire Co., Mass., L. V. Spaulding has purchased a lot and will erect a four-story brick shoe factory thereon.

At Boston, Mass., a new three-story foundry is to be erected at the shafting works of G. V. Cresson, size 70x150 feet.

At Waukegan, Lake Co., Ill., the Chicago Safe and Lock Company's plant will be erected from plans prepared by architect John Wagner, of 107 Dearborn street, Chicago, who is now receiving estimates. The plant will cover an area of 400x100 feet, and comprise main building, an office building, warehouse, boiler and engine house, brass foundry, etc. The plant will cost about \$100,000.

At Lewiston, Androscoggin Co., Maine, the People's Savings Bank has purchased a lot on the corner of Pine and Lisbon streets, and will erect a four-story block, which will be used as a banking house, also containing offices, stores and a hall. Col. Osgood will erect a five-story block on Lisbon street, 75x75 feet. The building will have red granite front. An elevator will be put in. The structure will cost about \$60,000.

At Chicago, Ill., the Building Inspector has issued the largest permit ever taken out in that city. It was issued to "The Fair," for the erection of a magnificent sixteen-story store and office building, at No. 184 to 200 State street, at a cost of \$3,000,000. The permit itself cost \$1,400, which was twice the cost of the permit for the auditorium. W. L. B. Jenny is the architect.

At St. Louis, Mo., architect P. F. Meagher, 720 Chestnut street, has prepared plans for a flat building for Thomas Faxxley. The same architect has prepared plans for a four-story dwelling for James Quinlan; also plans for a flat building for Mrs. Jackson. Architects Beinke & Wees, 829 N Fourth street, have prepared plans

for a residence for Thomas Elsemeyer; also, plans for a business building, to cost about \$15,000.

At Findlay, Hancock Co., Ohio, architects Kramer & Hall have prepared plans for a residence for W. Kramer. Architect George Horn has prepared plans for a residence for M. R. Bond. Architect W. T. Weed has prepared plans for a residence for W. A. Sampson, of Cincinnati, O. The same architect has made plans for a residence for S. T. Miller, to be erected at Findlay. Architect J. J. Dettweiler has prepared plans for a residence for Charles Deihlman.

At South Omaha, Neb., Messrs Swift & Company will erect a slaughtering establishment at the Union stock yards. It will consist of a cold storage building, 128x214 feet, six stories high, an engine house, 80x80 feet, to have eight 70-horse power boilers and one 250-horse power engine. The tank house will be 80x80 feet, four stories high, and contain sixteen tanks, each 6x6 feet. The hog slaughtering house will be 80x123 feet, six stories high. The buildings will be built of brick and iron. Steam heat and all improvements. The cost will be about \$300,000.

At St. Louis, Mo., O. J. Wilhelmi, architect, at No. 404 Market street, has prepared plans for a brewery, to be erected at Monterey, Mexico, for Joseph Schneider, of Chouteau and Mississippi avenue, St. Louis. The building will be 118x103 feet, five stories high, of brick, stone, cement, fire-proofing, two boilers, steam freight elevators, 25-horse power engine, ice machine, iron work, iron beams, office furniture, desks, etc., cost about \$150,000. T. B. Annan, of the Emitie building, has prepared plans for the Boatman's Bank building, to be erected on Fourth street and Washington avenue. The architect wants estimates for bank fixtures and furniture. The building is to cost about \$25,000.

At Chicago, Ill., a company has been organized, to be known as the Chicago Elevated Terminal Railway Company, for the purpose of constructing an elevated track system through the city on iron or steel, or upon brick and stone arches. It is proposed to construct the line with 100-pound steel rails, so that it can bear heavy locomotives. It is also proposed to construct in connection with this elevated railway and terminal system, enclosed freight yards at grade, using hydraulic lifts, as in England, for the transfer of freight cars from the tracks to the yards. The Union station will probably be erected near the Twelfth street viaduct. It is the intention of the company to make this station a magnificent structure. The construction will be begun at an early date.

At Brooklyn, N. Y., architect J. L. Young, of No. 287 Halsey street, has made plans for three flat buildings for A. N. McBean, of No. 82 Broadway; cost about \$40,000. W. M. Coats, architect, No. 26 Court street, has prepared plans for four flat buildings, to be erected on St. Mark's avenue, near Franklin street; cost about \$30,000. B. W. Fielding has prepared plans for three flat buildings. John F. Nelson, 153 Carroll street, has plans for two store and flat buildings. Architects Wischerth & Copeland have made plans for a flat building. Architect F. Weber, of No. 211 Manhattan avenue, has made plans for two stores and dwellings. R. Dixon.

of No. 219 Montague street, has prepared plans for four stores and tenement's. Architects D. Acker & Son, 752 Broadway, has made plans for four store and flat buildings.

Architects Notes.

A. J. Boyden, architect, 413 Walnut street, has made plans for a country house, to be stone, brick and shingle work, with terra cotta, inside fitted with electric bells, gas fixtures, wood mantels, and latest improvements, etc.

Addison Hutton, architect, 400 Chestnut street, Philadelphia, has made drawings for certain alterations in the new building of the Girard Life Insurance Company, N. E. corner Broad and Chestnut street. They are confined to the company's apartments.

Pritchett Bros., architects, 1430 So. Penn Square, Philadelphia, have made drawings for a club house for the Dirigo Club, to be of frame and terra cotta, stone foundation, shingle roof, inside lavatories, electric bells, copper and galvanized iron cornice, dumb waiters, stained glass and fine grill work, wood mantels, and all modern improvements.

A. C. Wagner, architect and engineer, 514 Walnut street, Philadelphia, has made drawings for a brewery, to be erected on D street, between Thirteenth and Fourteenth streets, S. E., Washington, D. C., for Albert Corry. Size, 94x36 feet, and to be three stories high, brick, red and common stone trimmings, galvanized iron cornices, tin and slate roof, gas fixtures, steam, with steam heating, beer brewing machinery, freight elevators, plumbing, and all modern conveniences. It will cost \$75,000, and the contract has been given to William Rothwell, 119 Tenth street, N. E., Washington, D. C.

Harrison Albright, architect, 508 Walnut street, Philadelphia, has established a branch office at 485 Main street, Buffalo, N. Y., in conjunction with his main rooms in Philadelphia, which he is at present enlarging, by the addition of two fine office parlors and an estimating room. Mr. Albright is preparing drawings for re-building and alteration of the A. A. Jeannott homestead at Syossett, L. I., to be used for hotel purposes; also, drawings for a pavilion and boat-landing on Tuscarora river, near Wilson harbor, Lake Ontario; also, drawings for the alteration of the front of the East Baptist Church on Hanover street above Girard avenue, the trustees having decided to make this improvement while the interior is undergoing alteration; also, engaged on drawings for remodelling the residence 1909 Vine street, for Mr. J. Thornton Barnes.

Josiah S. Briean, architect, 1413 Filbert street, Philadelphia, is engaged on plans for one of the largest manufacturing plants in the world, and will be owned by the Steel Tubular Car Company, and located at Charmony, near Bradford, McKean Co., Pa. The buildings will be "E" shaped, with three fronts of 644 feet and two 580x60, and will be five stories high each, 18 3/4 high and of stone to third floor, rest of brick. Two interior buildings, 40x200 feet, two stories high, and built of stone, will be erected; also, a number of additional houses for boiler, dynamo and material storage will be constructed, inclusive of an office building, 50x208 feet, six stories high, built of red stone, brick and terra cotta arches and ornamentation. The whole plant will be fitted with all kinds of improved machinery, elevators (freight and passenger), electric work, speaking tubes, dumb waiters. The capital of the company is about \$5,000,000, and Mr. John W. Post is the inventor of the car which it is proposed to build. It is tubular in shape, and surrounded by many safeguards from telescoping and other means of accident. The boiler capacity of the works will be 4500-horse power, and a dynamo of 1000-horse power. The location selected has the advantage of the Rochester, Pittsburgh and Buffalo and the New York, Lake Erie and Western railroads.

John C. Smith, architect, 6 1/2 N Market square, Harrisburg, Pa., has made drawings for seven brick and frame dwellings, for M. B. Cowden and B. T. Balsley, of Harrisburg, Pa., Queen Anne style, three stories high, porches front and rear, all late improvements, and will cost \$15,000; contract let. Also, two cottages for Alex. Roberts, Harrisburg, Pa., three stories high, best improvements, to cost about \$5,000; contract let. And plans for four stone dwellings for A. T. Stewart, Harrisburg, Pa., fronts to be rock faced marble, finely ornamented, three stories high, open stair cases, electric bells and light, and all latest and best improvements, cost about \$30,000; contracts let. Plans for a private residence for W. Calder, Esq., of Harrisburg, brick, brown stone base and trimmings, with large stone piazza in front, and copper bay window and wrought iron decoration, and to be three stories high, interior all hardwood work, inlaid flooring, marble mantels, after designs furnished by architect, steam heat, fine plumbing, all latest improvements; contract let. Also, a private residence for Mrs. Eldridge McConkey, Harrisburg, Pa., to be brick, brown stone trimming and base, copper bay, and other rich decorations, three stories high, slate roof, and latest improvements, to cost \$8,000; contract let. Also, drawings for a double dwelling for W. Rodermel, Harrisburg, Pa., to be three stories high, brick and brown stone trimmings, galvanized iron decorations on top, with all modern conveniences, size 29x60 feet, to cost \$3,500; contract not let. Also, plans for store and warehouse for Messrs. Coalls & Brian, Basaie City, Va., four fronts, brick, with galvanized iron decorations, slate roof, three stories high, to have four large entrances, divided so: Front, rear and sides open to staircase and elevator; finely fitted office, and rich decorations in iron work on front, with all late improvements; contract not let; to cost about \$5,000.

Building and Real Estate Notes.

Geo. Davenport is about to begin the erection of four fine brick houses at Cheltenham avenue and Chew streets, Germantown.

Charles O'Neill, contractor, was awarded the contract for building wings to the Drexel school, Twenty-Sixth section, for the sum of \$5,419.

William J. Ross, contractor and builder, will break ground at once for fourteen new two-story houses, on west side of Fifth, north of Wolf street, to be brick, stone trimmings, and fitted with good modern conveniences.

It is currently reported that the Navy Department intends to award the contract for construction of the new wharf at League Island to James A. Mundy, 211 South Ninth street, whose bid was \$73,000.

The Abram Cox Stove Company are about to increase their plant at Dauphin and American streets, by adding two more stories, and otherwise extending their facilities for producing their wares. The extension will be 36x72 feet.

Daniel M. Collamer, builder, North Thirteenth street, corner of Butler, will erect ten houses on Cambria, east of Fillmore street, on ground bought of Robert Fitzell, real estate broker. They will be of brick, stone trimmings, and fitted in best style on interior.

Bement Miles & Company are about to commence the erection of their new four-story erecting and machine shop on Callowhill, between Twentieth and Twenty-first streets. It will be fitted with necessary machinery, freight, elevators, etc. Previously reported in this journal.

Powers & Weightman have just given out the contract to erect two new buildings to their present plant, at Falls of Schuylkill, one of which will be 51x51 feet, and the other 51x60 feet, and it is intended to begin operations at once. They will be fitted with steam and the necessary machinery, etc.

The Womens' Homoeopathic Hospital, Twentieth street and Susquehanna avenue, are considering the details for a new addition to their institution, and have given the contract to W. P. Fogg, contractor, Thirteenth above Arch street, who will draw the plans and superintend the construction of the work.

Richard P. White, Esq., the eminent lawyer, who now resides on Delancy place, above Twenty-Third, has just purchased No. 2024 Chestnut street, which will undergo some improvement at once, after which he will take up his permanent residence in his new home. The transfer has just been recorded.

The Water Committee of City Councils have resolved to present an ordinance making a loan of \$170,000, for the sole purpose of increasing the water supply of the city. This will be in addition to money already in hand, and used in laying of new mains in new streets and in suburban parts of the city. The proposition is favorably received on all hands, and is specially urged by Director Wagner as a necessity.

Michael McManus, contractor, has been awarded the contract to erect the new school house at Oxford and Second streets, for \$57,965, and another for wings to the school house at Thirteenth and Cambria streets, for \$5,793 each. The same contractor secured the contract for heating and ventilating apparatus to be placed in the Madison school, Eleventh section, for \$1,935. Work on each of these will be commenced as soon as possible.

M. L. Heist, builder, 816 Lehigh avenue, has bought ground bounded by Eighth, Franklin and Cambria streets 300x132 feet, on which he proposes to erect a large number of two and three-story houses. Mr. Heist draws his own plans, and intends this operation to be unique in design. They will be pressed brick, stone trimming, and fitted on interior with electric bells and light and best sanitary plumbing, all modern conveniences.

One of the largest operations of this season will be that of John M. Sharp, the builder and real estate operator, on ground bought of William Rhoads and James Parsons, between Eighth, Ninth, Somerset and Cambria streets. The lot is 228x500 feet, and will be occupied by about one hundred-and-forty-one, two and three-story houses, similar to those heretofore erected by Mr. Sharp, being brick, stone trimmings, electric work, best of plumbing, and all modern conveniences, and will represent about \$400,000.

A meeting of School Committee, City Councils, was held on the 17th inst., and ordinances were ordered to be framed and favorably reported to Councils, for the purchase of sites for schools. A lot at Richmond and Ontario streets, \$8,750; one at Frankford avenue and Ontario street, \$12,000; one at Twenty-first and Moore streets, \$10,500; another at Tioga and Howard streets, \$10,000. Also, a new ordinance prepared, to transfer the lot at Thirty-fifth street and Fairmount avenue from Water Department to that of the Board of Education.

In the matter of the removal of the islands from the Delaware river, opposite the city, it is at present probable that the contract will be awarded the Penn Dredging Company, of this city, and chartered under the laws of State of New Jersey. Major C. W. Raymond, of the U. S. Engineer Corps, has endorsed, with a favorable recommendation, their bid, as being the lowest, and it only awaits the action of the Secretary of War, who will give the final decision in the matter. Charles A. Porter, Dr. T. A. Filbert and Wm. M. Singerly, with others, are the principals and stock owners in the company.

It is more than probable that the whole amount asked by the Park Commissioners will be given them by the Finance Committee of City Councils. It is proposed with this money to construct a grand drive way on the west side of Schuylkill river, similar to that on the eastern side, and design many new paths, walks and drives, as well as make large repairs to the various buildings now standing upon the site of the Centennial grounds, among which will be repairs to the roof of Memorial Hall, and other detail work needed upon this building. The Commissioners have asked for \$560,862 for the coming year.

Common Council ordinances were concurred in by Select Council, as follows, on the 18th inst: To authorize the construction of a retaining wall at Green lane and Webster street; to authorize the opening of certain parts of Wood, Wingo-hocking, Heiskill, Wakeling and Clearfield streets, and Allegheny avenue; to pave Berks street, from Howard to Front; to grade Ruscome and Front streets and Cedar lane; to pave McKean, Mill, Forty-eighth and Saybrook streets, Willow, Greenway and Paschal avenues; to grade American, Sixty-third and Ann Streets, and Elmwood avenue; to re-pave and re-set the curb of Palethorp street, from Somerset to Cambria; to construct a brick or stone drain across Mermaid avenue; to grade and pave Emily, Wolf, Reece, Thirty-fifth, Thirty-first, Thirty-second and Thirty-third, Oxford, Clifford, Hollingsworth and Giles streets, Meridian and Elmwood avenues; to grade Hare, Twenty-fourth, Harold, Thompson, Connestoga and Centre streets and New York avenue; to pave Sterner, Ann, Twenty-fifth, Twenty-eighth, Thirty-second, Dauphin, York, Green, Centre and Atlantic streets, Park, Montgomery and Allegheny avenues and School lane; to open Park avenue and Gurney street; to pave Carlisle, Harland, Alder, Eighteenth and Eyre streets; to grade and pave the market plots on Spring Garden street, between Marshall and Twelfth streets, and re-pave the intersections; to grade Greenough and Linden streets and Erie avenue.

FOR TWENTY YEARS EHRET'S Slag-Stone Composition ROOFING,

has stood the severest tests and in no case has it ever failed.

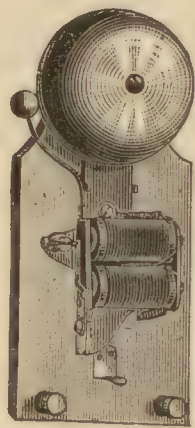

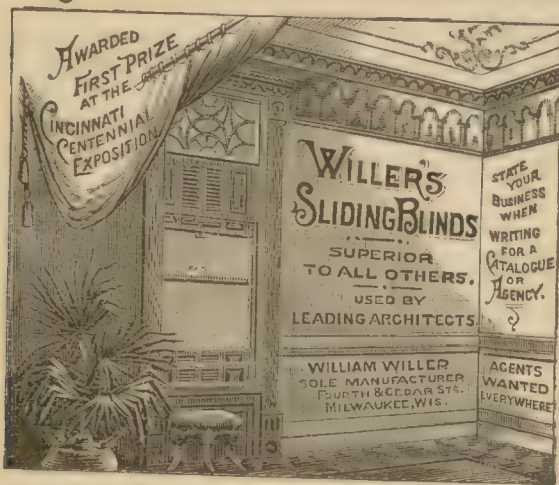

It is Fire Proof, as well as Damp and Moisture proof. It never expands or contracts; it is not affected by Steam, Acids, Gasses, Vapors or other injurious influences, that would render a metal roof perfectly useless in a few weeks. It is air-tight and is not affected by atmospheric influences of any kind; it is durable and reliable in winter and summer, and positively requires no care or attention whatever. It will out-last the BUILDING and for Factories, Chemical Works, Boiler and Engine-houses, Depots, Factories, Mills and Warehouses, it is without an equal. It costs less than tin or slate requires no painting, can be walked on without injury and must not be considered in the same light and prejudice usually bestowed upon what are known as Tar Roofs.

BEWARE OF IMITATIONS, for the durability of our Roofing is not only owing to our great care in laying on a roof; but also in the scientific preparation of the Material we use. Circulars and testimonials sent upon application.

We have no AGENTS, Manufactured and applied ONLY by

EXCELSIOR RANGES.

* 24 Sizes and Varieties. *

For 30 years the standard of excellence in Philadelphia, and now better and handsomer than ever. No first-class house is complete without one, 75,000 now in use in Philadelphia and vicinity. Ventilated oven, oven door pedals, grates that give perfect control of fire at all times. Single oven, double oven and hot-air ranges at moderate prices. Specify the "Excelsior Ranges" if you want the best. Send to the Manufacturers, **Isaac A. Sheppard & Co.**, 4th STREET AND MONTGOMERY AVENUE, PHILADELPHIA,

All responsible Dealers supply them.

for their pamphlet "Perfect Cooking" giving full description.

Men who Build HOUSES

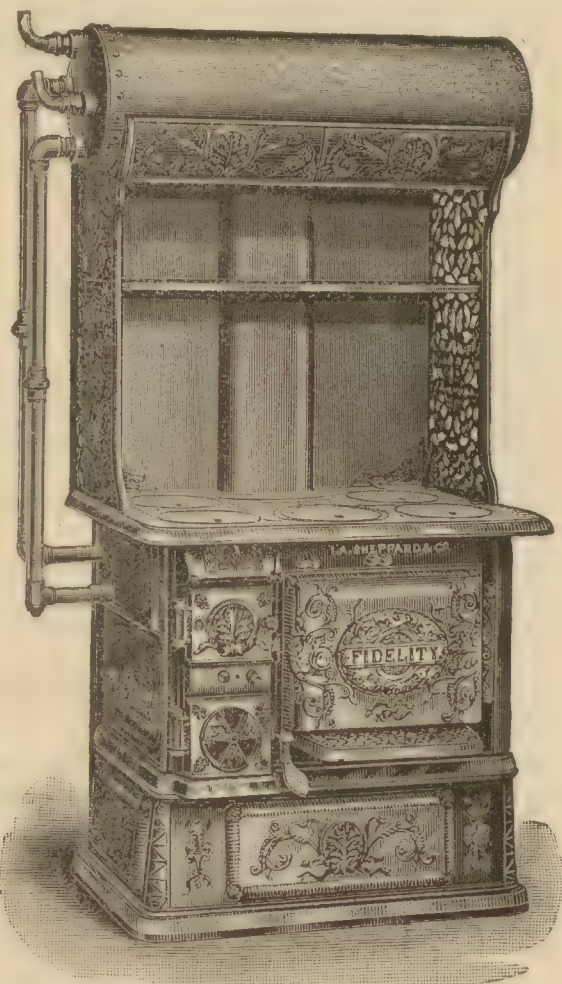

Need To Buy Ranges!

If they themselves occupy them of course the ranges should be good ones. If they intend selling or renting them good ranges in the kitchen will help the Builder or Owner to sell or rent to better advantage. In either case

Does it Pay

to put in cheap ranges of no particular reputation, when a mere trifle in the way of additional expense would provide the

"Excelsior" or the "Fidelity?"

FIDELITY RANGES.

7 and 8 inches, Right and Left Hand.

Just the thing for small Houses. No brick-work. Plumbing reduced to a trifle, Hot Water in abundance. The latest and the best of their class.

Langsdale, president of the State Soldiers' and Sailors' Monument Commission, at Indianapolis, Ind., wants bids until October 14, 1890, for constructing an iron copper-covered turret upon the shaft of the State Soldiers' and Sailors' Monument, now being erected in Circle Park; also, an iron stairway within said shaft.

Supervising Architect James H. Windrim, at Washington, D. C., wants proposals until October 8, 1890, for placing heating and ventilating apparatus in U. S. Court House, at Pittsburg, Pa.; also, proposals until October 7, 1890, for furnishing and setting in place iron beams, etc., required for the first floor of U. S. Court House, at Eastport, Maine; also, proposals until October 10, 1890, for placing heating and ventilating apparatus in U. S. Court House and Post Office, at Williamsport, Pa.

Sealed proposals, in triplicate, will be received until 12 m., Friday, October 10, 1890, for building at the National Armory, Springfield, Mass., one fire-proof shop, in accordance with plans and specifications to be seen at the office of the Commanding Officer. Envelopes containing proposals must be indorsed "Proposals for Building." Blank forms and specifications will be supplied on application to Colonel A. R. Buffington, Ordnance Department, U. S. Army, commanding, Springfield, Mass.

Sealed proposals for scraping and painting the iron work of the bridge at Delanco, N. J., will be received by Mr. Edwin K. Marter, Chairman of the Committee, until noon, October 9th, 1890. For information as to materials to be used and work to be done, apply to any one of the following committee: Wm. S. Herbert, Bordentown, Wm. N. Hubbs, Bridgeborough; Enoch Evans, Cinnaminson; F. D. Perkins, Beverly City, or the Chairman of the Committee, Edwin K. Marter, Beverly Post Office.

John T. Duncan, of Dublin, Laurens Co., Ga., wants proposals until October 20, 1890, for building an iron bridge, all complete, across the Oconwee river at Dublin, Laurens county, Ga. Said bridge to be 320 feet long and 18 feet wide, with a draw of 80 feet clear space on each side of the turn-table or centre of the draw, over the channel, as required by the United States Government for constructing said bridge; each bidder to submit his own plans and specifications. Also, at the same time, sealed bids will be received for the building of the wooden

trestle or approaches to the bridge, about 700 or 800 feet long and 18 feet wide, and to be constructed upon piling and above extreme high water.

Jas. H. Windrim, Supervising Architect, Treasury Department, Washington D. C., wants proposals until 30th day of September, 1890, for all the labor and materials, and putting in place complete, the iron columns, iron floor, and iron wood roof construction, terra cotta arches, etc., for the U. S. Custom House, Post Office, etc., building at Port Townsend, Wash., in accordance with the drawings and specification, copies of which may be had on application at this office, or the office of the Superintendent. Each bid must be accompanied by a certified check for \$200. The Department will reject all bids received after the time herein stated for the opening of the same; also, bids which do not comply strictly with all the requirements of this invitation. Proposals must be enclosed in an envelope, sealed and marked "Proposal for the Iron Columns, Iron Floor, and Iron and Wood Roof Construction, Terra Cotta Arches, etc., at Port Townsend, Wash.," and addressed to Jas. H. Windrim, Supervising Architect.

Sealed proposals in duplicate, endorsed "Proposals for Pumping Plant," will be received at the Bureau of Yards and Docks, Navy Department, Washington, D. C., until 12 o'clock noon, on Wednesday, the 8th day of October, 1890, for furnishing, delivering and erecting the pumps, engines, boilers, suction and discharge pipes, and all attachments appertaining thereto, in working order, for the granite dry dock at the Navy Yard, Boston, Mass. There will be two main pumps, to have a mean discharge capacity of 10,000 gallons each, and the engines and boilers must be of sufficient power to perform the duty required by the pumps in the above discharge, with a pressure of not less than 80 pounds steam in the boiler. There will also be included one drainage pump of a capacity of not less than 2,000 gallons per minute, with the greatest lift. The bids must include the work of taking out the boilers, engines and pump now in use, to be deposited as directed. The boilers, engines and pumps are to be located where the present apparatus now is. The cost of adapting the present wells to the new apparatus is to be included in the bids; also, any alterations in foundations necessary for the new plant. Plans and specifications must accompany the bids and be full and explicit in regard to all features of the new plant and all the work to be done. Plans of the dry dock and engine and boiler house, can be seen at the Boston Navy Yard, or this Bureau. The Bureau reserves the right to reject any or all bids. N. H. Farquhar.

One of the Numerous Endorsements:

MESSRS. ROBERTS, TAYLOR & CO., AUGUST 8th, 1890.
 GENTLEMEN:—I have used your paints on floors of Blasius & Sons' Piano Stores, 1101-1103-1119 Chestnut Street, and find it the best paint for the purpose I ever used. The pianos were rolled over them next morning, eight hours after they were painted, without the least mark, which could not be done with any other paint. Just think of pianos, some weighing 800, 1,000, 1,200 lbs., rolled over floors painted several hours before!

Your paint, when known to practical painters and the public, will take the lead of all others in the market for all work requiring hard surface and durability, and as such I highly recommend it. Yours, Etc.,

PRICE 15 CENTS.

ACCORDING to previous notice the Convention of the American Institute of Architects will be held in Washington, beginning on October 22, and continuing until the business has been completed. It is very important that the committee of arrangements be informed as to the number of Fellows who will attend the Convention, so that proper arrangements can be made for their comfort and entertainment. Papers on art, construction and kindred topics are solicited from the members. The titles of such papers should be forwarded to the committee by October 8, so they can be arranged for in the Order of Proceedings. The Arlington Hotel has been selected as the headquarters of the Convention. The managers have made a special rate of four dollars per day for the occasion. Ample room will be furnished in this hotel for meetings and committee rooms. A complete Order of Proceedings will be sent out early in October. John W. Root, Chicago; Wm. M. Poindexter, Washington, and Glenn Brown, Washington, *Committee of Arrangements.*

Architects Notes.

E. W. Thorne, architect, 1307 Arch street, Philadelphia, has made drawings for a country house for James B. McDonald, to be erected at Honeybrook, Pa.

Amos J. Boyden, architect, 413 Walnut street, has given a contract to S. R. Riley, 1511 N. Eleventh street, to erect a handsome residence at Melrose, Pa.

Chas. P. Baldwin, architect, 802 Broad street, Newark, N. J., reports plans on boards for seven fine dwellings, to be erected at Arlington avenue Station, Jersey City, the owner being J. Dickerson Condict, of No. 40 Wall street, N. Y. These houses are to have all modern improvements.

Geissinger & Hale, architects, 1200 Chestnut street, Philadelphia, have made plans for a school house, to be erected at Trenton avenue and Dickinson streets by the German Lutherans, to be 43x61 feet in size and three stories high, and to have all modern conveniences.

Joseph D. Austin, architect, 713 Filbert street, has completed the plans for a school house, to be located at the Northeast corner of Twenty-second and Berks streets, and the contract will be awarded at an early day. It will be erected under the supervision of the Board of Education.

Frederick B. Pyle, architect, Room 7, Sun Building, Washington D. C., has made drawings for a fine house for Mr. Benjamin P. Gaines, at Glen-Echo-on-the-Potomac. It will be first class style of architecture and cost about \$8,000, all the latest and best improvements; also, plans have been completed for a residence for Mr. R. A. Charles, at same place, to be of gray granite, which is the native stone, it is colonial style.

John J. Deery, architect, 435 Chestnut street, is engaged on plans for R. C. Church of St.

Agnes, at Atlantic Highlands, N. J., to be of brick, shingle treatment, steam heat, stained and plate glass, church furniture, etc. Mr. Deery has now removed from 328 Walnut street to permanent rooms at the above address, where he has every facility for the practice of his profession.

Wilson Eyre, Jr., architect, 927 Chestnut street, who has for some time been engaged on drawings for the erecting of a house for the Numismatic and Antiquarian Society of Philadelphia, has completed them, and they now await the action of the Society. The plans contemplate a very ornate and well appointed structure for the display of the rare curios in their collection. When action is taken by them we shall note the same.

Harold Godwin, architect, 905 Walnut street, has made plans for addition to the Polytechnic College, Seventeenth and Cherry street, 18x36 feet, four stories and basement to contain study rooms, class rooms and others for general purposes, to have tin roof, brown stone front and press brick, heat undecided as yet, contractor, E. J. Steinmetz; also, plans for three dwellings to be erected in Brighton, near Baltimore, Md.

Theophilus P. Chandler, Jr., architect, Brown's Building, Fourth and Chestnut streets, Philadelphia, has made the drawings for a very fine residence for Mr. Edward Baltzley, at Glen-Echo-on-the-Potomac, and which is now in course of erection. It will be built of granite which is quarried from excavations on the place; its appointments will include steam heat, electric work, fine billiard hall, large conservatory and studio, and all late improvements for comfort and luxury.

James H. Windrim architect, 132 S. Third street, Philada., has completed plans for a smoking room building, to be attached to the Masonic Home, Broad and Tioga streets, Philada., to be one-and-a-half stories high, Pompeian brick Indiana Limestone trimming and to be artistic in decoration inside, to be fitted in comfortable and modern style, roof to be of tile, the building will be coated three coat work, with Adamant plastering, finished rough, tinted in Nile Green, pebble dashing to be with tinted cement mortar, the whole to be ornate in appearance.

Angus Wade, architect, 20 S. Broad street, has made drawings for an extensive addition to the home of Peter A. B. Widener's house, at Ashbourne Pa., on the North Penn. R. R. It will consist of a three-story structure, pebble-dashed, with peaked roof, and dormers covered with stained shingles and after Queen Anne style in external appearance. On interior ample provision in rooms will be made for guests and family, and electric work and steam heat introduced. All the best of sanitary plumbing and modern improvements will be attached in the list of luxurious comforts.

Rowe & Dagit architects, 122 S. Second street, Philada., have made plans for an Engine-house for the Philadelphia Fire Department, to be located at Jasper and Sergeant streets and built for William McMullin, to be three-stories high, with tower, to be built of brick, stone trimmings, with terra cotta work, iron stairs and a 204 novelty heater to be used, tin roof, pavement to be of Portland cement, iron grill work and all modern conveniences to be introduced; these plans were made prior to dissolution of the above architects, but are now being estimated upon.

Willis G. Hale, architect, 1524-6 Chestnut street, Philada., has made drawings for alterations and additions to the Jewish Foster Home, at Wingohocking Station, Germantown, Phila., brick and stone work, together with Portland Cement and Asphalt flooring and paving will be done, some copper metal will be used in capping, roofing to be of tin and tile work, iron railing and cast iron work and beams will be introduced, metal lathing will be used of the Bostwick pattern and all modern improvements introduced, to make it one of the finest institutions of the kind in this country.

Albert W. Dilks, architect, 1001 Chestnut street, Philada., is engaged on plans for extensive alterations to the residence of Col. Alex. McClure, at Wallingford, Del. Co., Pa.; also plans for a house to be erected at Northport, on the coast of Maine, and drawings for new fire-proof vaults to be built at the Home for Feeble Minded children, at Elwyn, Del. Co., Pa.; also making plans for alteration of the residence of Mrs. Gratz, 261 S. Seventeenth street and plans for conservatories to be attached to 3308 Baring street. Mr. Dilks is also busy upon a number of other structural plans which we will note when completed.

T. Frank Miller, architect, 1221 Arch street, has been engaged to draw plans for erection of a large Bank building for the Sunbury Trust and Safe Deposit Company, of Sunbury, Pa. The structure will be two stories high, built of granite, tile roof and floors, steam heat, safe vaults, electric work, iron grill work, rooms for safe renters and all the latest improvements for financial institutions will be introduced. The one side will be broken by one large gable and a series of stone dormer windows. Mr. Miller will supervise the entire work upon the building. Same architect has made plans for a fine stone residence, three stories high, for Mr. Henry C. Davis, at Twelfth and Lehigh avenue, to be sixteen room capacity, steam heat, electric work, slate roof, stained glass and plate, with all modern improvements.

At Fall River, Mass., the Globe Yarn Mills will erect an addition to their No. 2 mill this fall. It will be of brick, three stories high, and about 50x200 feet.

At East Liverpool, Columbiana Co., Ohio, at a special election held July 9th, it was decided to issue bonds to the amount of \$15,000 for the erection of a new school house. H. R. Hill, Clerk of the Board of Education, can give information.

—At Allegheny, Allegheny Co., the congregation of the First Presbyterian Church, on Arch street, has decided to erect a new church, from plans prepared by Joseph Anglin, 64 Federal street. The structure will be of grey sandstone and the cost will be \$52,000, and will be erected on the site of the present church, which is 120 feet square. There will be two towers, handsome columns, arches and dormers. One of the towers will be 30x90 feet. The auditorium and the lecture room will be on the ground floor and will seat 575 and 800 people respectively. The interior will be handsomely finished, stained glass windows, etc.; also, a \$5,000 pipe organ. J. C. McCombs and A. A. Hersperger can give information. Thomas Dalzell will erect a dwelling on Fremont street, from plans prepared by Architect McBride, of the McClintock building, Pittsburg, Pa.

—At Media, Delaware Co., the Media Fire Protective Association has been organized. Geo. E. Darlington is president, H. R. Manley, secretary, and Edward H. Hall, treasurer. The object of the Association is to hold title to all real estate and apparatus that may be purchased for fire purposes. A new fire company will be organized and necessary equipments will be purchased. George Drayton and Theodore Saulnier, of the Charter National Bank of Media, have purchased for twenty thousand dollars the Charter House property, lot 170x110 feet. It is reported that the purchasers will make no alterations at present, but it is their intention in the future to erect a fine building on the State street front for the Charter Bank; also alter the hotel so it will front on South avenue. Vernon street will be opened from East to South Media. The value of building sites in the above sections is rapidly increasing.

—At Pittsburg, George S. Orth, architect, at No. 43 Sixth avenue, has made plans for a brick residence for Major W. W. McGregor, to be erected on Highland avenue, East End. S. T. McClarren, architect, at No. 64 Fifth avenue, has made plans for a residence, to be of brick, stone and frame, for Mrs. J. M. Murtland. F. C. Sauer, architect, corner of Liberty and Sixth streets, has prepared plans for a two-story brick dwelling for Mrs. Thomas W. Lindsay; also, plans for a brick and stone residence, to be erected on Yohe street, at McKeesport, Pa., for Mrs. M. W. Whigham. W. A. Herron & Sons have sold a fine building site at Forbes and Market streets to an Allegheny business man, who will erect a handsome stone dwelling. The most important building permits issued to date, are as follows: Adam Fuss, two brick dwellings, \$6,000; John Goff, Jr., brick store and dwelling, cost \$6,800; E. H. Watkins, four frame dwellings, cost \$8,400; C. B. Wood, four dwellings, cost \$9,000; Timothy O'Leary, Jr., two-story brick dwelling, cost \$12,000; Mrs. Sarah A. Reed, for an apartment house, to cost \$12,500. The East End Gymnastic Club has decided to erect a new club house, and a site will be secured large enough for an athletic park and a good track. The property now owned by the club is worth about \$15,000, and will be sold to help along the proposed new quarters. Prof. Kirchner can give information. The Turnverein Society, of Lawrenceville, has concluded to erect a new hall, and has appointed a finance and building committee, composed of the following gentlemen: H. C. Schlegel, president, John Walch, vice president, Robert Hyman, secretary, M. A. Snyder, financial secretary, and F. G. Kellerman, treasurer. William Loeffler has purchased a lot 50x135 feet, of M. F. Hipple & Company, for \$4,000, on Rebecca street, in the ordinary plan. The purchaser will erect a handsome dwelling on the site. There is a movement on foot by citizens of the West End to bridge the Ohio river from that section to Allegheny City.

SLAG-STONE PAVEMENT,

For Sidewalks and Floors, is conceded to be the best
production of the present century.

Slag-Stone, when properly combined with the best
grades of Portland Cement, produces an artificial Stone
superior in appearance, toughness, tensile and crushing
strength to any combination known to modern science.
Its durability is greater than the best Flag-stone, and
for that reason it is cheaper than brick.

Being a non-absorbent, it is superior for **Canneries,
Slaughter Houses, Damp Cellars, Boiler Houses, Dye
Houses, etc.**

For the Cellars of Residences it expresses the high-
est standard of perfect Sanitation, as it prevents the
escape of noxious gases from the underlying soil and
will not absorb impurities. It prevents dampness, is
easily cleaned, and renders the whole house more com-
fortable and healthful.

EXCELSIOR RANGES.

* 24 Sizes and Varieties. *

For 30 years the standard of excellence in Philadelphia, and now better and handsomer than ever. No first-class house is complete without one, 75,000 now in use in Philadelphia and vicinity. Ventilated oven, oven door pedals, grates that give perfect control of fire at all times. Single oven, double oven and hot-air ranges at moderate prices. Specify the "Excelsior Ranges" if you want the best. Send to the Manufacturers,

Isaac A. Sheppard & Co., 4th STREET, AND MONTGOMERY AVENUE, PHILADELPHIA,

All responsible Dealers supply them.

for their pamphlet "Perfect Cooking" giving full description.

Men who Build HOUSES

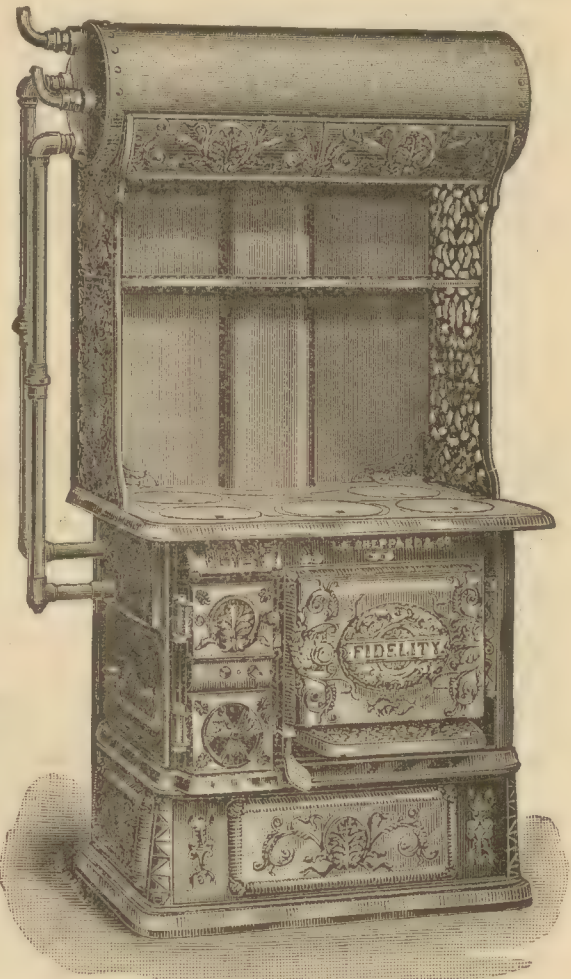

Need To Buy Ranges!

If they themselves occupy them of course the ranges should be good ones. If they intend selling or renting them good ranges in the kitchen will help the Builder or Owner to sell or rent to better advantage. In either case

Does it Pay

to put in cheap ranges of no particular reputation, when a mere trifle in the way of additional expense would provide the

"Excelsior" or the "Fidelity?"

FIDELITY RANGES.

7 and 8 inches, Right and Left Hand.

Just the thing for small Houses. No brick-work. Plumbing reduced to a trifle, Hot Water in abundance. The latest and the best of their class.

One of the Numerous Endorsements:

MESSRS. ROBERTS, TAYLOR & Co., AUGUST 8th, 1890.
 GENTLEMEN:—I have used your paints on floors of Blasius & Sons' Piano Stores, 1101-1103-1119 Chestnut Street, and find it the best paint for the purpose I ever used. The pianos were rolled over them next morning, eight hours after they were painted, without the least mark, which could not be done with any other paint. Just think of pianos, some weighing 800, 1,000, 1,200 lbs., rolled over floors painted several hours before!

Your paint, when known to practical painters and the public, will take the lead of all others in the market for all work requiring hard surface and durability, and as such I highly recommend it. Yours, Etc.,
 1527 S. 11th St., Phila. HAMILTON G. FETTUS, Painter,

These Paints (all colors) enters the pores of all material, never blisters, cracks or peels, and are unequalled for durability.

There has been a growing demand for Lamps in **WROUGHT IRON**. No one has shown a full line of these goods. As the oldest house in the Lamp business, and desiring to keep up with the times, we feel that no want of the public in our line should be neglected.

We therefore have placed on sale the finest display of these goods. Consisting of

**PIANO, BANQUET,
TABLE AND HALL
LAMPS.**

Prices are very reasonable, and designs truly artistic. We also show a fine line of

**Onyx, Gold-Plated, Silver & Bronze
LAMPS,
AT POPULAR PRICES.**

We desire the trade of suburban builders, and will be pleased to mail you illustrated sheets, with price attached.

We offer a complete outfit for a 9-room house for \$25. We have all the improved burners, and will assist by our experience, in making suitable selections.

A WORD TO THE Rent Payer.

TO BUY A HOUSE

SHOULD BE THE
AIM OF EVERY GOOD TENANT.

We offer you the following
Inducements to

OWN YOUR OWN HOME.

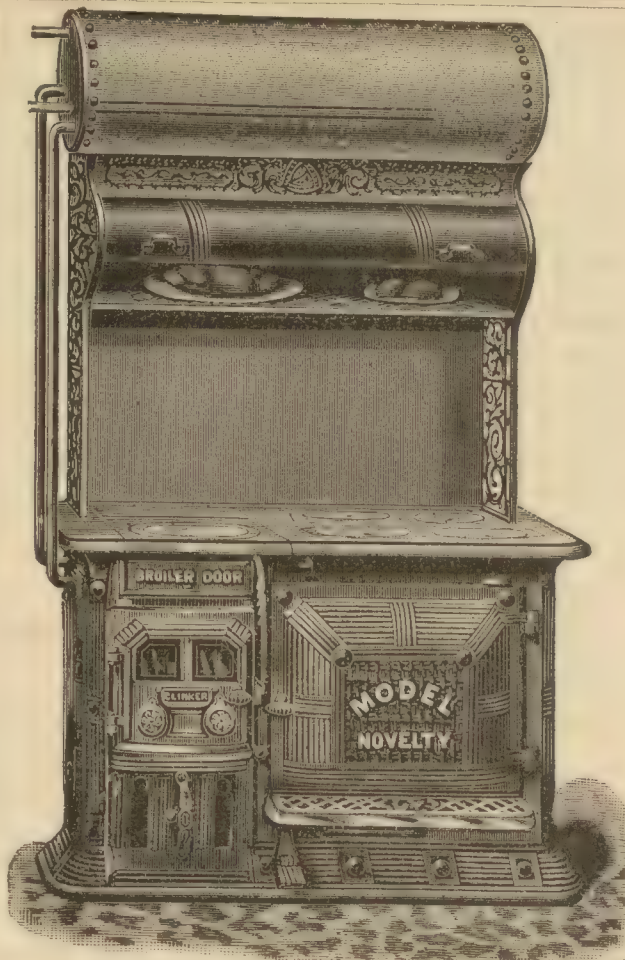

Only \$50 CASH, and
Balance \$1 & \$2 per Week.

For a nice 5 or 6 room Dwelling,
with range, bath, hot and cold water;
nice yards, dry cellars, newly papered
and painted; press brick fronts, white
marble steps and trimmings; tin roofs,
and all in perfect order.

The location is the most improving
up town, being convenient to schools
and churches, and the cars of the 2nd
and 3rd Street yellow line, that passes
the houses, which are on Clementine
Street, east of Frankford Avenue,
above Lehigh Avenue.

A LONG TIME COMING, BUT IT'S HERE.

To follow backward the transformations the houses of civilization have assumed since man became something more than cave-dwellers, would be a difficult task. The changes that time has wrought in the dwellings of human beings, are even more wonderful than the changes that have taken place in their occupants as they advanced onward and upward, into a higher civilization; for while the character of the men of the present widely differ from that of those of hundreds of years ago, yet there is little, if any difference, in their physical natures, the dwellings of civilized man distinctly marks the epochs of his civilization, and while the days of feudalism represent *perhaps*, greater extravagance among the nobility in the erection of castles and palaces of magnificent dimensions and regal splendors, the dwellings of the middle and poorer classes were then, almost entirely neglected, for the Lord or Baron, with his retainers or followers by the thousands, for defense or offense, did little, and cared less, about the home life, of the reckless crew he guided.

The present is an era of home betterment, in contradistinction to all others since civilization. Just as we estimate the intelligence or mental advancement of a race by the numerical average of those who can read and write, and not by the profound learning of the few pedagogues or savants, as was the case during the 15th century, so also do we establish conclusions as to the manner in which the people are housed. The distinctive feature of the present epoch and particularly, in our own city, is the improved character of the homes of our workers; the bath tub, with its convenient adjunct, the modern kitchen range; the cemented cellar floor, cleanly as well as healthful; the ever welcome heater, sending its genial warmth throughout the poor-man's home, at the minimum of cost, express a degree of luxurious comfort, unattainable only a few years ago, even by those of moderate means. The goose-flesh days are past, when the occupants of the then modern house, dressed and undressed in the shivering cold and washed, or went unwashed as choice dictated, because there was nothing better than the big washtub, before the kitchen fire.

The hundreds of years it took to reach these now regarded positive necessities to a modern house of the 19th century, may be regarded as extremely slow progress, and yet, as slow as it

may seem, there are other things about a house simple in themselves, but which daily endanger the lives of millions of women, all over the world and against which, there has been no remedy and until recently, no effort at all has been made either to remove the danger, or furnish a remedy.

Have you ever thought of the risk a woman runs while cleaning the outside of the windows to your homes.

Thousands of times you have seen some tidy housewife, seated upon a frail perch, many feet from the ground, struggling with the dirt on the outside of her window panes. To fall was death, and many a hundred pleasant-faced lass has fallen to her death.

The Reversible Ventilating Window.

And to think that this foolish, stupid mechanical adjustment of the windows of our homes, has been allowed to remain for hundreds of years, and that too, while men of genius have thought out intricate mechanical combinations, to save labor and lessen the risk to life and limb, to better man's condition every way and all the time, modern builders of modern homes, blindly following the self-same, old time, woman killing method, of hanging sashes and battening them in to remain forever, for what they cared, so long as ready customers were found for the houses they had for sale. The fact is, and a shame it is, the window of the modern house is practically the same as fifty years ago.

The panes have been enlarged, balancing or sash weights have been added, but really no effort has been made to improve sanitary conditions as to modern windows, or in handling them.

The accompanying illustration represents the ideal window of the 19th century. It is so constructed that it can be washed on both sides from within the room. This extremely desirable feature is accomplished by fastening the cord or chain to the bottom of the sash, instead of the top as formerly, the point of suspension acting as an axle on which the sash can be turned inside or outside with ease, the sash weights in the meantime, being suspended or fastened with an iron pin by which the sash itself, is relieved of all but its own weight. The process of removing the battens or grooves in which the sash slides, is a very simple one, for instead of permanently fastening the battens to the window casing as formerly, they are fastened with hinges, involving simply the opening or shutting, as with a door, while at the same time acting as weather strips, making each sash, wind and dust proof. It is also claimed that this Reversible, Ventilating, Window, represents the highest possible type of sanitary ventilation, as by a very simple method of locking or hinging the bottom of the upper sash to the top of the lower sash, both can be bowed outward or inward, or the angle of either sash changed to suit the wishes of the operator, in fact changing to a thousand angles if desired, thereby entirely controlling the currents of air, without impairing the ventilation in the least.

The claims set forth for the Reversible, Ventilating Window Sash, are many and well founded:

1st The sash cannot swell and stick fast in the frame.

2d. The window can be left open night or day, for ventilating, without fear of danger from rain driving in.

3d. It can be bowed open at any angle, to catch the air currents from any direction.

4th. It combines window and awning in one, removing the necessity for separate awning frames.

5th. It is the safest burglar proof known, having four separate fastenings, which must be destroyed before an entrance from the outside can be effected.

6th. It can be reversed with a touch and the glass washed both sides from within the room.

7th. It combines weather strip permanently with the window, doing away with rattling, rendering the window also, entirely weather-proof.

8th. Its cost is about the same as the ordinary, old-fashioned window.

Models of different sized windows, can be seen at the Offices of the Company, Rooms Nos. 17 and 18, No. 1430 South Penn Square, and at the Master Builders' Exchange.

—At Frackville, Schuylkill Co., the Frackville and Gilbert Light, Heat and Power Company has been incorporated, with capital stock of \$40,000.

—At Berwyn, Chester Co., the I. O. O. F. Lodge, No. 998, has purchased a lot on Waterloo avenue, 90x115 feet, from F. H. Stouffer. In the near future they will erect a handsome brick and stone structure, three stories high, and about 60x40 feet. The first floor will be fitted up for stores, the second for a public hall and the third for the Lodge room.

—At Johnstown, Cambria Co., the contract price, for which the Edgemoor Company will erect the Franklin street bridge is \$15,793, without the hand railing, which will cost about \$500. The Cambria Iron Company has awarded Messrs. Hoover, Hughes & Company a contract to erect twenty-five five and six-roomed dwellings in the village of Westmont.

—At Edge Hill, Montgomery Co., Charles E. Mathers, of Philadelphia, has purchased two lots and will erect a residence in the spring. Charles C. Haines, of No. 1513 Frankford avenue, Philadelphia, has purchased two lots upon which he will erect a residence and barn. The Dolan Brothers, iron merchants, of Philadelphia, have selected two lots on the Limekiln pike, on which they will erect a double dwelling.

—William Glasco, James J. Ryan, Jas. Potter, Allen T. Lewis, Chas. E. Ways, Thomas M. King, Lyman Le P. McCarty, Samuel Sproul, B. F. Jerrett, H. P. Summers, W. K. Harris and Wm. H. Addicks, Esq., have incorporated the Milmont Suburban Home Company, with a capital of \$100,000, and are contemplating building a town at Milmont, on the B. and O. R. R., between Fairview and Ridley station.

—At Pittsburg, H. A. Stout, book-keeper for Tibby Brothers, has purchased a lot 95x100 feet, at the corner of First avenue and Western street, for \$1,000, and will erect a residence. Architect T. D. Evans, Lewis Block, has prepared plans for two brick dwellings for W. J. Faucett, to be erected on Fifth avenue. The most important permits issued to date are as follows: To Edward Kelly Jr., six four-story dwellings, to be erected on Wylie avenue, cost \$40,000; E. M. O'Neil, fifteen brick and stone dwellings, cost \$53,500; W. H. McKelvey, stone residence, cost \$40,000; Bovaird and Seyfany, brick warehouse, \$20,000; R. H. Heron, brick residence, cost \$10,000.

FOR TWENTY YEARS
EHRET'S
Slag-Stone Composition
ROOFING,

has stood the severest tests and in no case has it ever failed.

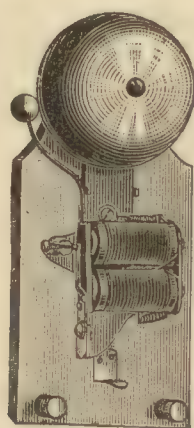

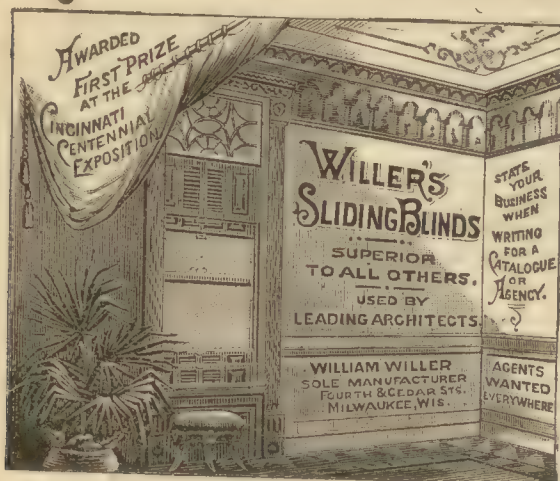

It is Fire Proof, as well as Damp and Moisture proof. It never expands or contracts; it is not affected by **Steam, Acids, Gasses, Vapors** or other injurious influences, that would render a metal roof perfectly useless in a few weeks. It is air-tight and is not affected by atmospheric influences of any kind; it is durable and reliable in winter and summer, and positively requires no care or attention whatever. It will out-last the BUILDING and for **Factories, Chemical Works, Boiler and Engine-houses, Depots, Factories, Mills and Warehouses,** it is without an equal. It costs less than tin or slate requires no painting, can be walked on without injury and must not be considered in the same light and prejudice usually bestowed upon what are known as Tar Roofs.

BEWARE OF IMITATIONS, for the durability of our Roofing is not only owing to our great care in laying on a roof; but also in the scientific preparation of the Material we use. Circulars and testimonials sent upon application.

We have no AGENTS, Manufactured and applied ONLY by

EXCELSIOR RANGES.

* 24 Sizes and Varieties. *

For 30 years the standard of excellence in Philadelphia, and now better and handsomer than ever. No first-class house is complete without one, 75,000 now in use in Philadelphia and vicinity. Ventilated oven, oven door pedals, grates that give perfect control of fire at all times. Single oven, double oven and hot-air ranges at moderate prices. Specify the "Excelsior Ranges" if you want the best. Send to the Manufacturers,

All responsible Dealers supply them.

Isaac A. Sheppard & Co., 4th STREET, AND MONTGOMERY AVENUE, PHILADELPHIA,

for their pamphlet "Perfect Cooking" giving full description.

Men who Build HOUSES

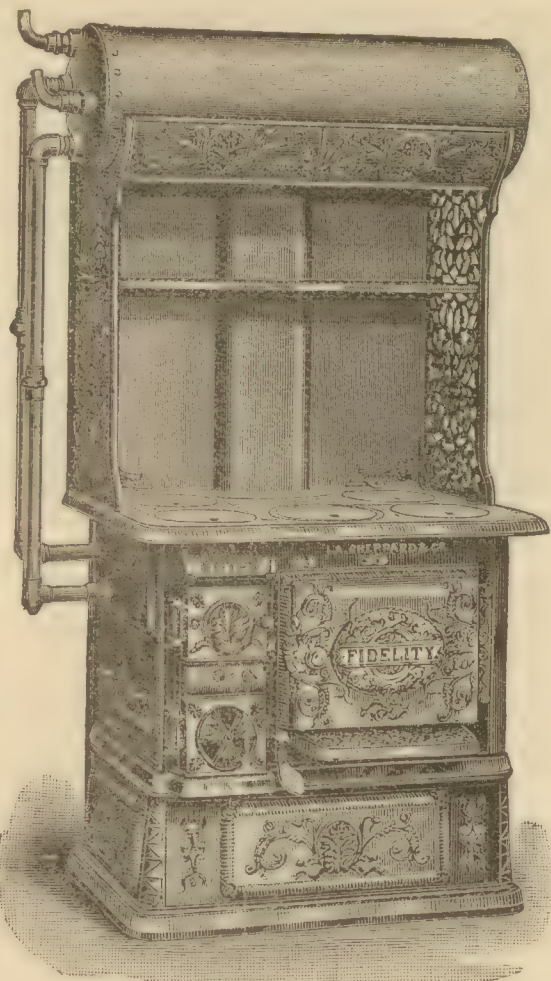

Need To Buy Ranges !

If they themselves occupy them of course the ranges should be good ones. If they intend selling or renting them good ranges in the kitchen will help the Builder or Owner to sell or rent to better advantage. In either case

Does it Pay

to put in cheap ranges of no particular reputation, when a mere trifle in the way of additional expense would provide the

"Excelsior" or the "Fidelity ?"

FIDELITY RANGES.

7 and 8 inches, Right and Left Hand.

Just the thing for small Houses. No brick-work. Plumbing reduced to a trifle, Hot Water in abundance. The latest and the best of their class.

ed. James B. Shannon has plans for a five-story
business building, which he will erect at the
corner of Main and Shetucket streets next year,
the cost will be about \$65,000. Plans have been
completed for additions to the Fort Griswold
House.

STIFFENED FIRE-PROOF WIRE LATHING

In use in over 300 buildings in the Principal Cities of the Country.

Recommended and used by the Leading Architects.

Pays for itself in decreased cost of insurance—will not "sag" under the heaviest coats of mortar—ensures a perfect ceiling, free from cracks. Its fire-resisting qualities have been demonstrated in three public tests—detailed accounts of which will be mailed to any address upon request.

One of the Numerous Endorsements:

Messrs. ROBERTS, TAYLOR & Co., AUGUST 8th, 1890.
GENTLEMEN:—I have used your paints on floors of
Blasius & Sons' Piano Stores, 1101-1103-1119 Chestnut
Street, and find it the best paint for the purpose I ever
used. The pianos were rolled over them next morning,
eight hours after they were painted, without the least mark,
which could not be done with any other paint. Just
think of pianos some weighing 800, 1,000, 1,200 lbs., rolled
over floors painted several hours before!

Your paint, when known to practical painters and the
public, will take the lead of all others in the market for
all work requiring hard surface and durability, and as
such I highly recommend it. Yours, Etc.,

OPINIONS OF THE PRESS.

[From the Northwestern Architect.]

MINNEAPOLIS, MINN.

"As is compatible with this progressive period, even wall plaster has succumbed to inventive genius, and 'the day is nearly done' when our handsomely decorated walls and ceilings shall be ruined by reason of the utter unreliability of the old style mortar. To meet this demand for a non-porous plaster, Adamant has appeared on the market, and is now being manufactured in nearly every State in the Union."

[From the Scientific American.]

"Some of the advantages Adamant possesses above the other plaster is the extreme hardness of the wall. It will neither crack nor crumble. It is a strong support to a building. It does not swell timbers by an absorption of the moisture, as the material itself absorbs most of it. It dries so quickly after it is applied to the wall, that in a few hours frost will have no effect on it. We are convinced that this Adamant is destined to revolutionize the business of house plastering."

[From the Baltimore Commercial.]

"Adamant makes a wall as hard as marble, at a slight cost."

[From the Leader and Herald.]

CLEVELAND, O., March 22, 1889.

"The problem has been to provide a substitute that would not only produce a perfect wall, but be comparatively cheap and easily applied as well. Repeated tests, under the most exacting conditions, clearly prove that such a happy combination has at last been secured in the plastering material called 'Adamant,' now being so extensively introduced in this city."

[From the Builder, Decorator and Wood-Worker.]

PHILADELPHIA, PA.

"Nothing in house building has so long withstood the 'march of improvement,' notwithstanding it has failed to give a substantial wall, while many houses become defaced and old in a few months on account of broken walls and ceilings. 'Adamant' obviates all this, and is the coming wall plaster."

[From the New York Commercial News.]

"There is not the least doubt about 'Adamant' wall plaster will last as long as the building upon which it is used."

PHILADELPHIA, WED'Y. OCT. 15, 1890.

For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communications for publication may be left.

We voice the sentiment of the citizens of Philadelphia.

FOR MAYOR,
Edwin S. Stuart.

He is Honest, Capable and Incorruptible.

THIS dear old town will soon be relegated to fourth place in point of population if the rapid transit problem is not soon solved, and in such a manner as to provide for the people's comfort and convenience, as well as their quick transportation to and from their homes. The expansion of a city's limits is almost entirely one of transportation, and while builders are willing to erect homes for the people in new districts, yet purchasers are controlled largely by the accessibility of the points designated, and the failure or success of builders depends upon the enterprise of the passenger companies, just as much as commercial prosperity depends upon the facilities offered by freight carrying companies. The present status of this city, viewed from a business standpoint, and, which of course, involves its growth and expansion, is not very gratifying. There is too much politics and too little of that deep felt interest which warms to the work of betterment and which makes the people a unit as to city affairs. There is too much party worship and too much apathy on the part of the people as to city affairs to hope for that relief

which has been much talked about, but which, it seems, is never to come. Baltimore has commenced work on her Belt Line railroad, while our own proposed Belt Line has made no progress, except in calling forth the most violent opposition from those who are inimical to every enterprise that does not embrace their own profit and gain. There is little use in whining, the citizens of this municipality have themselves to blame for the present miserable and humiliating position Philadelphia now occupies among the cities of the first class, for go where you will, the spirit of enterprise is expressed everywhere but here. Rapid transit, grand boulevards, improved street pavements, better water supply, everything to enhance the value of real estate and the prosperity and comfort of the people. The death grip of political influence and railroad corporations is fastened upon everything in and about this city. The members of Councils fear and submit to it, and even permit the officers of railroad companies on the floors of our council chambers to dictate terms as well as measures. The daily press, with one or two exceptions, might as well be owned body and soul by the vampires that are sucking the life blood out of the people of Philadelphia. With hands down the editors view the interesting as well as distressing work of disintegration and deterioration and the scorching, withering words of denunciation that might have saved the city years ago have never been uttered. Self defence would have aroused any other people years ago. The edge of the silver lining of the great dark cloud that has hung over the city for years is at last showing itself in a most practical way, and no thanks either to the City Fathers or the daily press. The Operative Builders of this city, with an earnestness fraught with despair, have, in a most practical way, commenced a crusade for rapid transit and decent transportation facilities. A committee consisting of Wm. T. B. Roberts, Wm. C. Merritt, Charles M. Baker, Thos. H. Parks, J. H. Virkler and Thomas G. Hunter has been appointed, and the people can rest assured that there is to be no swerving of purpose, for rapid transit must come.

J. E. & A. L. Pennock, contractors and builders, 305 Walnut street, Phila., will be the contractors for the erection of extension of the Jewish Foster Home, at Mill and Chew streets, Germantown and for which, Willis G. Hale, architect, drew the plans, heretofore noted.

The work of erecting the church of St. Leo, at Tacony, will begin at once, under Nicholas Cavanaugh the contractor, supervised by the architect, Frank R. Watson, 518 Walnut street, this structure has been fully noted in previous issues of this journal.

David Mullen contractor, of New York, has received the entire contract for the work upon the Mutual Life Building, at Tenth and Chestnut streets, Philada., upon which work has begun and which has been fully described in previous numbers of this journal.

The Presbyterian Hospital, Thirty-eighth and Powelton avenue, proposes to make some alterations and additions to its buildings, the surgical ward and other portions will receive attention. A new wing to boiler-house and a tunnel and carriage house will be built.

The Penna. R. R. is making plans for the erection of a handsome station at Engleside station in Fairmount Park and which will be quite an accommodation to the residents in that locality, it will be a permanent structure and quite ornate in construction.

Work has been commenced on Carey Bros., Mills, at Tenth street and Susquehanna avenue, under the supervision of Geissinger & Hale, architects, 102 So. Twelfth street, who drew the plans for the structure and fully noted in a previous number of this journal.

R. C. Ballinger & Co., contractors, Lucas building, Chestnut and Juniper streets Phila., have been awarded the \$200,000 contract to erect the Goshen Car Manufacturing Co.'s works at Goshen Va., and will make preparations to begin at once, this project has been noted in full in previous number of this journal.

The old tavern standing at the junction of Old York road and Germantown avenue, has been sold to James E. Cooper, 1826 N. Broad street and it is the intention of the purchaser, to erect thereon, a handsome Market-house for the accommodation of that section of the city, this project will be carried out as soon as details are completed. No contracts are let.

Contractors are now estimating on the David Brown Hall, dormitory, to be erected at Prince-

ton College, N. J., this structure will be four-stories high, quadrangle in shape, each study to have a dormitory, with open fireplace and other conveniences. Brown-stone and Pompeian brick will be used for walls and all late improvements introduced.

The Rush Hospital Board of trustees, for the treatment of Consumptives, has elected the following officers: Hon. W. M. Ashman, president, Mr. William C. Bullitt, vice president and Mr. Joseph De F. Junkin, secretary, they have also appointed a committee on building site, which has been directed to report at an early day and purchase the same.

A petition has been presented to City councils by residents in and about the vicinity of Oxford street and the Penna. R. R., asking for the erection of a bridge at that point, over the railroad, it is much needed as a means of accommodation to the building operators and persons residing west of the line of railroad; also as a means of entrance to Fairmount Park in that locality.

The Lehigh Valley Railroad, has now secured a valuable property on Delaware avenue, north of Arch street, known as wharfs 8 and 8½ containing a large area, extending through to Water street on the west, as this comprises the desired terminal in this city, it is the intention at an early day to make considerable improvement in establishing a depot for passenger and freight, thus utilizing entirely, its own line, the present wharf and buildings will be remodeled entirely and adapted to railroad uses.

The Camden Wheelmen's Club, now located at Fifth and Cooper streets, Camden, N. J., have secured option on a piece of ground at Cooper and Second streets, 50x150 feet, upon which they propose to erect a handsome Club-house; the money necessary to accomplish this, has been proffered by a number of gentlemen of means, friends of the club; the structure proposed, will contain billiard rooms, bowling alley, gymnasium, wheel room, library and several offices; the exterior will be very handsome.

Thomas P. Twibill, real estate operator and builder, 608 Chestnut street, Phila., has practically set to work on his large operation at "Columbus Park," in the 26th Ward and proposes to erect several hundred fine houses, besides the opening of a large number of streets. Mr. Twibill is not waiting for the authorities to move in this matter of street opening but is doing much upon his own account, this enterprise will be a unique one when finished, as it will be furnished with a park for pleasure, at the expense of the owner, the streets will be laid with artificial and stone pavements, houses of press brick, stone trimmings, electric bells and all modern conveniences will be introduced.

S. B. Fleisher, firm of S. B. & B. W. Fleisher, Star Braid Manufacturers, Sixth street above Minor, chairman of the building committee of the Reformed Kenneseth Israel congregation, now worshipping on Sixth street above Brown, says the proposed Temple to be erected on the ground recently bought on Broad street above Susquehanna avenue, will be one of the grandest church edifices in this city, when completed its size will be about 120x160 feet. A large pipe organ will be placed on the interior, stained and plate glass will be largely used in the windows, the seating will be in amphotheatre style, it is desired to have seven class-rooms for Sunday school purposes, as well as parlors and committee rooms, the acoustic properties must be of the best and it is proposed to have exits so arranged that the temple may be emptied in less than three minutes. Mr. David Kline, is president of the congregation. Architects are invited to submit sketches of modern style of architecture, the building committee is to meet at an early day, when probably premiums will be offered for the best designs, from a certain number. The structure will be of stone and will be fitted for electric light, neither pains nor expense will be spared to make it grand, comfortable and imposing.

At Avon-by-the-Sea, Monmouth Co., Esther Rice will erect a cottage to cost \$2,500. J. G. Burroughs & Son have been given the contract.

At Atlantic Highlands, Monmouth Co., Messrs. Fort & Frazer have been given the contract for the erection of a cottage, for Sarah A. Quigley, to cost about \$3,000.

At Ocean Grove, Monmouth Co., M. De Bevoise will erect a cottage to cost \$2,600. Warren Brown is the contractor.

At Atlantic City, the Hotel Chetwood, under the management of Mrs. Annie Grubb, of Wilmington, Del., will be enlarged, and a number of improvements introduced.

At Trenton, plans are being prepared for a number of improvements to the State Capitol. A third story will be added to a portion of the building, and other improvements will be made.

At Paulsboro, Gloucester Co., W. J. Adamson will erect two or three dwellings during the winter. The secretary of the Land Company will erect a dwelling. Mr. Polisch has bought a lot, and will erect a dwelling.

At Bloomfield, Essex Co., a number of well-known church architects have been invited to prepare plans for the new church to be erected by the congregation of the Westminster Presbyterian Church, of Bloomfield.

At May's Landing, Atlantic Co., it is reported that a New York syndicate has leased, from Charles R. Colwell, of the Weymouth Paper Mills, a tract of land containing 1500 acres, upon which, it is said, the new purchasers contemplate the erection of a large mill.

At Montclair, Essex Co., the members of the Congregational Church contemplate extensive improvements to the present structure, including a new transept, increasing the seating capacity 400. A chapel will also probably be erected for Sunday-school purposes.

At Spring Lake, Monmouth Co., a fire company will be organized at an early day. Mr. E. L. Hall or Dr. W. W. Trout can give information. J. E. Adams has been given the contract to erect a handsome cottage, at a cost of \$5,000, at A street and Eighth avenue, for George Off, a Philadelphia grocer.

At Vineland, Cumberland Co., the corner-stone has been laid for the new building for the New Jersey Training School for Feeble Minded Children, which is under the management of Rev. S. O. Garrison. The new building will accommodate about 60 children, and will cost \$15,000.

At Long Branch, Monmouth Co., Dr. S. H. Hunt, president of the Monmouth Memorial Hospital Association, has purchased, for the society, the Central Hotel and two acres of adjoining property. The hospital will be removed as soon as possible from its present temporary quarters to its new home.

At Collingswood, Camden Co., A. H. K. Dougherty has the contract to erect four cottages this fall. Mr. Guthrie, of Camden, has purchased a lot at the corner of Linwood and Dayton avenues, and will erect a dwelling. Messrs. Patterson & Cobb has a contract to erect a Queen Anne cottage at the corner of Dayton and Park avenues for the Rev. Milton Relyea.

At Newark, the State Board of Education has approved the plans for the new Normal School building, drawn by L. H. Broome, 47 Montgomery street, Jersey City. Staehlin & Steiger, 810 Broad street, have prepared the plans for the new addition to the County Lunatic Asylum. The cost will be about \$20,000. The trustees of the Newark Technical School are considering the plans submitted by different architects for a building on the new site. A number of alterations will be made to the plans before being accepted. An ordinance is before the City Council providing for the paving of a number of streets in that city.

At Maplewood, Essex Co., the congregation of the Methodist Episcopal church, of which Rev. John J. Monon is the pastor, will erect a new building to cost about \$6,000. The material will be frame, brick and cement, hard-wood interior finish, and pews. The plans have been prepared by Charles P. Baldwin, 802 Broad street, Newark, N. J. The same architect has plans for seven dwellings to be erected for J. D. Condict, of 40 Wall street, New York, at Arlington Place, Jersey City, 50x20 feet, three stories high, pressed brick, cathedral and plate glass, hard-wood interior finish, wood mantels, open grates, electric bells, and all modern improvements.

—At Johnstown, Cambria Co., the corner-stone of the new school building of St. John's Catholic Church will be laid October 19th.

—At Langhorne, Bucks Co., a handsome stone residence will be erected on the site of the old Caleb Taylor mansion, which is now being demolished by Theodore Phillips, of Philadelphia.

—At West Chester, Chester Co., the water committee appointed by Councils have been prospecting in the Eastern part of West Goshen township for a larger supply of water for the town.

—At Parkesburg, Chester Co., there is a movement on foot to organize a stock company to manufacture steel railway ties from patents of D. Y. Wilson, of Highland township.

—At Reading, Berks Co., a meeting will be held on the 20th instant by the congregation of the First Baptist Church to determine the question of erecting a new church.

—At Royer's Ford, Montgomery Co., Mr. W. L. Lathaw will erect a fine residence at Chestnut street and Tenth avenue. Mr. Lathaw has also bought four lots at Winter street and Third avenue.

—At Yardley, Bucks Co., the Improvement Company has sold three building lots to Sheriff Joseph R. Comley, of Doylestown, and his brother, E. V. Comley. Each lot is 75 feet front. The purchasers will erect a handsome double dwelling on the site.

—At Columbia, Lancaster Co., the Keystone Hook-and-Ladder Company is the name of the newly organized company. Apparatus and equipments will be purchased. Samuel Daron has broken ground for the erection of two new dwellings.

—At Little Britain, Lancaster Co., on the 23d of October, at the residence of J. J. Jamison, a jury appointed by the Court will meet for the purpose of viewing a site for an inter-county bridge over the Octororo, from Little Britain, to Lower Oxford.

—At Chambersburg, Franklin Co., work will soon be begun on the new machine-shops of the Cumberland Valley Railroad. The machine and erecting shops will each be 50x150 feet. The other building will be 50x200 feet. The material will be brick, skylights in the roof. The company will advertise for bids in a short time.

—At Tremont, Schuylkill Co., the water company has contracted for the erection of a dam 400 feet long and 20 feet deep, to be situated about one mile-and-a-half from the town of Rausch Creek; also, contract for the laying of pipes from the reservoir to Tremont. Other adjoining towns will receive of the same supply. It is expected to have the work completed by May 1st next.

—At Edge Hill, Montgomery Co., Samuel A. Fenton, of Glenside, has purchased two fine building lots. Jas. Nile, of Jenkinville, has also bought a lot on the Limekiln Pike, on the Edge Hill Company's ground. The Board of School Directors, of Abington township, will have a meeting at an early date to decide on a site for the erection of a school house.

—At Media, Delaware Co., a new Safe Deposit Company has been organized with a capital of \$300,000. The president is George Drayton, of the Farmers' Bank of Media. The company will commence business in the Charter House property, recently purchased by George Drayton and Theodore Saulmer, and in the spring arrangements will be made for the erecting of a handsome building at the corner of State street and South avenue.

—At McKeesport, Allegheny Co., the water-works superintendent has recommended the addition of two compound condensing engines, an additional rising main and a new power house, at an estimated cost of \$40,000. C. E. Manby will erect two brick dwellings in East Park. Ground will soon be broken for the Dimer building, to be erected on Fifth avenue. The brick work will soon be commenced on the new block for W. E. Hartman, on Courison street.

—At Lancaster, Lancaster Co., it is thought that an election will be held to vote upon the question of bonding the city for about \$200,000, for the purpose of building a

new reservoir, laying water-pipe and purchasing a pumping-engine. A number of plans have been submitted for the proposed new school, among which are plans drawn by E. F. Bertolette, 257 S. Fourth street, Philadelphia, F. E. Davis, Charles and Fayette streets, Baltimore, Md., and some others. No plans have as yet been accepted. Dr. J. I. Wickersham, Dr. Bolenius and George A. Reynolds can give information.

—At Pittsburg, the Academy of Music, owned by Col. E. Allen, was damaged a few days since by fire to the extent of \$10,000. It will be extensively repaired at once. Harry Williams is the manager. Black & Baird, 95 Fourth avenue, have sold the United States Iron and Tin Plate Company a tract of land at Demmler Station, B. & O. R. R., containing thirteen acres, for \$22,000. It is said the purchasers will erect extensive tin plate works. Architect Cornelius, Yoder Building, has made plans for a hall to be erected at Coraopolis. The first story will be fitted up for stores. F. C. Sauer, Sixth and Liberty streets, has drawn plans for additions and improvements to the residence of J. D. Callery, contract not let; also, plans for a number of frame dwellings for the Pittsburg and Southwestern Land Company. Edward Stotz, 605 Smithfield street, has prepared plans for a frame dwelling for Mrs. C. L. Dawes, at a cost of \$7,000. It will contain all modern improvements. The same architect has drawn plans for a dwelling for S. Keighley, to cost \$4,000; also, plans for a dwelling for Rev. T. W. Wilkenson, to be erected at Bellevue, at a cost of \$3,600; also, plans for a dwelling for H. W. Taylor, of Pittsburg.

SLAG-STONE PAVEMENT,

For Sidewalks and Floors, is conceded to be the best production of the present century.

Slag-Stone, when properly combined with the best grades of Portland Cement, produces an artificial Stone superior in appearance, toughness, tensile and crushing strength to any combination known to modern science. Its durability is greater than the best Flag-stone, and for that reason it is cheaper than brick.

Being a non-absorbent, it is superior for Canneries, Slaughter Houses, Damp Cellars, Boiler Houses, Dye Houses, etc.

For the Cellars of Residences it expresses the highest standard of perfect Sanitation, as it prevents the escape of noxious gases from the underlying soil and will not absorb impurities. It prevents dampness, is easily cleaned, and renders the whole house more comfortable and healthful.

for their pamphlet "Perfect Cooking" giving full description.

Men who Build HOUSES

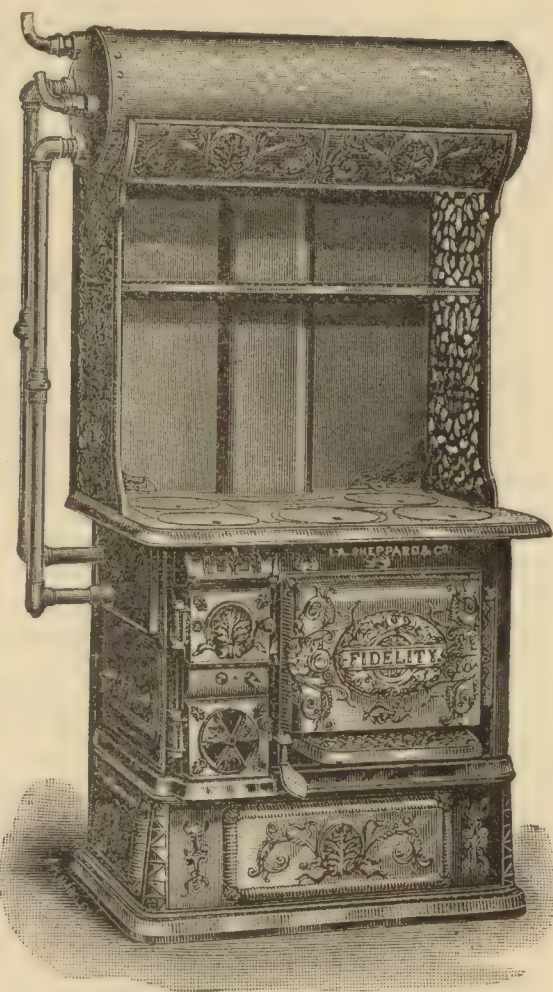

Need To Buy Ranges!

If they themselves occupy them of course the ranges should be good ones. If they intend selling or renting them good ranges in the kitchen will help the Builder or Owner to sell or rent to better advantage. In either case

Does it Pay

to put in cheap ranges of no particular reputation, when a mere trifle in the way of additional expense would provide the

MESSRS. ROBERTS, TAYLOR & CO., AUGUST 8th, 1890.
GENTLEMEN:—I have used your paints on floors of Blasius & Sons' Piano Stores, 1101-1103-1119 Chestnut Street, and find it the best paint for the purpose I ever used. The pianos were rolled over them next morning, eight hours after they were painted, without the least mark, which could not be done with any other paint. Just think of pianos, some weighing 800, 1,000, 1,200 lbs., rolled over floors painted several hours before!

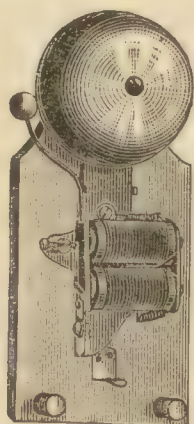

Your paint, when known to practical painters and the public, will take the lead of all others in the market for all work requiring hard surface and durability, and as such I highly recommend it. Yours, Etc.,

There has been a growing demand for Lamps in **WROUGHT IRON**. No one has shown a full line of these goods. As the oldest house in the Lamp business, and desiring to keep up with the times, we feel that no want of the public in our line should be neglected.

We therefore have placed on sale the finest display of these goods. Consisting of

**PIANO, BANQUET,
TABLE AND HALL
LAMPS.**

Prices are very reasonable, and designs truly artistic.
We also show a fine line of

**Onyx, Gold-Plated, Silver & Bronze
LAMPS,
AT POPULAR PRICES.**

We desire the trade of suburban builders, and will be pleased to mail you illustrated sheets, with price attached.

We offer a complete outfit for a 9-room house for \$25. We have all the improved burners, and will assist by our experience, in making suitable selections.

THE above wonderful showing of a single operative Builder, is no doubt without a parallel in the whole World. Commencing in 1885, with but seven houses as his year's work, Mr. John J. Cassidy, Builder and Owner, office at Moyamensing avenue and McKean street has gone onward and upward, until his building operations for this year, exceed in point of numbers, those of any other builder.

Mr. Cassidy has begun and will complete during 1890, **Three hundred and three Dwelling Houses**, of which, he has sold to date, **Two hundred and twenty-three**, leaving to be finished and disposed of by the month of December, 1890, only Eighty.

This phenomenal success is attributed to the fact, that Mr. Cassidy's houses are marvels of comfort and convenience, broad and well paved and well lighted streets, cemented cellar floors, electric work in each house, inviting porches and verandas, in short, well planned and perfectly constructed houses, with pleasant surroundings.

As a rule, the buildings disposed of have been sold before completion, in lots running up to twenty-five, to a single purchaser, for investment.

Mr. Cassidy's future operations will even surpass his present high record as a builder of homes. Splendid opportunities will be offered to those desiring safe and profitable investments. Mr. Cassidy can be interviewed at his

Charles W. Bolton, architect, 1510 Chestnut street, Phila., has made drawings for interior alterations to the Reformed Church, at Milton, Pa., a new pipe organ and choir furniture; also stained glass windows and other detail work are included; also plans for a wind mill for Dr. Stewart, at Paulsbrook, Pa. 14x14 feet square, 75 feet high, and plans for an additional building to the Brainerd Presbyterian church, Easton, Pa., new church furniture, contract let.

Addison Hutton architect, 400 Chestnut street, Phila., having remodeled the plans for the Physical Laboratory, for Lehigh University, at Bethlehem, Pa., is now inviting new estimates upon the structure, the drawings very much curtail the building and alter entirely, the perspective, but the materials in the former plans are adopted in the latter, being stone, brick, iron and some terra-cotta, the plans were revised in the interest of economy.

Edward J. Paxon and J. C. Worthington, architects, 1305 Arch street, Phila., have drawn plans for a proposed public building, to be erected at Chester, Pa., under the appropriation made by Congress for that purpose, the plans contemplates a two-story building, with a tower and public clock, but as the plans and contract are but suggested and offered, there is nothing definite to report, all estimates will however receive consideration in a few days and contract awarded.

G. W. & W. D. Hewitt architects, Bullitt building, Fourth below Chestnut street, Phila., have made drawings for a large hotel to be erected at Tacoma, Washington, the property of the Tacoma Land Company, among whom are noted from this city, Mr. John C. Bullitt, C. B. Wright and others, in size it will be 200x250 feet and six stories high, of buff brick, stone trimmings and fitted with elevators, electric work, and all modern conveniences. At South Amboy, Middlesex Co., the Baptist congregation contemplate the erection of a new church edifice.

At Asbury Park, Monmouth Co., the First M. E. Church will purchase a pipe organ, to cost from \$2,500 to \$3,000. Messrs. C. A. Atkinson and J. L. Coffin constitute the committee.

The Hon. W. W. Phelps has purchased the Griggs' place situated between Hackensack and Englewood, when his mission to Germany has expired it is understood that he will build on the Teanick estate.

At Collingswood, Camden Co., Captain Reed has purchased a lot on Stokes' avenue, and will erect two cottages. \$2,000 have been raised toward the erection of the proposed new Baptist Church.

At Mount Holly, Burlington Co., the Mount Holly Carpet Mills have been purchased by James Dunlap & Co., of Philadelphia, additional buildings will be erected at once. About five hundred hands will be employed.

At Cramer's Hill Camden Co., the contract for the electric light has been given to the National Electric Light Company, of Philadelphia. The erection of the plant will begin in a short time, and it will be located at the eastern end of Cleveland avenue, North Cramer's Hill.

At Camden, the house, 449 Kaighn's avenue, has been leased by the Commercial Club, and will be fitted up for club purposes. Herman T. Frischs, Frank Mester and August Heltmannsperger have incorporated an athletic association, with a capital of \$25,000. A hall will be erected on Pine street, near Fifth street.

At Hagansville (not a P. O. town), a short distance from Egg Harbor, Atlantic Co., a large tract of land has been sold which will be cut up into about two thousand building lots and a number of dwellings erected, plans for which are now under way. Jos. S. Hagan, real estate broker, 502 Walnut street, Phila., is the purchaser of the tract and can give information.

At Red Bank, Monmouth Co., definite steps have been taken toward the erection of a church by the Baptist congregation, of which Rev. J. K. Manning, D. D. is the pastor. The style of architecture will be Romanesque, and the dimensions, 86x102 feet, with a tower at the front 72 ft. high. The interior finish will be handsome, and all modern improvements will be introduced.

It is reported that the Baltimore and Ohio Railroad will construct a new road through South Jersey to Somer's Point, and thence across to Sea Isle City and down to Cape May. The new line will go through Weymouth, May's Landing, McKee City, Linwood and Steelmansville. The route is said to be the same as the one proposed by the Reading Road, but which was abandoned for other plans.

At Spring Lake, Monmouth Co., a meeting has been held to take into consideration the purchase of a first-class steam fire engine and two reels with 1000 feet of hose to each reel. A committee was also appointed to look up a suitable site on which to erect an engine house. Mr. E. L. Hall or Dr. W. W. Trout can give additional information. Although nothing definite has been determined, it has been suggested that a building be erected suitable for a town hall, a casino, and for the use of the fire department.

At Atlantic City, the company to erect the new hotel, at the foot of Massachusetts avenue, will be known as the Oriental Hotel Company. About \$600,000 will be spent on the hotel, which will contain four hundred rooms, all finished in a most elaborate manner. Mr. J. J. Roberts, the proprietor of the Vermont House, has purchased the Revere House, on Park avenue, and will take possession about the 1st of November. In the last report of the Committee on Education, it was recommended that steps be taken toward increased school accommodation, and the advisability of erecting another school house. Saml. B. Rose, J. B. Champion and J. W. Clark constitute the committee.

Through Pennsylvania.

When any of the following are not post office towns they will be so designated.

—At Thurlow, Chester Co., the congregation of the A. M. E. Zion Church will erect a chapel.

—At Manada Hill, Dauphin Co., Dr. Daniel Bolton will erect a residence.

—At Sharon Hill, Delaware Co., a new Methodist Church will be erected.

—At Shamokin, Northumberland Co., the town will have an electric-light plant.

—At Salfordville, Montgomery Co., Benjamin Alderfer will erect a dwelling.

—At Centre Square, Montgomery Co., the congregation of St. John's Church has decided to erect a brick parsonage to cost \$3,000.

—At Mechanicsburg, Cumberland Co., Mr. J. Hurst has begun to tear out the front of his building preparatory to putting in one of iron.

—At Chester, Delaware Co., the Wunderlich property, at Third and Market streets, has been selected as the site for the new public building.

—At Grapeville, Westmoreland Co., it is reported that a dynamo factory will be erected on the Good tract of land, near Grapeville station.

—At Boyertown, Berks Co., Frank Leidy will erect a new livery stable on the site of his old and present one.

—At Ward, Delaware Co., it is reported that Messrs. A. Scott & Son will erect a large building for store, shop and other purposes.

—At Langhorne, Bucks Co., Harry C. Gillingham has sold his residence on Bellevue avenue, and it is thought he will purchase a lot and erect a new one thereon.

—At Point Marion, Fayette Co., a committee of the School Board is looking for a site for a new school building. Mr. Gans can give information.

—At Fredericksburg, Lebanon Co., J. H. Lick will erect a building for store purposes. Messrs. Reinoehl & Company have been given the contract.

At Washington, Washington Co., the Baptist Church congregation will erect a handsome new church on the site of the present one, which will be sold and removed.

—At Lehigh, Carbon Co., the Carbon County Manufacturing Company has been organized with a capital stock of \$50,000, to start an ice factory and an electric-light plant.

—At York, York Co., Mr. Daniel Weaver will erect a dwelling. Ground has been broken for the erection of some new six family apartment dwellings.

—At New London, Chester Co., the congregation of St. John's Episcopal Church has decided to erect a parish building. The Women's Auxiliary has decided to assist in raising the necessary funds for the proposed new building.

—At Steelton, Dauphin Co., the Pennsylvania Steel Company contemplate the erection of a large foundry. The plans and specifications are now being prepared by the company's draughtsman.

—At Erie, Erie Co., the Erie Printing Company will erect a printing house to cost about \$4,000. H. P. Dodsworth will erect two cottages. Timothy Driscoll, Mrs. Johnston and Henry J. Seven will each erect dwellings.

—At Johnstown, Cambria Co., Messrs. Lloyd & Son has a contract to erect a three-story brick residence on Lincoln street for Dr. W. E. Matthews. Arrangements have been completed for the erection of a Memorial Public Hospital.

—At Hatboro, Montgomery Co., Kimbel Brothers, farmers on the Byberry road, East of this borough, are having plans prepared for a fine residence, stable and other buildings to be erected on their land.

—At Allentown, Lehigh Co., Benninger Brothers will erect three two-story brick dwellings. W. H. Dishler will erect four two-story

brick dwellings. A. J. Reichard and Mrs. Eugene Miller will each erect dwellings.

—At Corry, Erie Co., a new National Bank has been organized with a capital stock of \$200,000. Congressman W. C. Culbertson, of Girard, Pa., and R. S. Battles and Martin Stark, of Corry, are interested in the project.

—At Saint Clair, Schuylkill Co., a number of prominent citizens have organized a company for the purpose of erecting a building in which to manufacture safety-lamps and miner's tools of various kinds.

—At Middletown, Dauphin Co., at a recent meeting of the Council of St. Peter's Lutheran Church congregation, it was decided to sell the old parsonage and purchase a site and erect a new one. Messrs. S. L. Yetter, J. E. Carmany and James Nicely can give further information.

—At Doylestown, Bucks Co., Messrs. John R. Bitting, James Flack, J. Harrison Wilson, Jonas Kerns and William Hoffman compose the committee to investigate the different methods of electric-lighting, with a view of introducing some system for the lighting of Doylestown. The Baptist congregation has decided to erect a parsonage to cost \$4,000.

—At Reading, Berks Co., at the meeting of Eastern Synod of the Reformed Church, a communication was received, calling attention to the inadequate accommodations of the Theological Seminary, at Lancaster. Rev. J. F. Moyer, of Hummelstown, Pa., was elected treasurer of the Synod, and can give information.

—At Scottdale, Westmoreland Co., the Presbyterian congregation have purchased a lot on the corner of Lauck's avenue and Grant street, and will erect a parsonage thereon. A co-operative company has just been organized with a capital stock of \$25,000, and will erect a shoe factory at Villeroi, which will employ fifty hands.

—At Phoenixville, Chester Co., the trustees of the Stratford Castle, of the Knights of the Golden Eagle, have waited upon Mr. David Reeves, president of the Phoenix Iron Company, and laid before him a proposition for the purchase of the Richard's mansion and grounds, located near the Reading and Pennsylvania Railroads, for the purpose of establishing a hospital.

—At Coatesville, Chester Co., at a recent congregational meeting, plans for the new Presbyterian Church were adopted. These plans call for a building of white Avondale limestone, with Indiana limestone trimmings. Steam heat will be introduced and all modern improvements. The pastor of the church is Rev. Henry A. MacKubbin. The building committee consists of the following gentlemen: W. S. Harlan, E. D. Baldwin, Dr. H. A. McClure, H. J. Branson and James B. Wright.

—At Lancaster, Lancaster Co., at a meeting of the special committee of the School Board to consider plans for two new school buildings, the committee decided to recommend to the School Board the plans submitted by Architect James H. Warner, of Lancaster. The plans call for two buildings, each three stories high, and each containing twelve rooms, one is Romanesque in style of architecture and the other gothic. The material will be brick, with brown-stone trimmings and handsome interior finish, and they will be heated and ventilated by the Smead, Wills & Company's system. The committee further recommended that proposals be advertised for at once, and the building contracts be awarded as soon as possible, so that active building operations be begun early in the spring.

—At Pittsburg, W. A. Herron & Sons, 80 Fourth avenue, have sold a lot 110x120 feet, at Howe and College avenues, to a manufacturer for \$11,000. The purchaser will improve the site at once. T. H. Scott, 531 Wood street, has prepared plans for a dwelling for Mr. John Pierson, to be erected on Woodland avenue, Al-

legheny. F. C. Sauer, Sixth and Liberty streets, has prepared plans for a dwelling for Mr. John Urban, to be erected at East End. Hamilton, Lemon, Arnold & Company, of Allegheny, will erect a large carpet factory on Mulberry street, from plans prepared by Alston & Heckert, 501 Market street. The main building will be 40x75 feet, four stories high, elevator, etc., cost \$10,000. Wm. A. Renshaw will erect a two-story frame dwelling to cost \$5,000. J. P. Bailey, 43 Sixth avenue, has prepared plans for two frame dwellings and a stable for R. P. Crawford, to be erected at Parnassus.

—At Wayne, Delaware Co., the Methodist Church has been started and will be pushed, so as to be finished by spring. It is being built of a local stone from the Fallon quarries. I. H. B. Spiers is about putting an addition to his house on Wayne avenue, and wants bids. John R. Frity has just sold a lot on Highland avenue to Louisa H. Butter, who intends to build a cottage. George P. Fallon has sold on same avenue a lot to Sallie E. Lodge and James Hutchings, both of whom are making preparations to build. The Radnor Library contemplate the erection of a building in the near future. Plans are now wanted for an appropriate building to cost about \$5,000. Christopher Fallon, 411 Walnut street, Philadelphia, has just given out a contract for the erection of a medium sized cottage on Highland avenue. Wendell & Smith has just broken ground for some new dwellings, those commenced last spring are being finished and sold.

for their pamphlet "Perfect Cooking" giving full description.

Men who Build HOUSES

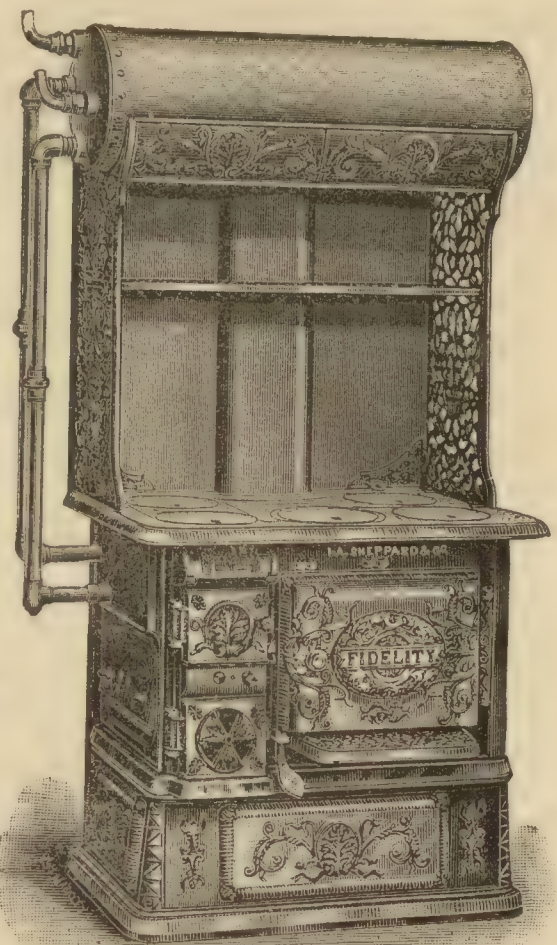

Need To Buy Ranges!

If they themselves occupy them of course the ranges should be good ones. If they intend selling or renting them good ranges in the kitchen will help the Builder or Owner to sell or rent to better advantage. In either case

\$5.00

INVESTED in a yearly subscription to this journal, if carefully read, and you are not too lazy to see the man who's going to build, will certainly prove the best investment you ever made in your life. Thousands of dollars in profit have been made by those who caught on to this idea years ago. Your economy that prompted the saving of five dollars per year by refusing to subscribe, has cost you many a cool hundred. Get aboard now Brother, while the fruit is ripening and the "lucky fellows" are reaching out far and wide for trade, while you are sorrowing because it don't come your way.

One of the Numerous Endorsements:

MESSRS. ROBERTS, TAYLOR & CO., AUGUST 8th, 1890.
GENTLEMEN:—I have used your paints on floors of Blasius & Sons' Piano Stores, 1101-1103-1119 Chestnut Street, and find it the best paint for the purpose I ever used. The pianos were rolled over them next morning, eight hours after they were painted, without the least mark, which could not be done with any other paint. Just think of pianos, some weighing 800, 1,000, 1,200 lbs., rolled over floors painted several hours before!

Your paint, when known to practical painters and the public, will take the lead of all others in the market for all work requiring hard surface and durability, and as such I highly recommend it. Yours, Etc.,

PHILADELPHIA, WED'Y. OCT. 29, 1890.

For the convenience of members of the Master Builders' Exchange, we have secured Box No. 199 at that place, where any communications for publication may be left.

We voice the sentiment of the citizens of Philadelphia.

FOR MAYOR,

Edwin S. Stuart.

He is Honest, Capable and Incorruptible.

A Rare and Beautiful Exhibit.

We respectfully ask the attention of our readers, to the advertisement of Ellis & Shaw, auctioneers, 1010 Chestnut street, of a sale of what might be termed the quaintest, as well as the most beautiful things on earth. The exhibition embraces many rare curios, fine embroideries, rare and costly porcelains, bronzes, magnificent carvings, arms, screens, hall vases, etc., in short, we doubt if such another collection of things beautiful and things useful, has ever been gathered here, outside of the Centennial, since Philadelphia has been a city. Gentlemen having a keen eye to windward in anticipation of Christmas time, with its responsibilities, will find this a rare chance to remember sweethearts and wives. The sale and exhibition, is open day and evening and the sale will be continued Oct. 29th, 30th and 31st, inst.

Through Maryland.

At Milford, Kent Co., the Milford planing mills, owned by P. F. Causey, and in tenure of J. K. Hobson, were totally destroyed by fire on October 21st. The loss is estimated at \$12,000, insured for \$8,000.

At Baltimore, the most important building permits issued to date are as follows: To Jas.

Bowers, to erect six two-story brick dwellings; to James L. Bowen, to erect ten two-story brick dwellings; to Joseph Bowers, six two-story brick dwellings; to Frederick Hennerly, to erect two two-story brick dwellings; to Harker & Allard, to erect one three-story and five two-story brick dwellings. V. G. Bloede, a one-story iron building. Joseph E. Russell will erect eleven two-story brick dwellings on Canton street, between Lancaster and Hudson streets, brick, with stone trimmings. The estimated cost is \$20,000. The Grand Lodge of Odd Fellows has appointed a building committee to supervise the construction of their new building, which will be erected at the Northwest corner of Cathedral and Saratoga streets. The first duty of the committee will be to decide upon the material for the exterior and for the style of architecture. The Order received \$147,000 for their old quarters, which were condemned as a part of the plan for opening up Douglass street. Mr. Henry Rabe will erect eight two-story dwellings on Eleventh street, near Reese street, at a cost of \$13,000. Mr. S. Solomon will erect a three-story business building on Little Sharp street at a cost of \$7,000. Hollins street, between Poppleton street and Arlington avenue, will likely be paved with asphalt.

Building and Real Estate Notes.

At Wissinoming, Phila., Mr. Barton Castor, is negotiating for a number of lots upon which to erect dwellings.

At Oak Lane, Phila., the vestry of St. Martin's Episcopal church, has given up the idea of erecting a church at the present time, but it has been decided to erect a chapel at once.

The new hotel to be built at Ventnor, N. J., for the Camden and Atlantic R. R., will soon be commenced, as all details are complete, this structure has been fully noted in our architectural notes in prior number.

Neaffie & Levy, ship builders, 1365 Beach street, have just bought the old Elm Tree hotel property, adjacent to their present quarters for the purpose of alteration to an office building which will be done at once, their present one being too small.

Peter Woll & Son, Hancock and Berks street, will erect a large storage house, on ground recently purchased adjoining their present plant, it is 34x75 feet and one story high, brick, stone trimmings, work will begin at once, as they are much in need of the space.

The Fifth and Sixth Street Railway is about to make an extensive addition to its stable, by putting up a structure 35x110 feet in size, and two stories high, to be constructed of brick, wood and iron, it will be located on N. W. cor. Jasper and Seargent streets. Contract let.

Dr. Geo. Parker, 1404 S. Sixth street, Phila., has purchased two fine lots at North Wales and will build there at an early day. Daniel Trexler, 123 Sharpnack street, has also bought at North Wales, for the purpose of building a dwelling, next spring.

M. L. Heist builder, 816 Lehigh avenue, is now grading for the erection of a row of dwellings, on east side of Eighth, above Somerset street, they will be two-stories high and of unique architectural design, to be of press brick,

stone trimmings and best of modern improvements. Mr. Heist designs his own plans entirely.

David H. & C. N. Titlow, undertakers, 951 Marlborough and 341 Richmond streets, have purchased through brokers, a lot on Broad below Tioga street, for the purpose of erecting a very large undertaking establishment, to contain all the most modern improvements and appliances known to the business. Size of lot 50x200 feet, the lot was formerly owned by Arthur Stewart.

Messrs Zook & Chase, 619 Walnut street, Phila., have sold the property of Alfred Worrest, in East Whiteland township, one mile north of Glenlock, to a prominent stock broker, who will convert the tract into a fine stock farm. The tract contains about one hundred and seven acres and adjoins the Cornog estate, recently purchased by the Crump Brothers, of the Colorado hotel, Phila.

The Reformed Episcopal Church, founded by the Rev. Saml. Tweedale, 5003 Penn street, Frankford and located at present in Wright's Institute, propose to erect a church at an early day, preparations are going on to enable contracts to be made, as they are in possession of plans which are adopted, the church will be 50x100 feet in size and will be located on a side street near Frankford avenue.

The chief materials needed by the successful contractor for the Post-office at Lancaster, Pa., and referred to in our Architects Notes, will be stone, iron beams and columns, cement, and cement work, slate and copper for roof, ornamental copper work, iron tanks for water, iron and lead pipe, iron stairs, wood rails, marble mantels of Tennessee rock and a large amount of press and rough brick, etc.

The trustees and faculty of the University of Penna., located on Darby road and Thirty-fourth street, are making arrangements to still further increase the facilities of the Institution, by adding another structure in the near future, this will be an alumni and auditorium building, to cost about \$100,000 and have a seating capacity of 2000, the structure will be brick and stone, an organ loft and large organ will be one of the features which is proposed, large doorways, arched, will be placed, they will be 17x45 feet wide, committee rooms and other adjuncts will be included in the structure, it will be fitted with steam heat, electric work and all modern conveniences, information further, can be had of the faculty and officers of the college.

SLAG-STONE PAVEMENT,

For Sidewalks and Floors, is conceded to be the best production of the present century.

Slag-Stone, when properly combined with the best grades of Portland Cement, produces an artificial Stone superior in appearance, toughness, tensile and crushing strength to any combination known to modern science. Its durability is greater than the best Flag-stone, and for that reason it is cheaper than brick.

Being a non-absorbent, it is superior for Canneries, Slaughter Houses, Damp Cellars, Boiler Houses, Dye Houses, etc.

For the Cellars of Residences it expresses the highest standard of perfect Sanitation, as it prevents the escape of noxious gases from the underlying soil and will not absorb impurities. It prevents dampness, is easily cleaned, and renders the whole house more comfortable and healthful.

ALSO

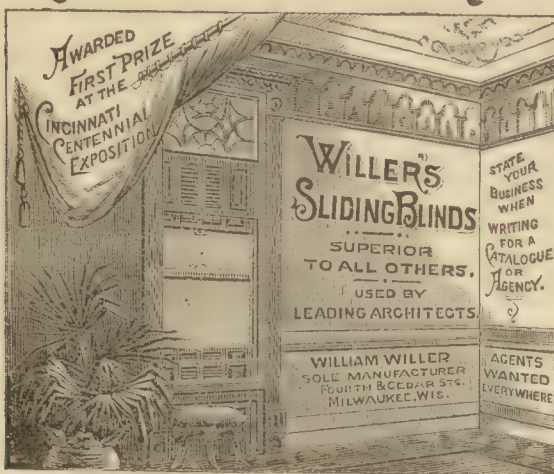

Coal-Tar-Concrete Work carefully and properly laid in City or Country, in the most substantial manner, and at prices in keeping with our guarantee for first-class work.

All responsible Dealers supply them.

for their pamphlet "Perfect Cooking" giving full description.

Men who Build HOUSES

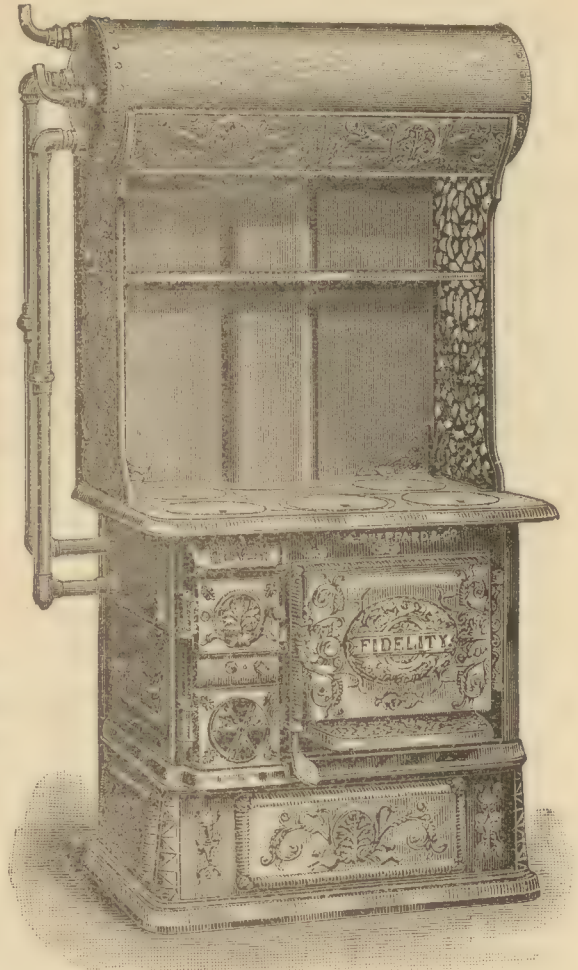

Need To Buy Ranges !

If they themselves occupy them of course the ranges should be good ones. If they intend selling or renting them good ranges in the kitchen will help the Builder or Owner to sell or rent to better advantage. In either case

\$5.00

INVESTED in a yearly subscription to this journal, if carefully read, and you are not too lazy to see the man who's going to build, will certainly prove the best investment you ever made in your life. Thousands of dollars in profit have been made by those who caught on to this idea years ago. Your economy that prompted the saving of five dollars per year by refusing to subscribe, has cost you many a cool hundred. Get aboard now Brother, while the fruit is ripening and the "lucky fellows" are reaching out far and wide for trade, while you are sorrowing because it don't come your way.

\$5.00 in Advance.
